Page last modified 18:21, 28 Sep 2010 by HollyM

Welcome to the CodeReady Disaster Planning and Response Site

This is a publicsite for sharing information with employees, their families and the community in the event of a disaster or major incident.

For those having a login the secure portion of the site also provides planning information, a collaborative environment for facility Emergency Planners to share ideas and a real time information platform for response to disaster situations.

EMERGENCY EVENTS:

At this time there are no advisories regarding disaster response or relief efforts affecting any HCA facilities. In the event of a major emergency, information for employees, staff and community members will be posted as necessary.

 - Remaining 70 Rerouted to DFW and Transferred to Love field
 - Chartered a Commercial Jet Field to Private Airstrip
 - 108 RNs Delivered Prior to Landfall

Joint Commission Credentialing Definition

The process of assessing and validating the qualifications of a licensed independent practitioner (LIP) to provide health services.

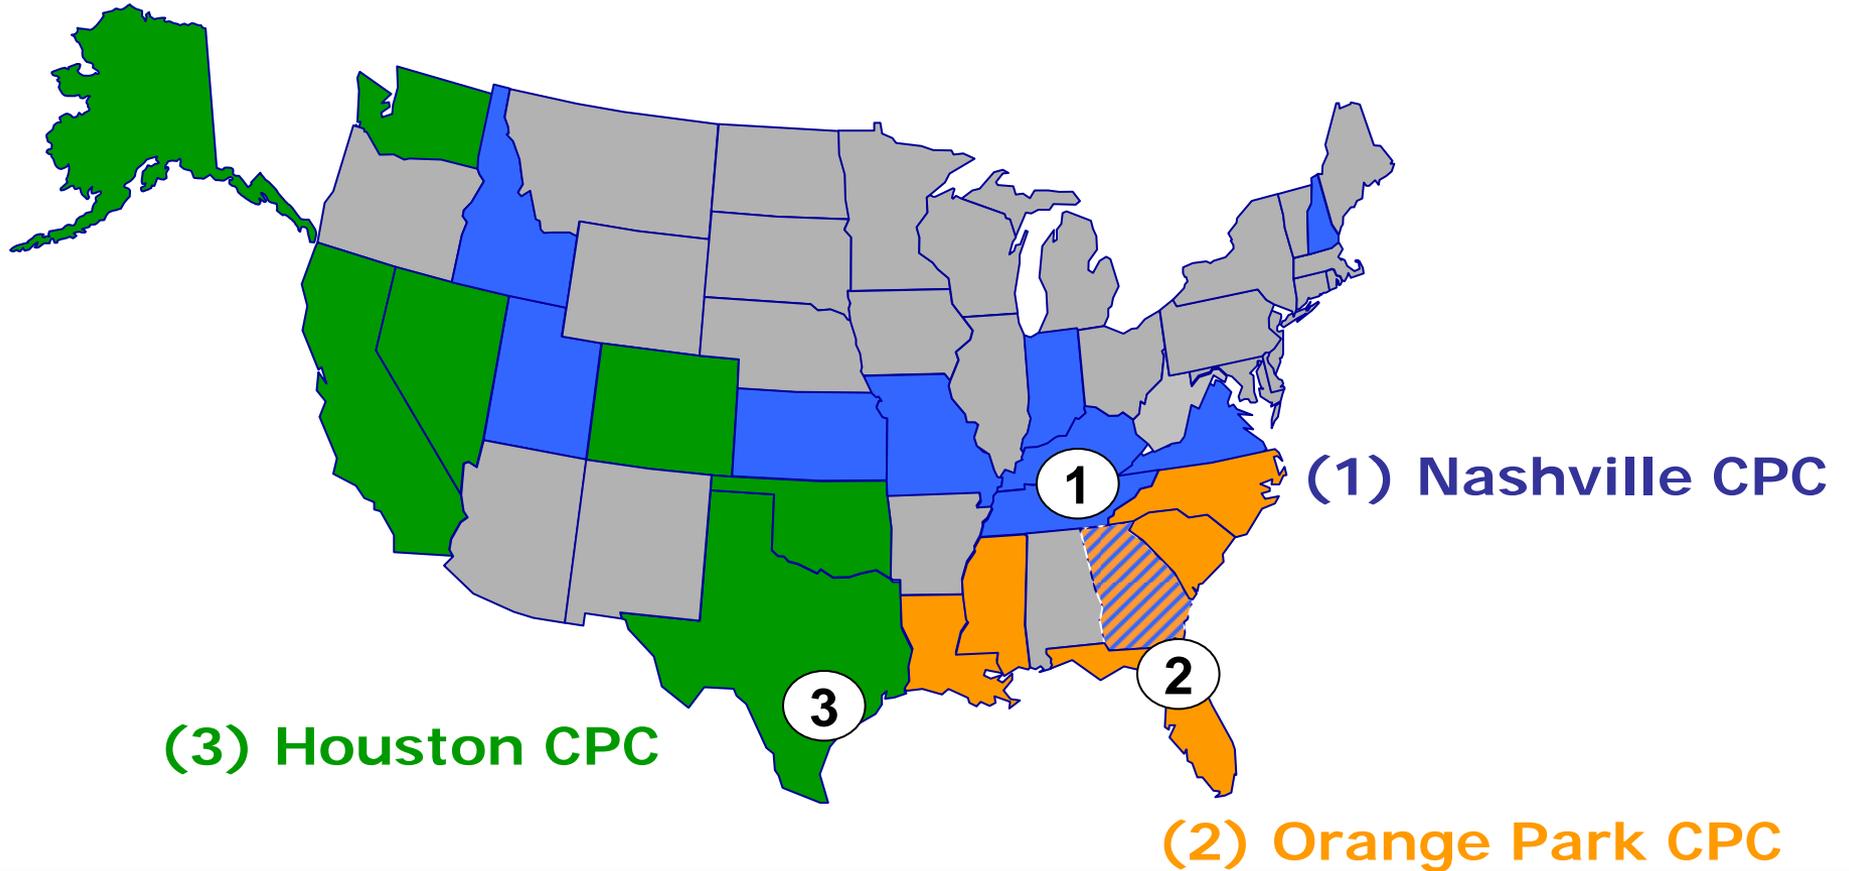

Credentialing 3-Phase Process

- Each entity establishes the minimum requirements for medical staff membership.
- Each entity determines training & experience necessary to carry out procedures and/or treatments (usually by specialty).
- Each clinician's qualifications are assessed and validated against the established criteria and officially approved or denied membership and/or requested privileges.

Why credential?

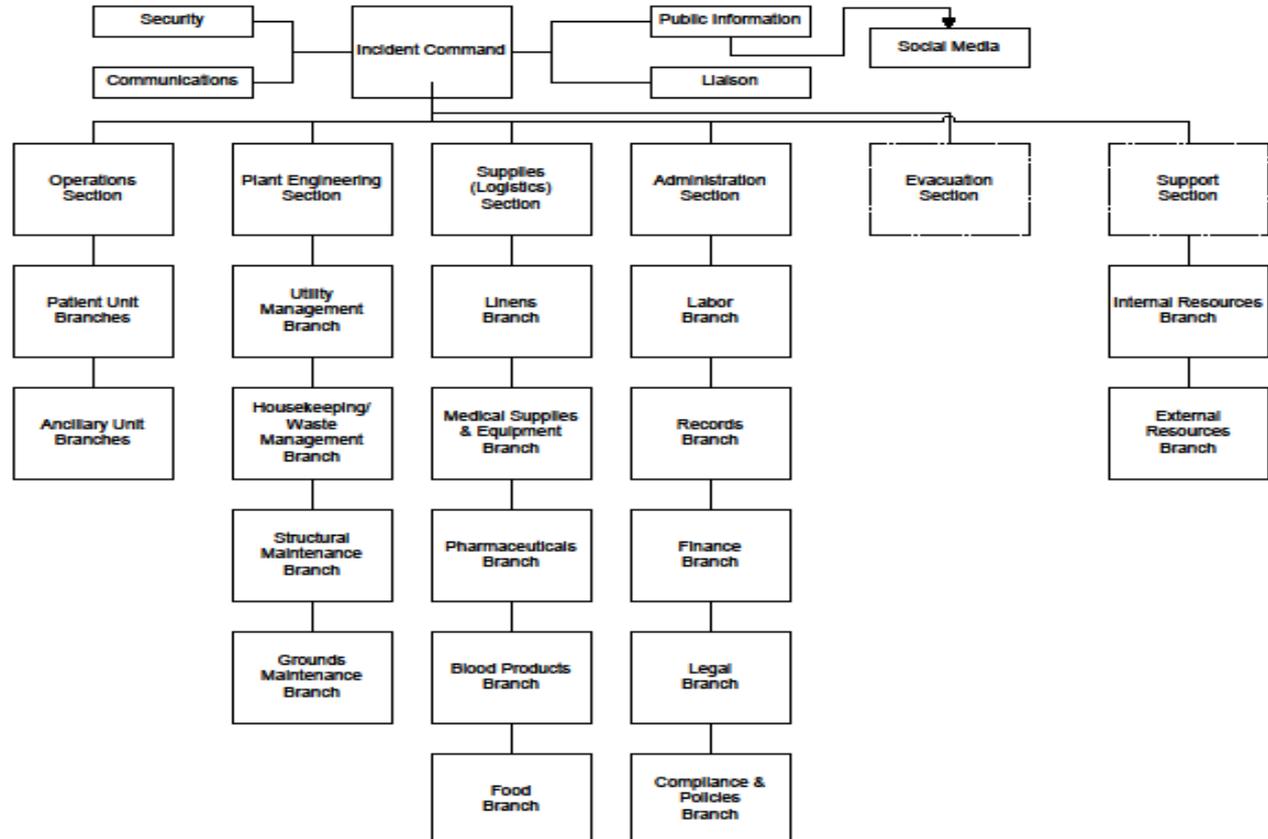

- Ensure high-quality patient care
- Protect the public from incompetent providers
- Minimize the hospital's legal risk
- Fulfill Joint Commission and other regulatory requirements
