INSTRUCTIONS FOR THE CIVIL RIGHTS COMPLIANCE CHECKLIST

1. Describe the geographic service area such as a county, city or other locality. If the program or facility
serves a specific target population such as adolescents, describe the target population. Also define the type
of service provided such as inpatient health care, refugee assistance, child day care, etc.

2. Enter the percent of the population served by race and sex. The population served includes persons in the
geographical area for which services are provided such as a city, county or other area. Population statistics
can be obtained from local chambers of commerce, libraries, or any publication from the Census containing
Florida population statistics. Include the source of your population statistics. (Other races include
Asian/Pacific Islanders and American Indian/Alaskan Natives.)

3. Enter the total number of full-time staff and their percent by race, sex and disabled. Include the effective
date of your summary.

4. Enter the total number of clients who are enrolled, registered or currently served by the program or facility,
and list their percent by race, sex and disability. Include the date that enrollment was counted.

5. Enter the total number of advisory board members and their percent by race, sex, and disability. If there is
no advisory or governing board, leave this section blank.

6. Each recipient of federal financial assistance must have on file an assurance that the program will be
conducted in compliance with all nondiscriminatory provisions as required in 45CFR80. This is usually a
standard part of the contract language for DOH recipients and their sub-grantees.

7. Are the race, sex and national origin composition of the staff reflective of the general population? For
example, if 10% of the population is Hispanic, is there a comparable percentage of Hispanic staff?
Although some variance is acceptable, the relative absence of a particular group on staff may tend to
exclude full participation of that group in the program/facility. Significant variances must be explained.

8. Where there is a significant variation between the race, sex or ethnic composition of the clients and their
availability in the population, the program/facility has the responsibility to determine the reasons for such
variation and take whatever action may be necessary to correct any discrimination. Some legitimate
disparities may exist when programs are sanctioned to serve target populations such as elderly or disabled
persons.

9. Do eligibility requirements unlawfully exclude persons in protected groups from the provision of services
or employment? Evidence of such may be indicated in staff and client representation and also through on-
site record analysis of persons who applied but were denied services or employment.
10. Participants or clients must be provided services such as medical, nursing and dental care, laboratory services, physical and recreational therapies, counseling and social services without regard to race, sex, color, national origin, religion, age or disability. Courtesy titles, appointment scheduling and accuracy of record keeping must be applied uniformly and without regard to race, sex, color, national origin, religion, age or disability. Entrances, waiting rooms, reception areas, restrooms and other facilities must also be equally available to all clients.

11. For in-patient services, residents must be assigned to rooms, wards, etc., without regard to race, color, national origin or disability. Also, residents must not be asked whether they are willing to share accommodations with persons of a different race, color, national origin, or disability.

12. The program/facility and all services must be accessible to participants and applicants, including those persons who may not speak English. In geographic areas where a significant population of non-English speaking people live, program accessibility may include the employment of bilingual staff. In other areas, it is sufficient to have a policy or plan for service, such as a current list of names and telephone numbers of bilingual individuals who will assist in the provision of services.

13. Programs/facilities must make information available to their participants, beneficiaries or any other interested parties. This should include information on their right to file a complaint of discrimination with either the Florida Department of Health or the United States Department of Health and Human Services. The information may be supplied verbally or in writing to every individual, or may be supplied through the use of an equal opportunity policy poster displayed in a public area of the facility.

14. The program/facility must be physically accessible to disabled individuals. Physical accessibility includes designated parking areas, curb cuts or level approaches, ramps and adequate widths to entrances. The lobby, public telephone, restroom facilities, water fountains, information and admissions offices should be accessible. Door widths and traffic areas of administrative offices, cafeterias, restrooms, recreation areas, counters and serving lines should be observed for accessibility. Elevators should be observer for door width, and Braille or raised numbers. Switches and controls for light, heat, ventilation, fire alarms, and other essentials should be installed at an appropriate height for mobility impaired individuals.

Accessibility must meet or be equivalent to the standards set by the Americans with Disabilities Act. If the program or facility is not accessible to disabled persons, there must be an equally effective program available in the area where services can be obtained. Alternative service providers must be listed if the program is not accessible.

15. A self-evaluation to identify any accessibility barriers is required. The self-evaluation is a four step process:
   - Evaluate current practices and policies to identify any practices or policies that do not comply with Section 504 of the Rehabilitation Act or the Americans with Disabilities Act.
   - Modify policies and practices that do no meet requirements.
   - Take remedial steps to eliminate any discrimination that has been identified.

