PREVENTION SECTION

2013 High-Impact Prevention (HIP) 12-006 Providers

High-Impact Prevention (HIP)
Jan. 1, 2013 - Dec.31, 2013

Required Activities under HIP 12-006

- HIV Testing
- Prevention with Positives
 - Linkage, Peer Programs, Behavioral Interventions
- Condom Distribution
- Outreach
 - Face-to-Face, Internet-based/Virtual

Recommended Activities under HIP 12-006

- Interventions for High-Risk Negatives
- Community Mobilization
 - BRTA
 - FRTA
 - Community Engagement

What is Prevention with Positives?

Includes supporting positive persons to:

- Prevent transmission of HIV virus to others
- Prevent the possibility of HIV re-infection
- Prevent other sexually transmitted infections
- Make informed decisions about health choices, including contraception and pregnancy

Prevention with Positives Interventions/Strategies

- Behavioral Interventions
(e.g., CRCS, Partnership for Health, Healthy Relationships, CLEAR, LIFE)
- Adaptations, Locally-developed
- Peer Programs
- Linkage, Retention, Re-engagement
- Medication Adherence

Interventions for high-risk negatives

- Behavioral Interventions
(e.g., PCC, PROMISE, Mpowerment)
- Adaptations, Locally-developed
- Must be targeted to populations and areas with highest incidence of HIV

Intervention Monitoring

- Direct observation/record reviews of intervention delivery is a component of programmatic monitoring
- Intervention-specific tools available
- Can be done any time throughout the year; does not have to be done at time of standard monitoring
- Dates/times/locations should be agreed upon by both provider and contract manager

Educational Materials

- Approved Educational Materials
- Material Review Process
 - Local Use: with prevention message
 - Local Use: without prevention message
 - Statewide Use

Website Disclaimers

- Required for any agency receiving any CDC funds

NOTE: This Notice should be displayed prominently on the website or applicable web page(s) that are most likely to be encountered by viewers of the HIV/AIDS content. This could be the site's homepage, other high-level entry pages, portal pages most commonly used to navigate or find the HIV/AIDS-related content. An alternative to displaying the notice in its entirety on the main page is to instead display a link that reads "HIV/AIDS Content Notice," which would take the user to a separate web page displaying the HIV/AIDS content notice in its entirety.

IMPORTANT NOTICE

The following language must be included on web sites of all agencies funded through contractual arrangement by the Florida Department of Health, HIV/AIDS and Hepatitis Program.

Please choose the appropriate statement (1 through 4 below)* to display on your agency website and read the note at the bottom of this page.

1. This site contains HIV prevention messages that may not be appropriate for all audiences.
2. This site contains HIV prevention messages that may not be appropriate for all audiences. If you are not seeking such information or may be offended by such materials, please exit this website.
3. This site contains HIV prevention messages that may not be appropriate for all audiences. Since HIV infection is spread primarily through sexual practices or by sharing needles, prevention messages and programs may address these topics. If you are not seeking such information or may be offended by such materials, please exit this website.
4. Since HIV is spread primarily through sexual practices or by sharing needles, prevention messages on this site may address these topics. HIV prevention materials funded by CDC must be approved by local program review panels. However, the materials may be considered controversial by some viewers.

