

Jeb Bush
Governor

John O. Agwunobi, M.D., M.B.A.
Secretary

September 26, 2002

Mr. David Lawler
Roebic Laboratories, Inc.
PO Box 927
Orange, CT 06477

Dear Mr. Lawler:

This letter is to acknowledge receipt of the information concerning the products " **Roebic K- 37, Roebic K- 47, Roebic K-57, Roebic K-87, and Roebic Grease Destroyer** " for statewide use in Florida. No product sold in the state for use in onsite sewage treatment and disposal systems may contain any substance in concentrations or amounts that would interfere with or prevent the successful operation of such system, or that would cause discharges from such systems to violate applicable water quality standards, section 381.0065(4)(m), Florida Statutes.

The staff has reviewed the information provided in the MSDS, 96-hr LC₅₀ toxicity test results, and laboratory results on volatile organic compounds for the product. The department has determined that the following products are in compliance with s. 381.0065(4)(m), F.S. and has no objection to the use of the product in accordance with manufacturer's specifications:

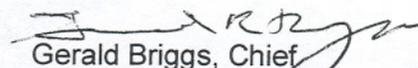

Roebic K-37 Septic Tank Treatment
Roebic K-47 Cesspool Treatment
Roebic K-57 Septic & Cesspool Cleaner
Roebic K-87 Soap Digester
Roebic Grease Destroyer

Please be advised that all rules pertaining to the use of the products shall be observed and that there shall be no advertising of the products as state approved.

Be advised that the department is not a testing agency and that this determination reflects only a review of the information submitted by you for compliance with Florida Statutes and Florida Administrative Code. The product evaluation does not investigate the validity of performance claims by manufacturers. For this reason, departmental acceptance must not be interpreted as certifying effectiveness, endorsing or recommending use of an additive. The Florida Department of Health also does not assume liability for any promise, guarantee or expectation from purchasing or using an additive. The department reserves the right to withdraw acceptance if product formulation or ingredients are modified after product evaluation by the department or subsequently found not to be in compliance with rule. This letter of product compliance is limited to Department of Health jurisdictional circumstances as defined in Chapter 64E-6, Florida Administrative Code and Chapter 381.0065, Florida Statutes.

If we may be of further assistance or should you have any additional questions regarding this letter, please call Dr. Sonia Cruz at (407) 317-7325.

Sincerely,

Gerald Briggs, Chief
Bureau of Onsite Sewage Programs

Division of Environmental Health, Bureau of Onsite Sewage Programs
4052 Bald Cypress Way, Bin #A08, Tallahassee, Florida 32399-1713

ROEBIC®

K-87

Soap Digester

ROEBIC K-87 Soap Digester is formulated for homes with separate drywells for laundry and/or kitchen wastewater. These "greywater" systems can become troublesome because soaps and detergents which are hard to degrade, and are often toxic to natural bacteria, accumulate and clog the system.

K-87 contains specialized, patented bacteria that live on soaps and detergents by enzymatically breaking them down. This results in less accumulation and better water drainage into the soil.

K-87 is also recommended for use in any **septic tank or cesspool** containing laundry or kitchen soap wastes without affecting the other bacteria essential to keeping the system running smoothly.

Use 1 quart per 500 gallon capacity.

DIRECTIONS

Shake well and pour contents down kitchen sink, laundry standpipe, tub or any soap-clogged drain. Discard container. Use four times a year, or as needed. **DO NOT APPLY THROUGH WASHER**

Non-Flammable

CAUTION: Harmful if taken internally.

Keep out of reach of children
