Ms. Cecilia M. Jamison-Vo
Clorox Services Company
P.O. Box 493
Pleasanton, CA 94566-0803

Dear Ms. Jamison-Vo:

This letter is to acknowledge receipt of the toxicity report, VOC analysis, and other information for evaluation of the product " **Liquid Plumr Septic System Treatment** " for statewide use in Florida. No product sold in the state for use in onsite sewage treatment and disposal systems may contain any substance in concentrations or amounts that would interfere with or prevent the successful operation of such system, or that would cause discharges from such systems to violate applicable water quality standards, section 381.0065(4)(m), Florida Statutes.

The staff has reviewed the information provided in the MSDS, 96-hr LC₅₀ toxicity test results, and laboratory results on volatile organic compounds for the product. The department has determined the product, "**Liquid Plumr Septic System Treatment**, to be in compliance with s. 381.0065(4)(m), F.S. and has no objection to the use of the product in accordance with manufacturer's specifications. Please be advised that all rules pertaining to the use of the products shall be observed and that there shall be no advertising of the product as state approved.

Be advised that the department is not a testing agency and that this determination reflects only a review of the information submitted by you for compliance with Florida Statutes and Florida Administrative Code. The product evaluation does not investigate the validity of performance claims by manufacturers. For this reason, departmental acceptance must not be interpreted as certifying effectiveness, endorsing or recommending use of an additive. The Florida Department of Health also does not assume liability for any promise, guarantee or expectation from purchasing or using an additive. The department reserves the right to withdraw acceptance if product formulation or ingredients are modified after product evaluation by the department or subsequently found not to be in compliance with rule.

This letter of product compliance is limited to Department of Health jurisdictional circumstances as defined in Chapter 64E-6, Florida Administrative Code and Chapter 381.0065, Florida Statutes. If we may be of further assistance or should you have any additional questions regarding this letter, please call Dr. Sonia Cruz at (407) 317-7325.

Sincerely,

A handwritten signature in black ink, appearing to read "G. R. Briggs".

Gerald R. Briggs, Chief
Bureau of Onsite Sewage Programs

SEPTIC SYSTEM TREATMENT

- ▶ Helps prevent septic system backup
- ▶ Digests both grease and paper
- ▶ Helps reduce unpleasant odors
- ▶ Safe for all pipes and plumbing

HELPS KEEP SEPTIC SYSTEMS TROUBLE-FREE

Everyday activities can reduce the level of bacteria in your septic system. Large amounts of household waste can slow biological action which may back up your system causing clogged pipes and offensive odors. Using Ultra Liquid-Plumr[®] Septic System Treatment once a month will add bacteria to your septic system to safely and naturally stimulate the breakdown of waste. This helps prevent the need for pumping and costly septic system repairs. Occasional pumping may be required for septic system maintenance.

DIRECTIONS FOR USE

Shake bottle before use. For a 1,000 gallon tank **1/2 BOTTLE** (the most common size), pour 1/2 bottle of Ultra Liquid-Plumr[®] Septic System Treatment (10 fluid ounces) directly into toilet bowl and flush. Repeat once a month to help keep septic systems trouble-free.

SIZE OF SEPTIC TANK	MONTHLY TREATMENT AMOUNT
500 GALLONS	1/4 BOTTLE (5 OUNCES)
1,000 GALLONS	1/2 BOTTLE (10 OUNCES)
1,500 GALLONS	3/4 BOTTLE (15 OUNCES)

CAUTION: Avoid contact with open cuts or sores. In case of eye contact, flush eyes with water for 15 minutes. Wash hands after use.

KEEP OUT OF REACH OF CHILDREN.

Contains bacterial cultures, micronutrients, preservatives and coloring agents. Contains no phosphorus.
