

UNITED STATES DEPARTMENT OF EDUCATION  
OFFICE OF SPECIAL EDUCATION AND REHABILITATIVE SERVICES

JUN 27 2012

Honorable Kimberly A. Berfield  
Deputy Secretary  
Florida Department of Health  
4052 Bald Cypress Way, Bin A06  
Tallahassee, Florida 32399-1701

Dear Deputy Secretary Berfield:

Thank you for the timely submission of Florida's Federal fiscal year (FFY) 2010 Annual Performance Report (APR) and revised State Performance Plan (SPP) under Part C of the Individuals with Disabilities Education Act (IDEA).

The Department has determined that, under IDEA sections 616(d)(2)(A)(i) and 642, Florida meets the requirements of Part C of IDEA. The Department's determination is based on the totality of the State's data and information, including the State's FFY 2010 APR and revised SPP (including targets and improvement activities for each year through FFY 2012), other State-reported data, and other publicly available information. See the enclosure entitled "How the Department Made Determinations under Section 616(d) and 642 of the IDEA in 2012: Part C" for further details.

Specific factors affecting the determination made by the Office of Special Education Programs (OSEP) that Florida meets requirements under IDEA sections 616(d) and 642 include that: (1) Florida provided valid and reliable FFY 2010 data reflecting the measurement for each indicator; and (2) Florida reported high levels of compliance or correction of previously identified findings of noncompliance for Indicators 1, 7, 8A, 8B, 8C, 9, 10, 11, and 14. We commend Florida for its performance.

The enclosed table provides OSEP's analysis of the State's FFY 2010 APR and revised SPP and identifies, by indicator, OSEP's review of any revisions the State made to its targets, improvement activities (timelines and resources) and baseline data in the State's SPP. The table also identifies, by indicator: (1) the State's reported FFY 2010 data; (2) whether such data met the State's FFY 2010 targets and reflect progress or slippage from the prior year's data; and (3) whether the State corrected findings of noncompliance.

As you know, pursuant to IDEA sections 616(b)(2)(C)(ii)(I) and 642, your State must report annually to the public on the performance of each early intervention services program (EIS program) located in the State on the targets in the SPP. Pursuant to 34 CFR §303.702(b)(1)(A) in the final Part C regulations published on September 28, 2011, beginning with its reporting on the FFY 2011 performance of EIS programs in 2013, the State must report to the public by June 1. OSEP encourages the State to complete its reporting on the FFY 2010 performance of EIS programs as soon as practicable, if it has not already done so. In addition, your State must: (1) review EIS program performance against targets in the State's SPP; (2) determine if each EIS program "meets requirements" of Part C, or "needs assistance," "needs intervention," or "needs substantial intervention" in implementing Part C of the IDEA; (3) take appropriate enforcement action; and (4) inform each EIS program of its

determination. For further information regarding these requirements, see "The Right IDEA" website at: <http://therightidea.tadnet.org/determinations>. Finally, please ensure that your updated SPP is posted on the State lead agency's Web site and made available to the public, consistent with IDEA sections 616(d)(2)(C)(i)(I) and 642.

OSEP is committed to supporting Florida's efforts to improve results for children and youth with disabilities and looks forward to working with your State over the next year. If you have any questions, would like to discuss this further, or want to request technical assistance, please contact Dr. Tony G. Williams, your OSEP State Contact, at 202-245-7577.

Sincerely,

## **How the Department Made Determinations under Sections 616(d) and 642 of the Individuals with Disabilities Education Act in 2012: Part C**

In making our determination for each State under sections 616(d) and 642 of the Individuals with Disabilities Education Act (IDEA), we considered the totality of the information we have about a State. This includes the State's FFY 2010 Annual Performance Report (APR)/State Performance Plan (SPP); information from monitoring, including verification visit findings; and other public information, such as the State's performance under any existing special conditions on its FFY 2010 grant or a compliance agreement, longstanding unresolved audit findings, and other State compliance with the IDEA.

