Hepatitis A Surveillance January 1, 2018–October 26, 2019

From January 1, 2018 through October 26, 2019, 3,452 hepatitis A cases were reported. ▼ The number of reported hepatitis A cases more than doubled from 2016 to 2017 and nearly doubled again in 2018 after

2019 have already surpassed those in 2018.

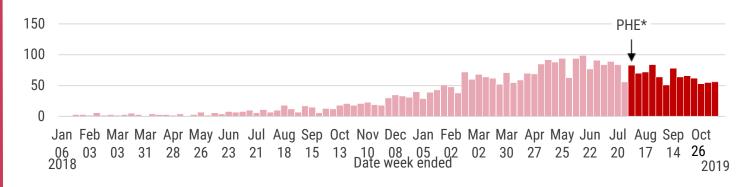

Counties that reported a hepatitis A case last week are outlined in black. Since January 1, 2018, 98% of cases have likely been acquired locally in Florida.

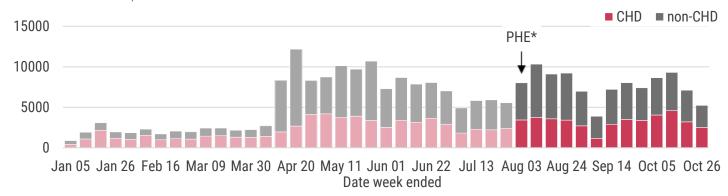

remaining relatively stable in previous years. Case counts in

Cumulative rate per 100,000 population, 1/1/18-10/26/19 0.0 0.1 - 11.2 11.3 - 33.4 33.5 - 87.9

There were 56 hepatitis A cases reported last week. Case counts in weeks prior to the public health emergency declaration are shown in light red while case counts in weeks since are shown in red. **V**

From October 20, 2019 to October 26, 2019, county health departments (CHDs) administered 2,499 (48%) of the total 5,226 first doses of hepatitis A vaccine administered to adults age 18 years and older, as recorded in Florida SHOTS. In 2019 CHDs have administered 107,793 vaccinations and non-CHDs have administered 151,439 vaccinations for a total of 259,232 vaccinations. Vaccinations given before the public health emergency declaration are shown in lighter colors than those given after.

*Public health emergency (PHE) issued August 1, 2019

Case Data

• Current case data are preliminary and will change as new information is gathered. The most recent data available are displayed in this report.

• Hepatitis A is a reportable disease in Florida. Case information is documented by county health department epidemiologists in Merlin, Florida's reportable disease surveillance system.

Only Florida residents are included in case counts. Hepatitis A case counts include both confirmed and probable cases.
Map counts and rates are determined by the individual's county of residence; these data do not take into account location of exposure.

• For more information about reportable diseases, please visit FloridaHealth.gov/DiseaseReporting.

• For more information about Florida's guides to surveillance and investigation, including disease-specific surveillance case definitions, please visit FloridaHealth.gov/GSI.

Population Data

• Population data from 2019 used to calculate incidence rates are from FLHealthCHARTS (Community Health Assessment Resource Tool Set).

• For more information about FLHealthCHARTS, please visit FLHealthCharts.com.

Vaccination Data

• Vaccination data are from Florida's statewide immunization registry, Florida SHOTS. Use of Florida SHOTS is optional for most providers.

• For more information about Florida SHOTS, please visit flshotsusers.com.
