

Best Practices for Building and Sustaining HealthCare Coalitions.

September 25, 2013
2:00-3:15 PM EST

Purpose

By popular demand, we continue our series on HealthCare Coalitions (HCC). This month's Wednesday Webinar discusses, '**Best Practices for Building and Sustaining a Healthcare Coalition**'. In last month's webinar, we discussed the definition of a HealthCare Coalition, essential members and requirements for formalizing a HCC coalition. This program brings additional, essential information from the Medical Surge Unit and best practices from guest speakers who have participated in building a HealthCare Coalition from the ground up. These speakers bring experience, knowledge and lessons learned for not only building but sustaining an HCC. These speakers provide tips for developing mission / vision statements, goals and objectives and much more for your HCC. In addition, the speakers share tips on governance, documentation, voting and other procedural issues for achieving recognition as a HealthCare Coalition in Florida. The speakers will also discuss how to keep an even playing field to assure all members feel they have equal representation in the coalition process. We hope you will join us for this most valuable presentation. As an added bonus, we will provide handouts and templates useful in coalition development and facilitation.

Learning Objectives:

Upon completion of the program, the participant will be able to:

- Discuss initial steps for forming a HealthCare Coalition. .
- List methods of governance for coalitions.
- Discuss procedural options for conducting coalition meetings
- List alternative financial support options
- Identify documentation necessary for meetings and record keeping
- Understand how to 'keep the playing field level'.
