

**Mission:**

To protect, promote & improve the health of all people in Florida through integrated state, county & community efforts.

**Rick Scott**  
Governor

**John H. Armstrong, MD, FACS**  
State Surgeon General & Secretary

**Vision:** To be the Healthiest State in the Nation

---

**INTEROFFICE MEMORANDUM**

**DATE:** March 6, 2014  
**TO:** County Health Department Directors/Administrators  
**FROM:** Celeste Philip, M.D., M.P.H.   
Deputy Secretary for Health  
**SUBJECT:** Kindergarten and Seventh Grade Immunization Status Report 2013-2014

**INFORMATION ONLY**

---

Each October, all public and private schools with a kindergarten and/or seventh-grade class are required to submit reports indicating the immunization status of their kindergarten and/or seventh-grade students. This information is compiled and sent to the Immunization Section for tabulation. Enclosures 1 through 4 are summaries of kindergarten data, and enclosures 5 through 8 are summaries of seventh-grade data for the 2013-2014 school year. This information reflects immunization coverage for 233,797 kindergarten students and 228,273 seventh-grade students.

Purpose:

- To decrease the occurrence of vaccine-preventable diseases by increasing immunization coverage levels among school-age children.
- To ensure the enforcement of Chapter 64D-3.046, *Florida Administrative Code*, and section 1003.22, *Florida Statutes*, regarding immunization. The law states students are not permitted to attend school without proper documentation. Schools permitting said students are in violation of the state law, and said students should be excluded from school until adequate documentation is provided.
- To identify those counties needing assistance in raising their immunization coverage levels in kindergarten and seventh grade to Florida's goal of 95%. The national goal for kindergarten and seventh grade is 95% and 90%, respectively.

Results – Kindergarten:

Statewide, 93.2% of kindergarten students were reported as receiving all immunizations (listed below) required for school entry/attendance:

- Four or five doses of diphtheria, tetanus, pertussis (DTaP) vaccine
- Three, four, or five doses of polio vaccine
- Two doses of measles, mumps, and rubella (MMR) vaccine

- Three doses of hepatitis B vaccine
- Two doses of varicella vaccine

Of Florida's 67 counties, 33, or 49.3%, achieved or exceeded the 95% state goal of kindergarten students receiving all required immunizations upon school entry/attendance. Statewide, 334 students, or 0.1%, had inadequate immunizations and/or documentation of immunizations. Students with exemptions from immunization accounted for 6.6% of the total kindergarten population, as reflected below:

- 7,035 temporary medical exemptions, or 3.0%
- 772 permanent medical exemptions, or 0.3%
- 3,991 religious exemptions, or 1.7%
- 3,720 30-day exemptions, or 1.6%

#### Results – Seventh Grade:

Statewide, 96.6% of seventh-grade students were reported as receiving all immunizations required for school entry/attendance, including but not limited to:

- Completion of the hepatitis B series
- Two doses of measles, mumps, and rubella (preferably as MMR)
- One dose of varicella
- One dose of tetanus-diphtheria-pertussis (Tdap)

Sixty of 67 counties, or 89.6%, achieved or exceeded the 95% state goal of seventh-grade students receiving all required immunizations. Statewide, 405 students, or 0.2%, had inadequate immunizations and/or documentation of immunizations. Students with exemptions from immunization accounted for 3.2% of the total seventh-grade population, as reflected below:

- 3,253 temporary medical exemptions, or 1.4%
- 681 permanent medical exemptions, or 0.3%
- 2,284 religious exemptions, or 1.0%
- 1,046 30-day exemptions, or 0.5%

For both kindergarten and seventh grade, the percentage of temporary medical exemptions decreased from the previous school year. It is important to remember 30-day exemptions should be issued to transfer students only. Inadequately immunized, non-transfer students should be permitted school entry or attendance only after presenting proper documentation of vaccination. The school health nurse or authorized school official is responsible for follow-up of children with temporary medical and 30-day exemptions, and ensuring children complete the immunization series.

Collaboration between the school's health nurse and administration to update electronically submitted immunization data is encouraged. Using a reminder system to recall students in need of immunization has shown to increase coverage rates; Tdap and hepatitis B in particular. Continue to partner with schools, school districts, managed care organizations, and private healthcare providers, to promote the *Standards for Child and Adolescent Immunization Practices*. We also encourage you to contact your

local area field staff representative to assist with identifying areas of need and developing strategies for increasing your county's school immunization rates. Collaborative efforts will help us reach our state school coverage goal and enable us to achieve our common goal of providing the best protection possible against vaccine-preventable diseases.

