The department's Division of Medical Quality Assurance Unlicensed Activity (ULA) Program, under authority of Florida Statute 456.065, protects Florida residents and visitors from the potentially serious consequences of receiving health care services from an unlicensed person. The ULA program investigates all unlicensed health care activity complaints and allegations, and works in conjunction with law enforcement and the state attorney's offices to prosecute individuals practicing without a license.

The department has several resources to combat unlicensed activity:

- Consumers are encouraged to use our website, www.flhealthsource.gov, where they can conveniently verify the license information of their health care practitioner.
- Complaints may be filed anonymously by completing and mailing the [complaint form](#) on the website, emailing HALTULA@flhealth.gov or calling 1-877-HALT-ULA.
