

# Be a Part of a Healthier Florida

## Protect Your Staff, Your Residents, Their Families, and the Community.

Chapter 400.141, *Florida Statutes*, requires licensed nursing home facilities to:

- Provide immunizations against influenza viruses by November 30 of each year to all residents.
- Confirm each resident has received immunizations against pneumococcal disease.
- Annually encourage and promote the benefits associated with immunizations against influenza viruses to employees.
