

There's another name you need to choose before your baby is born -- the name of your baby's doctor

How do you choose a doctor? Try these tips:

- ✓ Visit the doctor's office to get a sense of how they operate
- ✓ Meet the doctor in person and ask any questions you need answered about the practice
- ✓ Ask other parents which doctor their child uses and if they would recommend him or her

Remember to tell the hospital which doctor you selected when you are admitted so they can send your baby's Newborn Screening results to your doctor.