16. Programs or facilities that employ 15 or more persons must adopt grievance procedures that incorporate appropriate due process standards and provide for the prompt and equitable resolution of complaints alleging any action prohibited.

17. Programs or facilities that employ 15 or more persons must designate at least one person to coordinate efforts to comply with the requirements of Section 504 and the ADA.

18. Continuing steps must be taken to notify employees and the public of the program/facility’s policy of nondiscrimination on the basis of disability. This includes recruitment material, notices for hearings, newspaper ads, and other appropriate written communication.

19. Programs/facilities that employ 15 or more persons must provide appropriate auxiliary aids to persons with impaired sensory, manual or speaking skills where necessary. Auxiliary aids may include, but are not limited to, interpreters for hearing impaired individuals, taped or Braille materials, or any alternative resources that can be used to provide equally effective services.

20. Programs/facilities with 50 or more employees and $50,000 in federal contracts must develop, implement and maintain a written affirmative action compliance program.
ATTACHMENT VI

FINANCIAL AND COMPLIANCE AUDIT

THE ADMINISTRATION OF RESOURCES AWARDED BY THE DEPARTMENT OF HEALTH TO THE PROVIDER MAY BE SUBJECT TO AUDITS AND/OR MONITORING BY THE DEPARTMENT OF HEALTH, AS DESCRIBED IN THIS SECTION.

MONITORING

In addition to reviews of audits conducted in accordance with OMB Circular A-133, as revised, and Section 215.97, F.S., (see “AUDITS” below), monitoring procedures may include, but not be limited to, on-site visits by Department of Health staff, limited scope audits as defined by OMB Circular A-133, as revised, and/or other procedures. By entering into this agreement, the provider agrees to comply and cooperate with any monitoring procedures/processes deemed appropriate by the Department of Health. In the event the Department of Health determines that a limited scope audit of the provider is appropriate, the provider agrees to comply with any additional instructions provided by the Department of Health to the provider regarding such audit. The provider further agrees to comply and cooperate with any inspections, reviews, investigations, or audits deemed necessary by the Chief Financial Officer (CFO) or Auditor General.

AUDITS

PART I: FEDERALLY FUNDED

This part is applicable if the provider is a State or local government or a non-profit organization as defined in OMB Circular A-133, as revised.

1. In the event that the provider expends $500,000 or more in Federal awards during its fiscal year, the provider must have a single or program-specific audit conducted in accordance with the provisions of OMB Circular A-133, as revised. EXHIBIT 1 to this agreement indicates Federal resources awarded through the Department of Health by this agreement. In determining the Federal awards expended in its fiscal year, the provider shall consider all sources of Federal awards, including Federal resources received from the Department of Health. The determination of amounts of Federal awards expended should be in accordance with the guidelines established by OMB Circular A-133, as revised. An audit of the provider conducted by the Auditor General in accordance with the provisions of OMB Circular A-133, as revised, will meet the requirements of this part.

2. In connection with the audit requirements addressed in Part I, paragraph 1, the provider shall fulfill the requirements relative to auditee responsibilities as provided in Subpart C of OMB Circular A-133, as revised.

3. If the provider expends less than $500,000 in Federal awards in its fiscal year, an audit conducted in accordance with the provisions of OMB Circular A-133, as revised, is not required. In the event that the provider expends less than $500,000 in Federal awards in its fiscal year and elects to have an audit conducted in accordance with the provisions of OMB Circular A-133, as revised, the cost of the audit must be paid from non-Federal resources (i.e., the cost of such audit must be paid from provider resources obtained from other than Federal entities.)

4. An audit conducted in accordance with this part shall cover the entire organization for the organization’s fiscal year. Compliance findings related to agreements with the Department of Health shall be based on the agreement’s requirements, including any rules, regulations, or statutes referenced in the agreement. The financial statements shall disclose whether or not the matching requirement was met for each applicable agreement. All questioned costs and liabilities due to the Department of Health shall be fully disclosed in the audit report with reference to the Department of Health agreement involved. If not otherwise disclosed as required by Section .310(b)(2) of OMB Circular A-133, as revised, the schedule of expenditures of Federal awards shall identify expenditures by funding source and contract number for each agreement with the Department of Health in effect during the audit period. Financial reporting packages required under this part must be submitted within the earlier
of 30 days after receipt of the audit report or 9 months after the end of the provider’s fiscal year end.

