

Recommended or Required?

Do You Know the Difference?

Federal Recommendations

Each year, the Advisory Committee on Immunization Practices (ACIP) publishes immunization schedules for persons aged 0 through 18 years. These schedules summarize recommendations for routine vaccines for children ages 18 years and younger.

State Requirements

Prior to entry, attendance or transfer to preschools, schools (K-12), licensed child care facilities, and family day care homes, each child shall have on file a *Florida Certification of Immunization* (Form DH 680) documenting the completion of all required vaccine doses.

Vaccine Name	Vaccine	Ages of Recommended Doses						School Requirements
