**Florida Department of Health
Bureau of Preparedness and Response
Multi-Year Training and Exercise Plan (MYTEP)**

Preface

The Florida Division of Emergency Management (DEM) is responsible for developing and maintaining the State of Florida Multi-Year Training and Exercise Plan (MYTEP). That document represents all of the domestic security interdisciplinary training and exercise goals and is updated and refined annually. DEM utilizes a standard roll up collection process that allows for inputs from both the county and state departments, including the Department of Health (DOH). The State of Florida MYTEP provides a roadmap for Florida to follow in accomplishing the priorities described in Florida's Domestic Security Strategic Plan. Each state priority is linked to a corresponding national priority, and, if applicable, an Improvement Plan (IP) action item. The priority is further linked to the associated target capabilities and the training and exercises that will help the jurisdiction obtain those capabilities.

The DOH Public Health and Healthcare Preparedness (PHHP) MYTEP is one of several inputs into the State of Florida MYTEP. The document is updated annually and follows a similar roll up collection process utilized by DEM. The PHHP MYTEP is published in the month of April and submitted to the DEM for inclusion in the State of Florida MYTEP. The PHHP MYTEP provides the framework for training and exercise priorities to meet the goals, objectives and strategies of the Florida Public Health and Healthcare Preparedness Strategic Plan. This plan is in effect from 1 April 2016 through 31 March 2020 or until superseded.

Points of Contact (POCs)

Training and Exercise Program Manager:

Ben St. John
Bureau of Preparedness and Response
Division of Emergency Preparedness and Community Response

**Florida Department of Health
Bureau of Preparedness and Response
Multi-Year Training and Exercise Plan (MYTEP)**

Purpose

The purpose of this 2016-2020 PHHP MYTEP is to provide training and exercise priorities and strategies to support the **Florida Public Health and Healthcare Preparedness Strategic Plan**, hereafter cited as the “PHHP Strategic Plan.” The MYTEP is a tool to implement the PHHP Strategic Plan Goal 1, Strategy 1.3

-Sustain the infrastructure for a comprehensive and efficient Training and Exercise system to ensure public health and healthcare workforce readiness.

In addition to the PHHP Strategic Plan, the 2060-2020 MYTEP priorities were identified using the following national standards:

- **CDC Public Health Preparedness Capabilities: National Standards for State and Local Planning, March 2011**
- **ASPR Healthcare Preparedness Capabilities, January 2012**
- **After Action Report data from statewide exercises and real events**
- **Emergency Operations Plans**

The Strategic Plan capabilities align with federal guidance documents and for the purposes of this document are grouped as follows:

<u>PHEP (CDC)</u>	<u>HPP (ASPR)</u>	<u>PHHP Strategic Plan</u>
1. Community Preparedness	Healthcare Systems Preparedness	Community and Healthcare System Preparedness
2. Community Recovery	Healthcare Systems Recovery	Community and Healthcare System Recovery
3. Emergency Operations Coordination	Emergency Operations Coordination	Public Health and Healthcare System Emergency Operations Coordination
4. Emergency Public Information and Warning		Crisis and Emergency Risk Communication
5. Fatality Management	Fatality Management	Public Health and Healthcare System Fatality Management
6. Information Sharing	Information Sharing	Public Health and Healthcare System Information Sharing
7. Mass Care		Mass Care
8. Medical Countermeasure Dispensing		Medical Countermeasure Dispensing

**Florida Department of Health
Bureau of Preparedness and Response
Multi-Year Training and Exercise Plan (MYTEP)**

9. Medical Materiel Management and Distribution		Medical Logistics
10. Medical Surge	Medical Surge	Public Health and Healthcare System Medical Surge
11. Non-Pharmaceutical Interventions		Non-Pharmaceutical Interventions
12. Public Health Laboratory Testing		Public Health Laboratory Testing
13. Public Health Surveillance and Epidemiological Investigation		Public Health Surveillance and Epidemiological Investigation
14. Responder Safety and Health	Responder Safety and Health	Responder Safety and Health/Healthcare System Responder Safety and Health
15. Volunteer Management	Volunteer Management	Public Health and Health Care System Responder Management
16.		Critical Infrastructure Protection
17.		Planning
18.		Strategic Program Management and Administration
19.		Training and Exercise
20.		Environmental Health