### FFY 2010 APR/SPP and Other Information

In reviewing a State's FFY 2010 APR/SPP, we considered both the submission of valid and reliable data and the level of compliance, including correction of noncompliance, as described below, as included in the State's final APR/SPP. We also reviewed other information (described below) that reflect the State's compliance with IDEA requirements.

With respect to data, for Indicators 1 through 13, we examined whether the State provided valid and reliable FFY 2010 data (*i.e.*, the State provided all the required data, the data were for the correct year and were consistent with the required measurement and/or the approved SPP, and whether we did not have other information (such as verification visit findings or inconsistent data within the APR) demonstrating that the data were not valid and reliable or the State indicated that the data were not valid and reliable).

With respect to compliance, we examined Indicators 1, 7, 8, 9, 10, 11, and 14 and looked for evidence that the State demonstrated substantial compliance through reporting FFY 2010 data that reflected a very high level of compliance (generally 95% or better). In addition, for Indicators 1, 7, and 8, a State could demonstrate substantial compliance if the State's FFY 2010 compliance data were at or above 75%, and the State reported that it had fully corrected FFY 2009 findings of noncompliance made under those respective indicators. As indicated in OSEP Memorandum 09-02, dated October 17, 2008 (OSEP Memo 09-02), beginning with the Department's determinations in 2010, for Indicators 1, 7, and 8, we considered a State to have demonstrated correction of previously identified noncompliance for any findings identified in FFYs 2007, 2008, and 2009 if the State verified correction of those findings consistent with OSEP Memo 09-02. In addition, we did not consider a State to be in substantial compliance for a compliance indicator based on correction of FFY 2009 findings of noncompliance if its reported FFY 2010 data were low (generally below 75%), consistent with OSEP Memo 09-02.

Indicator 9 evaluates the "timely" correction of FFY 2009 findings, so for this indicator we specifically examined both whether the State reported a high level of compliance (generally 95% or better) in timely correcting FFY 2009 findings of noncompliance, and that the State reported that it verified the correction of its FFY 2009 findings of noncompliance consistent with OSEP Memo 09-02. We did not consider Indicators 10 and 11 if the State reported less than 100% compliance, but fewer than 10 complaints or 10 fully adjudicated hearings, in recognition of the inequities in basing decisions regarding dispute resolution indicators on small numbers.

Generally, and absent any other issues (see below), we considered a State to "meet requirements" if the State: (1) Provided valid and reliable FFY 2010 data for all indicators as described above; and

(2) Demonstrated substantial compliance, as described above, for compliance Indicators 1, 7, 8, 9, 10, 11, and 14. If a State did not meet the standards for substantial compliance for only one of these compliance indicator and there were no other factors (see below), we considered the State to “meet requirements” if the compliance level for that indicator was high (generally at or above 90%). In no case, however, did we place a State in “meets requirements” if it failed to provide valid and reliable FFY 2010 data (as defined above) for Indicators 1 through 13.

Generally, and absent any other issues (see below), we considered a State to be “in need of intervention” for one of three reasons that are explained further in this paragraph: very low compliance data, failure to provide valid and reliable data for a compliance indicator, or longstanding noncompliance that was the subject of Departmental enforcement for a key IDEA requirement. First, we identified a State as “in need of intervention” if the State’s FFY 2010 compliance data demonstrated: (1) Very low performance for Indicators 1, 7, 8, 10 or 11 (generally below 50%, regardless of whether it reported correction of previously identified findings of noncompliance); or (2) Very low performance for Indicator 9 (generally below 50%). Second, we identified a State as “in need of intervention” if it did not provide valid and reliable (as defined above) FFY 2010 compliance data for Indicators 1, 7, 8, 9, 10, or 11. Finally, we also identified a State as “in need of intervention” if the State was subject to Departmental enforcement for multiple years for failing to comply with key IDEA requirements, the noncompliance has been longstanding, and the State’s data in response to the Department’s enforcement actions demonstrate continued noncompliance.