PART II: STATE FUNDED

This part is applicable if the provider is a nonstate entity as defined by Section 215.97(2), Florida Statutes.

1. In the event that the provider expends a total amount of state financial assistance equal to or in excess of $500,000 in any fiscal year of such provider (for fiscal years ending September 30, 2004 or thereafter), the provider must have a State single or project-specific audit for such fiscal year in accordance with Section 215.97, Florida Statutes; applicable rules of the Department of Financial Services; and Chapters 10.550 (local governmental entities) or 10.650 (nonprofit and for-profit organizations), Rules of the Auditor General. EXHIBIT I to this agreement indicates state financial assistance was awarded through the Department of Health by this agreement. In determining the state financial assistance expended in its fiscal year, the provider shall consider all sources of state financial assistance, including state financial assistance received from the Department of Health, other state agencies, and other nonstate entities. State financial assistance does not include Federal direct or pass-through awards and resources received by a nonstate entity for Federal program matching requirements.

2. In connection with the audit requirements addressed in Part II, paragraph 1; the provider shall ensure that the audit complies with the requirements of Section 215.97(8), Florida Statutes. This includes submission of a financial reporting package as defined by Section 215.97(2), Florida Statutes, and Chapter 10.550 (local governmental entities) or 10.650 (nonprofit and for-profit organizations), Rules of the Auditor General.

3. If the provider expends less than $500,000 in state financial assistance in its fiscal year (for fiscal years ending September 30, 2004 or thereafter), an audit conducted in accordance with the provisions of Section 215.97, Florida Statutes, is not required. In the event that the provider expends less than $500,000 in state financial assistance in its fiscal year and elects to have an audit conducted in accordance with the provisions of Section 215.97, Florida Statutes, the cost of the audit must be paid from the nonstate entity’s resources (i.e., the cost of such an audit must be paid from the provider resources obtained from other than State entities).

4. An audit conducted in accordance with this part shall cover the entire organization for the organization’s fiscal year. Compliance findings related to agreements with the Department of Health shall be based on the agreement’s requirements, including any applicable rules, regulations, or statutes. The financial statements shall disclose whether or not the matching requirement was met for each applicable agreement. All questioned costs and liabilities due to the Department of Health shall be fully disclosed in the audit report with reference to the Department of Health agreement involved. If not otherwise disclosed as required by Rule 69I-5.003, Fla. Admin. Code, the schedule of expenditures of state financial assistance shall identify expenditures by agreement number for each agreement with the Department of Health in effect during the audit period. Financial reporting packages required under this part must be submitted within 45 days after delivery of the audit report, but no later than 9 months after the provider’s fiscal year end for local governmental entities. Non-profit or for-profit organizations are required to be submitted within 45 days after delivery of the audit report, but no later than 9 months after the provider’s fiscal year end. Notwithstanding the applicability of this portion, the Department of Health retains all right and obligation to monitor and oversee the performance of this agreement as outlined throughout this document and pursuant to law.

The provider will correct all noted deficiencies identified by the department within the specified period of time set forth in the recommendations. The provider’s failure to correct noted deficiencies may, at the sole and exclusive discretion of the department, result in any one or any combination of the following: (1) the provider being deemed in breach or default of this contract; (2) the withholding of payments to the provider by the department; and (3) the termination of this contract for cause.

The limits of coverage under each policy maintained by the provider do not limit the provider’s liability and obligations under this contract. Upon the execution of this contract, the provider shall furnish the department written verification supporting both the determination and existence of such insurance coverage. Such coverage may be provided by a self-insurance program established and operating under the laws of the State of Florida. Failure to pay within seven (7) working days will result in a penalty charged against the provider and paid by the provider to the subcontractor in the amount of one-half of one (1) percent of the amount due per day from the expiration of the period allowed herein for payment. Such penalty shall be in addition to actual payments owed and shall not exceed fifteen (15) percent of the outstanding balance due.

J. RETURN OF FUNDS

Notwithstanding the foregoing, a Transaction Fee is non-refundable when an item is rejected or returned, or declined, due to the vendor’s failure to perform or comply with specifications or requirements of the agreement.