**Florida Department of Health
Bureau of Preparedness and Response
Multi-Year Training and Exercise Plan (MYTEP)**

The PPHP MYTEP covers training and exercise priorities that are common across the entire state. In addition, the public health and healthcare community is encouraged to participate in their county emergency management MYTEP process; this ensures that their community priorities are addressed. To foster coordination, increase collaboration and to be more efficient, all agencies hosting public health and healthcare related training and exercise events are requested to post the information on the Department of Health, Bureau of Preparedness and Response Training and Exercise calendar, which can be found at <http://calendar.doh.state.fl.us/main.php?calendar=PrepResponse>.

Identified training and exercise needs are targets that county health departments, capabilities, and health care coalitions will strive to achieve in the identified year group. County Health Departments (CHD), capability leads, or healthcare coalitions are not anticipated to meet every training or exercise objective for every capability identified in the tables, but should strive to meet those that are of the highest priority for them in addition to other localized priorities that may not have been included here. The Florida Division of Emergency Management's annual Statewide Hurricane Exercise provides a unique opportunity for all Department of Health entities with response or support responsibilities to test capabilities with state, coalition and other local partners

The Florida Department of Health utilizes the Homeland Security Exercise and Evaluation Program (HSEEP) as the standard for exercise management. Adherence to the policy and guidance presented in the HSEEP methodology ensures that exercise programs conform to established best practices and helps provide unity and consistency of effort for exercises at all levels of government.

Public Health and Healthcare Preparedness Program Training and Exercise Priorities

In December of 2014, a Training and Exercise Planning Workshop (TEPW) was conducted where local level public health and healthcare system input was collected and consolidated by regional healthcare coalition representatives and presented at the TEPW. In addition, central office capability team representatives were asked to present a state level perspective for gaps in capabilities that can be addressed by training and exercises. Each of the participants provided the following inputs:

- Training Plan
- Exercise Plan
- 2016-2020 Training and Exercise Schedule

Priorities for the 2016-2020 planning cycle are grouped by:

- NIMS/ICS Training
- Grant Recommended Capability Training
- Remaining Capability Training
- Priority Capabilities for Exercises

New to the MYTEP planning process was a series of webinars to assist the preparation of the preliminary work. Additionally, the application of the Readiness: Training Identification Preparedness Planning (RTIPP) process was incorporated into the preliminary work process. RTIPP is a FEMA course that the Florida Division of Emergency Management (FDEM) offered statewide to introduce the concept of preparedness planning through the identification of gaps and goals. The RTIPP framework builds a bridge between planning and training to identify gaps and goals; and identifies priorities, audience, frequency of training, and sources for the training. The result was an extensive list of courses identified for local public health and healthcare as trainings both planned and desired by their members. Trainings were prioritized using the grant required capabilities identified by the Assistant Secretary for Preparedness and Response (ASPR). The capabilities that are grant required are listed below.

Training courses and exercises that support these capabilities are color coded within the HPP Multi-Year Training and Exercise Schedule. The information collected during the TEPW can be found in Appendix B: HPP Training and Exercise Planning Workshop Minutes.

As a grant requirement, healthcare coalitions must conduct one state-wide or sub-state full-scale or functional exercise that demonstrates at least one of the aforementioned capabilities. Coalitions identified their members' exercise priorities and then assigned one from each year within the current grant cycle that could serve as the coalition's qualifying exercise. Qualifying exercises are color coded within the HPP Multi-Year Training and Exercise Schedule.

