

Under Construction

Madison County Memorial Hospital continues to make progress on the construction of a new hospital replacement facility in Madison, Florida. The new facility is located adjacent to North Florida Community College and replaces the existing hospital which was built in 1954. The new hospital is expected to open in June of 2014.

The construction of the new facility is being financed with the assistance of a \$22.54 million community facility loan from the U.S. Department of Agriculture. The loan was made possible by a one half cent local option sales tax approved by Madison County residents in a referendum in November 2006.
