

Active Shooters in the Hospital Environment
Thursday, February 2, 2012
1:00 PM – 2:15 PM (Eastern)

The purpose of the program is to provide participants with information and resources that can be used to prevent and manage workplace violence, in particular, active shooters within the hospital environment. The information provided will address the importance of planning and involvement of all levels of staff in order to assure the safety of employees, patients, visitors and medical staff.

Learner Objectives

Upon completion of the program, the participant will be able to:

- ◆ Describe key elements of planning, the importance of having a written plan and communicating it in advance
- ◆ Explain the importance of recognizing the signs of potential violence
- ◆ Describe actions that can be taken when confronted with an active shooter and the law enforcement response
- ◆ Describe how to manage the consequences of an active shooter incident
- ◆ Explain the importance of implementing HICS

Presenters:

James C. Kendig
Safety and Security Surveyor
