

February 3, 2003

Ms. Linda Heifler
Western Drain Corp.
1173 North Kraemer Place
Anaheim, CA 92806

Dear Ms. Heifler:

This letter is to acknowledge receipt of the information concerning the product " **Bio Rooter™ Digest** " for statewide use in Florida. No product sold in the state for use in onsite sewage treatment and disposal systems may contain any substance in concentrations or amounts that would interfere with or prevent the successful operation of such system, or that would cause discharges from such systems to violate applicable water quality standards, section 381.0065(4)(m), Florida Statutes.

The staff has reviewed the information provided in the MSDS, 96-hr LC₅₀ toxicity test results, and laboratory results on volatile organic compounds for the product. The department has determined the product, " **Bio Rooter™ Digest** ", to be in compliance with s. 381.0065(4)(m), F.S. and has no objection to the use of the product in accordance with manufacturer's specifications. Please be advised that all rules pertaining to the use of the products shall be observed and that there shall be no advertising of the products as state approved.

Be advised that the department is not a testing agency and that this determination reflects only a review of the information submitted by you for compliance with Florida Statutes and Florida Administrative Code. The product evaluation does not investigate the validity of performance claims by manufacturers. For this reason, departmental acceptance must not be interpreted as certifying effectiveness, endorsing or recommending use of an additive. The Florida Department of Health also does not assume liability for any promise, guarantee or expectation from purchasing or using an additive. The department reserves the right to withdraw acceptance if product formulation or ingredients are modified after product evaluation by the department or subsequently found not to be in compliance with rule.

This letter of product compliance is limited to Department of Health jurisdictional circumstances as defined in Chapter 64E-6, Florida Administrative Code and Chapter 381.0065, Florida Statutes.

If we may be of further assistance or should you have any additional questions regarding this letter, please call Dr. Sonia Cruz at (407) 317-7325.

Sincerely,

Gerald Briggs, Chief

BIOLOGICAL FORMULA

DIGEST

- Concentrated
- Biodegradable
- Cost Effective
- Environmentally Safe
- Professional Strength

NET CONTENTS: 25 POUNDS

CAUTION: KEEP OUT OF REACH OF CHILDREN
See back panel for additional precautions.

BIO-ROOTER®

Bio-Rooter® Digest is a special blend of bacteria designed to promote accelerated grease digestion. This unique bio-formula combines scientifically developed grease digesting bacteria. Proper application will help relieve grease trap problems associated with build-up and odor. Grease trap pumping can be reduced with a regular preventative maintenance program.

For Best Results:

- Use Bio-Rooter® Digest on a regular basis.
- Application should be made during longest periods of non-use.
- Maintain pH between 6 - 8.9

DIRECTIONS

READ MSDS PRIOR TO USING

Wear Protective Glasses, Dust Mask, and Gloves While in Contact With Product

For best results, grease traps should be inspected, pumped and cleaned prior to initial application of Bio-Rooter® Digest.

Application: Mix in water at a ratio of 1 pound to 2 gallons of water. Then add directly to system. Your sales representative or service technician will recommend dosage rates based on your grease trap conditions.

CAUTION

Contains bacterial cultures. Keep out of reach of children. Avoid breathing of dust. Use with adequate ventilation. Avoid contact with eyes, skin and clothing. Wash thoroughly after handling.

First Aid: In case of contact, immediately flush eyes and skin with water for 15 minutes. If irritation continues seek medical attention. In case of ingestion, do not induce vomiting. Get immediate medical attention.

Storage: Store in a cool dry place. Avoid extreme temperatures below freezing or 130°F.

Disposal: Sweep up dry spills. Clean empty containers with detergent & water. Disposal of this material, its container and any residue must be in accordance with local, State and Federal regulations.