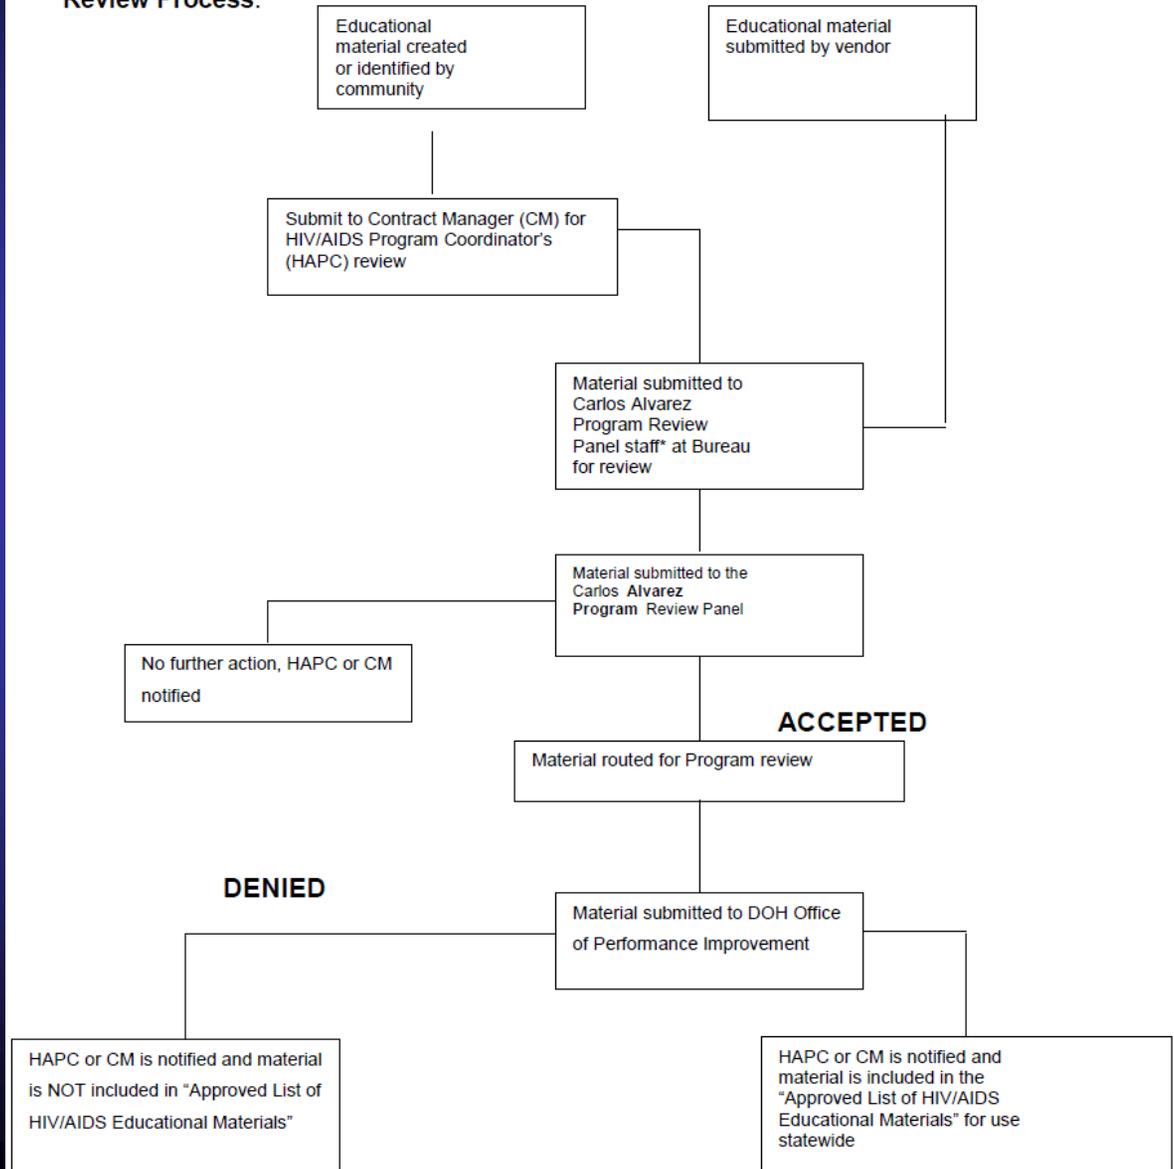

* This language may be customized based on the content of your website.

General Review, Statewide Use

Material Definition: contains educational messages and information and may be used statewide.

Material Type: posters (pictorials), audiovisuals, curricula, web sites and brochures used in educational sessions and any material with the Centers for Disease Control and Prevention's (CDC) or Florida Department of Health's (DOH) name or logo.

Review Process:

