

## From the Early Steps State Office

Summer 2010

Dear Friends,

Hello and happy summer! Input from families is so important to Early Steps and can help improve services and supports for young children and their families throughout the state. One way we gather feedback is through an annual family survey. Early Steps is conducting a survey of families whose children recently received our services to ask how well the developmental needs of your child were met.

You might be contacted by someone from Early Steps to request your participation with this survey between May 19, 2010 and July 31, 2010. Your assistance in submitting a survey is important and greatly appreciated. The results of this survey will help us make improvements in Early Steps and it will also be used to report Florida's progress in meeting the needs of young children and their families. The information you provide is confidential and you will not be asked to sign your name, nor will it impact the services your family receives from Early Steps. You may either submit a hard copy of the survey or submit one on the internet. Specific instructions will be attached to your survey.

If you have any questions, feel free to talk with your Service Coordinator or Family Resource Specialist. Thank you for your participation and continued partnership with Florida's Early Steps system. We're all in this together!

Sincerest Regards,

*Kelly Purvis*, Lead State Parent Consultant  
Early Steps State Office
