Our Mission: Promoting and Protecting the Public's Health

Our Vision: Building the Future: Healthy People and a Healthy Community

Building a Healthy Nation-Strategic Alliance for Health, Hillsborough County is a bold new initiative funded by the U.S. Department of Health and Human Services. This four-year program aims to help Hillsborough County citizens live longer, better, and healthier lives by reducing diabetes, obesity, and heart disease and addressing three related risk factors - physical inactivity, poor nutrition, and tobacco use.

The Hillsborough County Health Department announces the opportunity to apply for funds to implement and sustain evidence and practice-based chronic disease community programs that promote policy, organizational, systems and environmental community change. This initiative will serve to:

1. Promote physical activity and nutrition;
2. Reduce tobacco use and exposure;
3. Build capacity for communities to be able to institute systems, environmental, organizational and policy changes related to these health risk factors;
4. Foster improved and increased access to quality care;
5. Help eliminate racial and ethnic health disparities; and
6. Reduce complications from and incidence of cardiovascular disease, diabetes, and obesity.

Providers funded under this announcement will accomplish this by focusing on the risk factors of physical inactivity, poor nutrition, and tobacco use and exposure, and population-based responses such as policy, systems, organizational and environmental changes. Providers funded by this announcement will build on knowledge gained from previously funded community projects as well as current public health practice literature. Funded grantees will include community based organizations as well as local, state and/or national governmental agencies. Funded providers will act as catalysts to move communities toward more integrated population based approaches to chronic disease prevention by implementing policy, systems, and environmental changes. Providers will be expected to mentor other communities in effective strategies to combat chronic

disease. Funding will target areas of increased burden of disease related to obesity, diabetes, and cardiovascular disease as well as access to quality care in order to address health disparities.

The powers and duties of the Chief Financial Officer (CFO) are set forth in Chapter 17, F.S. Section 17.03(1), F.S., requires that the CFO of the State of Florida, using generally accepted auditing procedures for testing or sampling, shall examine, audit, and settle all accounts, claims, and demands against the State. Providers are encouraged to help plan and implement community education strategies that move communities beyond awareness by mobilizing them to action. This effort is to include coordination and cooperation with other community organizations and interested persons to provide in-school and community-wide awareness activities.

By entering into this agreement, the provider agrees to comply and cooperate with any monitoring procedures/processes deemed appropriate by the Department of Health. In the event the Department of Health determines that a limited scope audit of the provider is appropriate, the provider agrees to comply with any additional instructions provided by the Department of Health to the provider regarding such audit. The provider further agrees to comply and cooperate with any inspections, reviews, investigations, or audits deemed necessary by the Chief Financial Officer (CFO) or Auditor General.

Audits

PART I: FEDERALLY FUNDED

This part is applicable if the provider is a State or local government or a non-profit organization as defined in OMB Circular A-133, as revised.

1. In the event that the provider expends \$500,000 or more in Federal awards during its fiscal year, the provider must have a single or program-specific audit conducted in accordance with the provisions of OMB Circular A-133, as revised. EXHIBIT 1 to this agreement indicates Federal resources awarded through the Department of Health by this agreement. In determining the Federal awards expended in its fiscal year, the provider shall consider all sources of Federal awards, including Federal resources received from the Department of Health. The determination of amounts of Federal awards expended should be in accordance with the guidelines established by OMB Circular A-133, as revised. An audit of the provider conducted by the Auditor General in accordance with the provisions of OMB Circular A-133, as revised, will meet the requirements of this part.
2. In connection with the audit requirements addressed in Part I, paragraph 1, the provider shall fulfill the requirements relative to auditee responsibilities as provided in Subpart C of OMB Circular A-133, as revised.

3. If the provider expends less than \$500,000 in Federal awards in its fiscal year, an audit conducted in accordance with the provisions of OMB Circular A-133, as revised, is not required. In the event that the provider expends less than \$500,000 in Federal awards in its fiscal year and elects to have an audit conducted in accordance with the provisions of OMB Circular A-133, as revised, the cost of the audit must be paid from non-Federal resources (i.e., the cost of such audit must be paid from provider resources obtained from other than Federal entities.)
4. An audit conducted in accordance with this part shall cover the entire organization for the organization's fiscal year. Compliance findings related to agreements with the Department of Health shall be based on the agreement's requirements, including any rules, regulations, or statutes referenced in the agreement. The financial statements shall disclose whether or not the matching requirement was met for each applicable agreement. All questioned costs and liabilities due to the Department of Health shall be fully disclosed in the audit report with reference to the Department of Health agreement involved. If not otherwise disclosed as required by Section .310(b)(2) of OMB Circular A-133, as revised, the schedule of expenditures of Federal awards shall identify expenditures by agreement number for each agreement with the Department of Health in effect during the audit period. Financial reporting packages required under this part must be submitted within the earlier of 30 days after receipt of the audit report or 9 months after the end of the provider's fiscal year end.

In determining the state financial assistance expended in its fiscal year, the provider shall consider all sources of state financial assistance, including state financial assistance received from the Department of Health, other state agencies, and other nonstate entities. State financial assistance does not include Federal direct or pass-through awards and resources received by a nonstate entity for Federal program matching requirements.