NIMS/ICS Training

Participants selected their top three courses as it pertains to NIMS/ICS training. The three courses identified as priorities are:

1. G300 - Intermediate ICS for Expanding Incidents
2. L962 - Planning Section Chief
3. MGT 900 - Pandemic Planning Preparedness

Grant Recommended Capability Training

Grant language identifies a set of recommended capabilities for training. Within each of these capabilities, participants identified their top three trainings from the list of courses provided during the preliminary work process. The priorities for the grant recommended training capabilities are:

Emergency Public Information and Warning

1. FDOH All-Hazards Media Skills Workshop
2. FDOH Basic Crisis and Emergency Risk Communications
3. CDC Crisis and Emergency Risk Communications - Basic

Medical Countermeasure Dispensing

1. Mass Antibiotic Dispensing (MAD) Workshop
2. Inventory and Resource Management System (IRMS)
3. Working a Point of Distribution (POD)

Public Health Laboratory Testing

1. Chemical Threat Awareness Training
2. Infectious Substance Packaging & Shipping
3. Sentinel Lab LRN Training

Public Health Surveillance and Epidemiological Investigation

1. Essence Training
2. N-95 Fit Testing Train-the-Trainer
3. (Tie) Field Investigative Response and Surveillance Calls
3. (Tie) EPI-RIOT

Information Sharing

1. Everbridge ServFL Training
2. Communication Equipment Training
3. Web EOC/EM Resource/EM Constellation Training

Medical Surge

1. Alternate Care Site Training
2. Special Needs Shelter Management Level Course
3. Alternate Care Site Training for Health Care in Florida

Responder Safety and Health

1. Personal Protective Equipment (PPE)
2. AWR111W - Basic EMS Concepts for CBRNE
3. N-95 Fit Testing Train-the-Trainer

Recovery/COOP

1. DBH Team Training
2. Effective Communication for People with Disabilities Prior to, During, & After a Disaster
3. COOP Training

Remaining Capability Training

Capabilities not identified as recommended by the grant language were separated from the previous group. Participants again voted on their top three training priorities per capability. The training priorities for the remaining capabilities are:

Community and Healthcare System Preparedness

1. Alternate Care Site Training
2. Psychological First Aid
3. (Tie) Active Bystander Training
3. (Tie) Disability Awareness for Responders

Emergency Operations Coordination

1. ESF-8 Logistics Overview
2. ESF-8 Logistics Responder Management
3. ESF-8 Logistics Mission Management

Fatality Management

1. Disaster Behavioral Health Team Training
2. Disaster Behavioral Health First Aid Specialist Training with Children (C-FAST)
3. Cultural Competency in Disaster Response

Mass Care

1. Alternate Care Site Training
2. Special Needs Shelter Training
3. Special Needs Shelter Registration System

Medical Logistics

1. Point of Dispensing Training
2. Florida's Intro to Strategic National Stockpile & Mass Dispensing
3. SNS Planning Workshop

Non-Pharmaceutical Interventions

1. Hospital Emergency Response for Mass Casualty Incidents
2. Disaster Behavioral Health First Aid Specialist Training for Responders (R-FAST)
3. C-FAST

Responder Management

1. FDOH Team Leader Training
2. Medical Reserve Corps Core Competencies
3. Local MRC Unit Orientation

Critical Infrastructure Protection

1. Disaster Worker Safety
2. Remote Work Training

Environmental Health

1. CDC Shelter Assessment
2. EH Emergency Assessment Process
3. Radiological Response Volunteer Corp (RRVC)

Planning

1. COOP Training
2. COOP Train the Trainer
3. G235 - Emergency Planning

Priority Capabilities for Training

The final ballot for the Training portion of the workshop captured which three out of all of the capabilities were the highest priorities for training. The three priority capabilities are:

1. Community and Healthcare System Preparedness
2. Public Health and Healthcare Emergency Operations Coordination
3. Public Health and Healthcare System Medical Surge

Priority Capabilities for Exercises

The grant requires four capabilities be exercised in order for an exercise to meet the requirements of a qualifying exercise. Those four capabilities are:

- Community and Healthcare System Recovery
- Public Health and Healthcare System Emergency Operations Coordination
- Public Health and Healthcare System Information Sharing
- Public Health and Healthcare System Medical Surge

For the exercise portion of the workshop, participants were asked to rank their top three priorities to exercise. The top three exercise capabilities are:

**Florida Department of Health
Bureau of Preparedness and Response
Multi-Year Training and Exercise Plan (MYTEP)**

1. Community and Healthcare System Preparedness
2. Public Health and Healthcare Emergency Operations Coordination
3. Community and Healthcare System Recovery

Methodology and Tracking

Training and exercise strategies for implementing a system to support the training and exercise needs identified for 2016 -2020 are organized into the following categories:

- 1) Engage partners in identifying training and exercise needs for the public health and healthcare workforce.
- 2) Coordinate with partners to develop, review, approve, deliver and evaluate training and exercises to the public health and healthcare workforce.
- 3) Manage a system for training and exercise.

Additional Details

For additional information about the DOH training, exercise, and evaluation system, including the inputs utilized to create the MYTEP please visit <http://www.floridahealth.gov/preparedness-and-response/training-exercise/index.html>.

Tracey Vause	Emerald Coast Health Care Coalition
Ken Smithgall	Coalition for Health and Medical Preparedness
Dan Johnson	Region 4 Health and Medical Coalition

The Florida Department of Health, Bureau of Preparedness and Response, Training and Exercise Unit welcomed representatives from the Public Health Emergency Preparedness capabilities and Health Care Coalitions to the Training and Exercise Planning Workshop (TEPW) on Tuesday, December 2, 2014. The purpose of the TEPW was to discuss and develop inputs to the 2016-2020 Multi-Year Training and Exercise Plan (MYTEP).

Participants submitted prior to the workshop preliminary work that captured their capability or coalition’s training and exercise needs for the five year planning cycle. New to the preliminary work process was the application of the Readiness: Training Identification Preparedness Planning (RTIPP) process. RTIPP is a FEMA course that the Florida Division of Emergency Management (FDEM) offered statewide to introduce the concept of preparedness planning through the identification of gaps and goals. The RTIPP framework builds a bridge between planning and training to identify gaps and goals; and identifies priorities, audience, frequency of training, and sources for the training. Using the preparedness cycle, exercises are the demonstration of the capability as planned and trained.

Training and Exercise Unit staff compiled the group’s preliminary work into one document for discussion during the workshop. No capability or coalition is anticipated to meet every training or exercise priority identified. The purpose instead is to strategically plan for a training and exercise program that strengthens the state’s ability to prepare for and respond to public health emergencies.

**Florida Department of Health
Bureau of Preparedness and Response
Multi-Year Training and Exercise Plan (MYTEP)**

The end result of the workshop is a comprehensive set of data that includes not only the training and exercise needs of the capabilities and coalitions, but also a big picture perspective of the training and exercise trends amongst our public health and medical partners. These priorities are then translated into the Public Health and Health Care Preparedness program's MYTEP and ultimately contributes to FDEM's all inclusive, statewide MYTEP.

The MYTEP once completed will be distributed widely to our public health preparedness partners. Our partners will continue to meet on an annual basis at the TEPW to revisit, validate, and update the plan as needed. This plan is a living, breathing document that helps all public health preparedness partners plan build a meaningful, sustainable training and exercise program.

Participants were asked during the workshop to validate their submissions for the workshop and then take time to review the requests made by others. Each capability and coalition was allotted one ballot to identify their priorities in a number of categories. Below are the results from those surveys.