The Immunization Section would like to thank our community partners, especially the DOE, school districts, and the local schools, for their efforts regarding the compulsory school immunization law; thereby assisting in the decrease of vaccine-preventable diseases. If you have any questions or concerns regarding this report, please contact our survey and assessment consultant, Ms. Amy Wilson, at 850-245-4444, extension 2395.

<sup>1</sup>Chapter 1003.22, Florida Statutes provides for the requirement of proper documentation prior to school entry into Kindergarten.

<sup>2</sup>Florida Certification of Immunization (DH 680 Form, Part A) is issued when 5 or more doses (valid) of any diphtheria and tetanus toxoids and pertussis vaccines including diphtheria and tetanus toxoids, and any acellular pertussis vaccine (DTaP/DTP/DT), 4 or more doses of any poliovirus vaccine, 2 doses of measles, mumps, and rubella (MMR) vaccine, 3 or more doses of hepatitis B vaccine, and two doses of varicella vaccine (or disease history) are administered. *Four doses of DTaP and 3 doses of polio are acceptable if the last dose of each was administered on or after child's fourth birthday.*

<sup>1</sup>Chapter 1003.22, Florida Statutes provides for the requirement of proper documentation prior to school entry into Kindergarten.

<sup>2</sup>Florida Certification of Immunization (DH 680 Form, Part A) is issued when 5 or more doses (valid) of any diphtheria and tetanus toxoids and pertussis vaccines including diphtheria and tetanus toxoids, and any acellular pertussis vaccine (DTaP/DTP/DT), 4 or more doses of any poliovirus vaccine, 2 doses of measles, mumps, and rubella (MMR) vaccine, 3 or more doses of hepatitis B vaccine, and two doses of varicella vaccine (or disease history) are administered. *Four doses of DTaP and 3 doses of polio are acceptable if the last dose of each was administered on or after child's fourth birthday.*

<sup>1</sup>Includes preliminary data for Flagler County public school district.

<sup>2</sup>Second dose of mumps, rubella, and varicella vaccines required. Survey does not capture total number of private schools reporting.

<sup>3</sup>National shortage of diphtheria and tetanus toxoids and acellular pertussis vaccine (DTaP) increased the number of temporary exemptions.

<sup>4</sup>Varicella vaccine (or disease history) required.

<sup>5</sup>Hepatitis B series required.

<sup>6</sup>Second dose of measles vaccine (preferably as MMR) required.

<sup>1</sup>Chapter 1003.22, Florida Statutes provides for the requirement of proper documentation prior to school entry into seventh grade.

<sup>2</sup>Florida Certification of Immunization (DH 680 Form, Part A) is issued when 4 or more doses (valid) of any diphtheria and tetanus toxoids and pertussis vaccines (DTaP/DTP/DT) and 1 dose of Tdap (tetanus toxoid, reduced diphtheria toxoid and acellular pertussis), 4 or more doses of any poliovirus vaccine, 2 doses of measles, mumps, and rubella (preferably as MMR), 3 or more doses of hepatitis B vaccine, 1 dose of varicella vaccine (or disease history) are administered. One dose of Tdap and two doses of Td are acceptable if the CDC catch-up schedule is utilized. Three doses of polio vaccine are acceptable if the last dose was administered on or after child's fourth birthday.

<sup>1</sup>Chapter 1003.22, Florida Statutes provides for the requirement of proper documentation prior to school entry into seventh grade.

<sup>2</sup>Florida Certification of Immunization (DH 680 Form, Part A) is issued when 4 or more doses (valid) of any diphtheria and tetanus toxoids and pertussis vaccines (DTaP/DTP/DT) and 1 dose of Tdap (tetanus toxoid, reduced diphtheria toxoid and acellular pertussis), 4 or more doses of any poliovirus vaccine, 2 doses of measles, mumps, and rubella (preferably as MMR), 3 or more doses of hepatitis B vaccine, 1 dose of varicella vaccine (or disease history) are administered. One dose of Tdap and two doses of Td are acceptable if the CDC catch-up schedule is utilized. Three doses of polio vaccine are acceptable if the last dose was administered on or after child's fourth birthday.
