**How to Apply for a Florida Certificate of Nonviable Birth**

Section 382.0086, Florida Statutes

DH8002-HSPM-07/2017
Grieving Families Act

In 2017, the Florida Legislature established a new certificate entitled Certificate of Nonviable Birth (Section 382.0086, Florida Statutes).

A “nonviable birth” means an unintentional, spontaneous fetal demise occurring between the 10th through 19th week of gestation.

The health care practitioner (a nurse or midwife) licensed pursuant to Chapter 464 or Chapter 467 Florida Statutes, shall:

- If requested, file/register the nonviable birth within 30 days with the Bureau of Vital Statistics.
- Advise parent(s) on how to order a Certificate of Nonviable Birth from the Bureau of Vital Statistics.

Certificate of Nonviable Birth

The Certificate of Nonviable Birth is not proof of live birth and may not be used to establish identity.

Once filed by the health care practitioner (nurse or midwife) the parent(s) may request the Bureau of Vital Statistics issue a certificate of nonviable birth.

The Bureau of Vital Statistics will issue a Certificate of Nonviable Birth within 60 days upon the request. Parentage information is confidential and can only be released to the parent(s) listed on the certificate.

Valid ID is required when requesting the confidential portion.

How to Apply

The fee for a certification of a Certificate of Nonviable Birth is $9; additional copies are $4 each if ordered at the same time. Check or money order should be made payable to Vital Statistics and must be in U.S. dollars. Florida law imposes an additional service charge of $15 for returned checks.