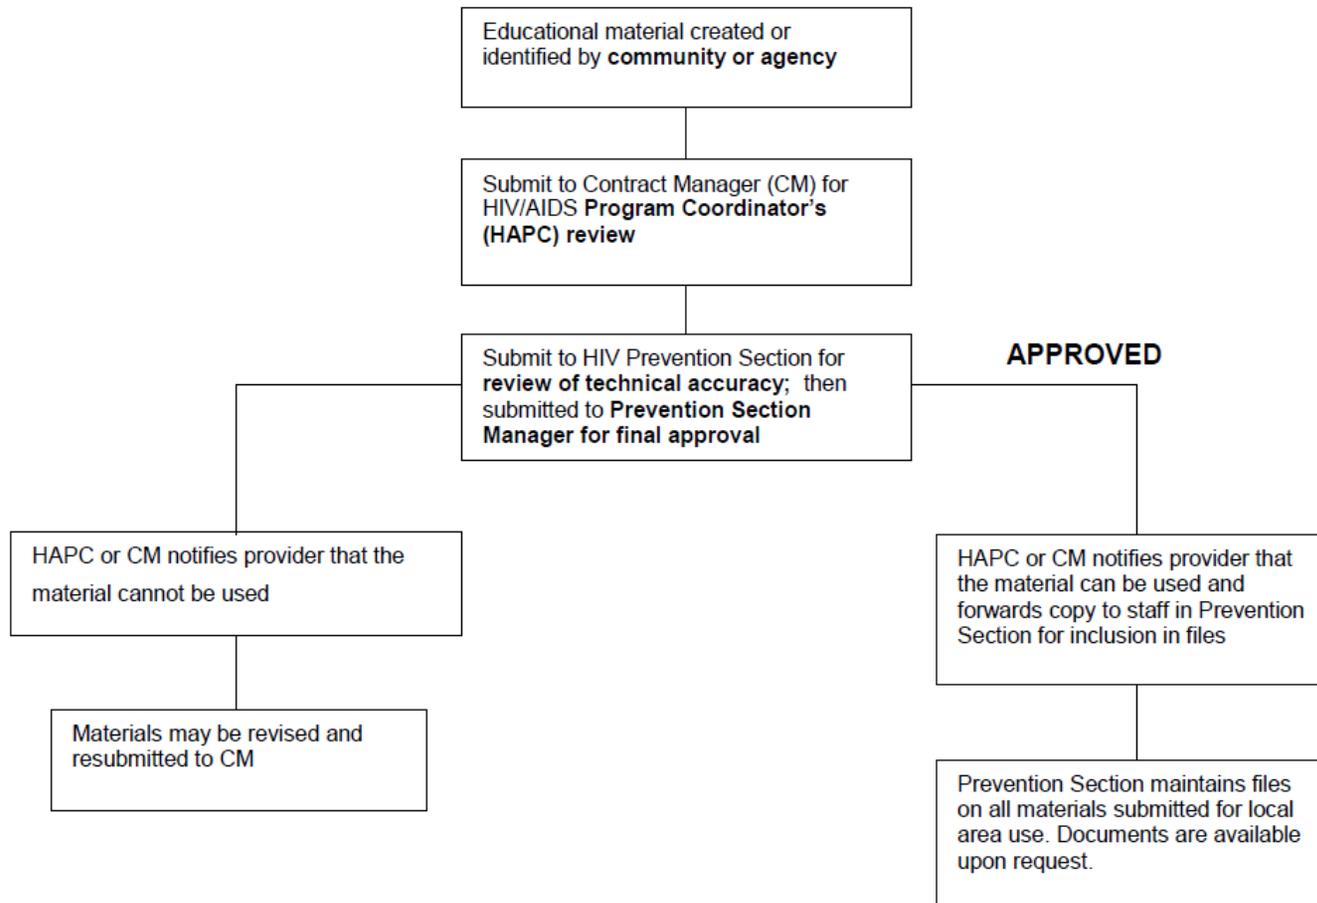

2. LOCAL USE, WITH PREVENTION MESSAGE

Material Definition: Any material produced with DOH funds that contains educational messages and information and is only for use in a specified area or county.

Material Type: Intervention materials (e.g., role model stories), brochures, and/or pamphlets containing prevention messages; overviews and agendas for conferences; and any printed or web-based media containing prevention messages with the CDC and/or DOH name or logo.

Review Process:

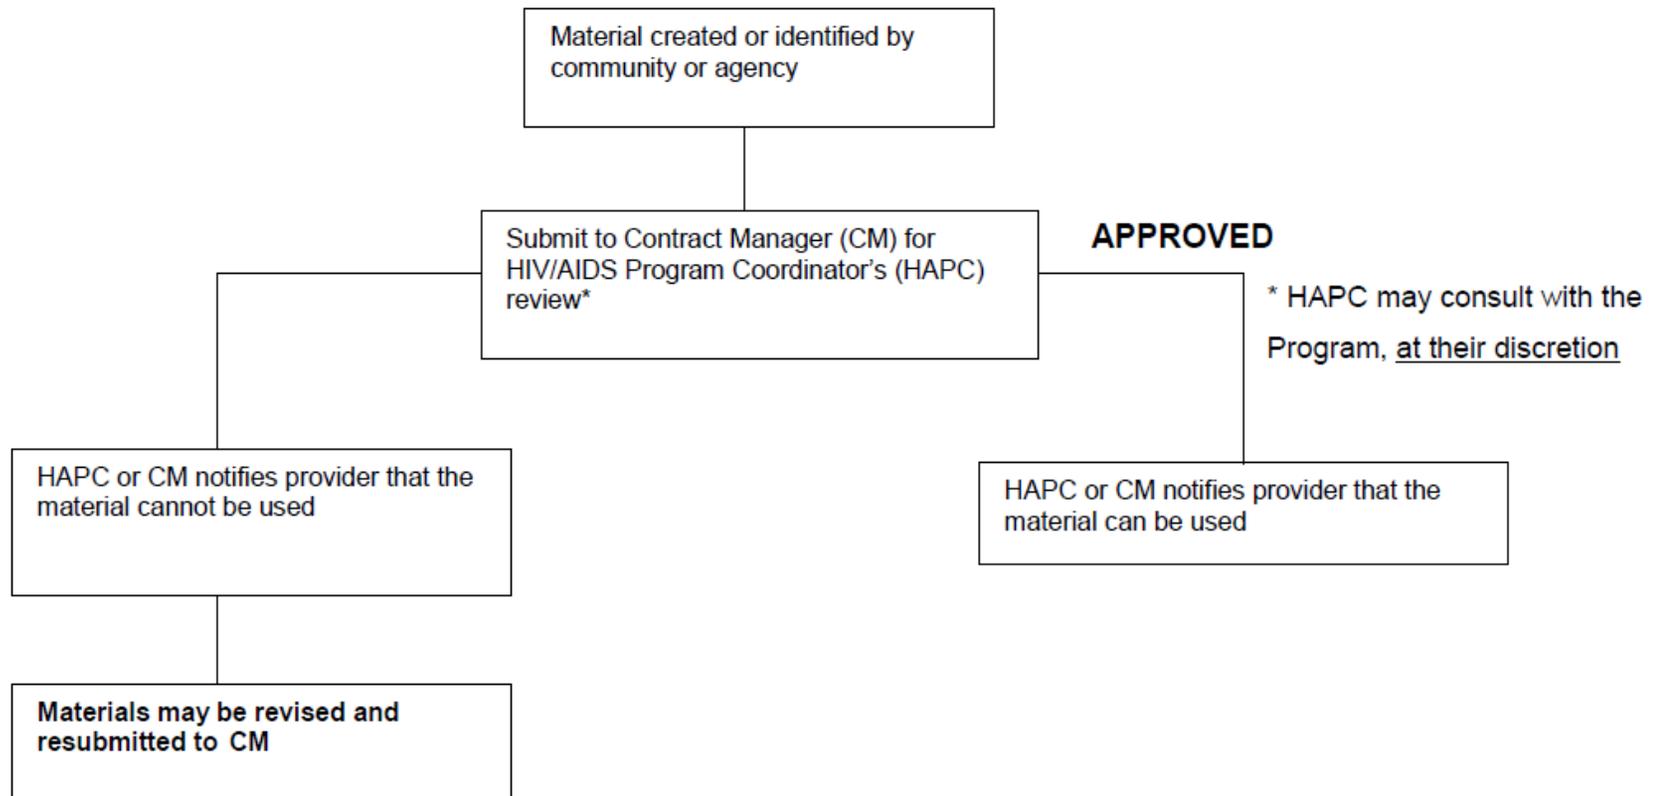

3. LOCAL USE, WITHOUT PREVENTION MESSAGE

Material Definition: Any material produced with DOH funds that does not contain a prevention message and is only for use in a specified area or county.

Material Type: Informational flyers, announcement flyers, posters, questionnaires or any material with the CDC and/or DOH name or logo.

Review Process:

Condom Distribution

- Logical partner of outreach
- Characteristics of structural-level intervention
- Opportunity to deliver prevention messages, educational materials, and teach condom use efficacy (e.g., pamphlets, resource cards, condom use steps)
- Increases availability/accessibility of condoms; has the potential to change norms about condoms within a community

Condom Distribution

- Alone or in conjunction with outreach; still important to target efforts in areas with highest incidence of HIV/STDs
- Recruitment of condom distribution sites, partners, and/or gatekeepers
- Requesting condoms from your CHD
- Reporting form

The Role of Outreach in High-Impact Prevention

Delivered to populations and communities **most heavily impacted** by HIV/STDs for the purposes of:

- Recruitment (referrals and linkages) into HIV/STD screening and treatment services; risk reduction/behavioral interventions
- Condom Distribution
- Providing HIV/STD risk reduction messages, education and awareness; awareness of local services/resources available
- Supplementing mobilization activities

Outreach

- Face-to-face
- Internet-based/virtual
 - Monitoring Internet/virtual activities
 - DOH staff and prohibited sites
- HIV Prevention Outreach Guidelines