We would identify a State as “in need of substantial intervention” if its substantial failure to comply significantly affected the core requirements of the program, such as the delivery of services to children with disabilities or the State’s exercise of general supervision, or if the State informed the Department that it was unwilling to comply with an IDEA requirement. In making this determination, we would consider the impact of any longstanding unresolved issues on the State’s current implementation of the program. We would also consider identifying a State “in need of substantial intervention” for failing to submit its APR/SPP.

Absent any other issues (see below), we determined that States that did not “meet requirements” and were not “in need of intervention” or “in need of substantial intervention” were “in need of assistance.”

#### Monitoring Data and Other Public Information

We also considered other public information available to the Department, including information from monitoring including verification visit reviews, and other public information, such as the State’s performance under any existing special conditions on its FFY 2011 grant or a compliance agreement, longstanding unresolved audit findings, and other State compliance data under the IDEA. We did not consider a State to “meet requirements” if the State had unresolved special conditions that were imposed as a result of the State being designated as a “high risk” grantee, outstanding OSEP monitoring findings (including verification visit findings) that affected the State’s data under APR indicators, longstanding audit issues, or a compliance agreement.

In determining whether the State should be identified as “in need of assistance,” “in need of intervention,” or “in need of substantial intervention,” we considered the length of time the problem had existed, the magnitude of the problem, and the State’s response to the problem, including progress the State had made to correct the problem.

### Possible Changes to Determination Factors in the Future

As a part of our efforts to focus attention more on the results of State's implementation of Parts B and C of the IDEA, OSEP is reexamining its process for making determinations under section 616 of the IDEA. We are considering how we can include State performance on results indicators in addition to those factors (described previously) that are currently considered. We will provide further details regarding our plans in the near future.

**Florida Part C FFY 2010 SPP/APR Response Table**

<b>Monitoring Priorities and Indicators</b>	<b>Status of APR Data/SPP Revision Issues</b>	<b>OSEP Analysis/Next Steps</b>
<p>The IDEA Part C regulations cited in this APR Response Table as 34 CFR §303.xxx are those regulations which were in effect during FFY 2010. If the State has chosen to implement any of the new regulations published in 76 Federal Register 60140 (September 28, 2011) prior to the required implementation date of July 1, 2012 for a regulation that impacts the measurements for an SPP/ APR indicator, the State must so indicate in its FFY 2011 APR, due February 1, 2013.</p>		
<p>1. Percent of infants and toddlers with IFSPs who receive the early intervention services on their IFSPs in a timely manner. [Compliance Indicator]</p>	<p>The State’s FFY 2010 reported data for this indicator are 82%. These data represent slippage from the FFY 2009 data of 98%. The State did not meet its FFY 2010 target of 100%.</p> <p>The State reported that all four of its findings of noncompliance identified in FFY 2009 for this indicator were corrected in a timely manner.</p> <p>The State was identified as being in need of assistance for two consecutive years based on the State’s FFY 2008 and FFY 2009 APRs, was advised of available technical assistance, and was required to report, with the FFY 2010 APR, on: (1) the technical assistance sources from which the State received assistance; and (2) the actions the State took as a result of that technical assistance. The State reported on the technical assistance sources from which the State received assistance for this indicator and reported on the actions the State took as a result of that technical assistance.</p>	<p>The State must demonstrate, in the FFY 2011 APR, that the State is in compliance with the timely service provision requirements in 34 CFR §§303.340(c), 303.342(e), and 303.344(f)(1). Because the State reported less than 100% compliance for FFY 2010, the State must report on the status of correction of noncompliance identified in FFY 2010 for this indicator.</p> <p>When reporting on the correction of noncompliance, the State must report, in its FFY 2011 APR, that it has verified that each EIS program with noncompliance identified in FFY 2010 for this indicator: (1) is correctly implementing 34 CFR §§303.340(c), 303.342(e), and 303.344(f)(1) (i.e., achieved 100% compliance) based on updated data such as data subsequently collected through on-site monitoring or a State data system; and (2) has initiated services, although late, for any child whose services were not initiated in a timely manner, unless the child is no longer within the jurisdiction of the EIS program, consistent with OSEP</p>