NIMS/ICS Training

Participants selected their top three courses as it pertains to NIMS/ICS training. The three courses identified as priorities are:

4. G300 - Intermediate ICS for Expanding Incidents
5. L962 - Planning Section Chief
6. MGT 900 - Pandemic Planning Preparedness

Grant Recommended Capability Training Priorities

Grant language identifies a set of recommended capabilities for training. Within each of these capabilities, participants identified their top three trainings from the list of courses provided during the preliminary work process. The priorities for the grant recommended training capabilities are:

Emergency Public Information and Warning

4. FDOH All-Hazards Media Skills Workshop
5. FDOH Basic Crisis and Emergency Risk Communications
6. CDC Crisis and Emergency Risk Communications - Basic

Medical Countermeasure Dispensing

4. Mass Antibiotic Dispensing (MAD) Workshop
5. Inventory and Resource Management System (IRMS)
6. Working a Point of Distribution (POD)

Public Health Laboratory Testing

4. Chemical Threat Awareness Training
5. Infectious Substance Packaging & Shipping
6. Sentinel Lab LRN Training

Public Health Surveillance and Epidemiological Investigation

4. Essence Training
5. N-95 Fit Testing Train-the-Trainer
6. (Tie) Field Investigative Response and Surveillance Calls

3. (Tie) EPI-RIOT

Information Sharing

4. Everbridge ServFL Training
5. Communication Equipment Training
6. Web EOC/EM Resource/EM Constellation Training

Medical Surge

4. Alternate Care Site Training
5. Special Needs Shelter Management Level Course
6. Alternate Care Site Training for Health Care in Florida

Responder Safety and Health

4. Personal Protective Equipment (PPE)
5. AWR111W - Basic EMS Concepts for CBRNE
6. N-95 Fit Testing Train-the-Trainer

Recovery/COOP

4. DBH Team Training
5. Effective Communication for People with Disabilities Prior to, During, & After a Disaster
6. Pilot COOP Training

Remaining Capability Training Priorities

Capabilities not identified as recommended by the grant language were separated from the previous group. Participants again voted on their top three training priorities pre capability. The training priorities for the remaining capabilities are:

Community and Healthcare System Preparedness

4. Priority #1 - Alternate Care Site Training
5. Priority #2 - Psychological First Aid
6. (Tie) Priority #3 - Active Bystander Training
3. (Tie) Priority #3 - Disability Awareness for Responders

Emergency Operations Coordination

4. ESF-8 Logistics Overview
5. ESF-8 Logistics Responder Management
6. ESF-8 Logistics Mission Management

Fatality Management

4. Disaster Behavioral Health Team Training
5. C-FAST
6. Cultural Competency in Disaster Response

Mass Care

4. Alternate Care Site Training
5. Special Needs Shelter Training

Florida Department of Health
Bureau of Preparedness and Response
Multi-Year Training and Exercise Plan (MYTEP)

6. Special Needs Shelter Registration System

Medical Logistics

4. POD Training
5. Florida's Intro to SNS & Mass Dispensing
6. SNS Planning Workshop

Non-Pharmaceutical Interventions

4. Hospital Emergency Response for Mass Casualty Incidents
5. R-FAST
6. C-FAST

Responder Management

4. FDOH Team Leader Training
5. MRC Core Competencies
6. Local MRC Unit Orientation

Critical Infrastructure Protection

3. Disaster Worker Safety
4. Remote Work Training

Environmental Health

4. CDC Shelter Assessment
5. EH Emergency Assessment Process
6. Radiological Response Volunteer Corp (RRVC)

Planning

4. COOP Training
5. COOP Train the Trainer
6. G235 - Emergency Planning

Priority Capabilities for Training

The final ballot for the Training portion of the workshop captured which three out of all of the capabilities were the highest priorities for training. The three priority capabilities are:

4. Community and Healthcare System Preparedness
5. Public Health and Healthcare Emergency Operations Coordination
6. Public Health and Healthcare System Medical Surge

Priority Capabilities for Exercises

For the exercise portion of the workshop, participants were asked to rank their top three priorities to exercise. The top three exercise capabilities are:

4. Community and Healthcare System Preparedness
5. Public Health and Healthcare Emergency Operations Coordination
6. Community and Healthcare System Recovery
