

Diseases highlighted in yellow had some type of change to the case definition. Some of these changes are small, such as adding or changing a word where as other changes would actually impact the classification of cases as confirmed, probable, or suspect (for example addition of new laboratory criteria).

CASE DEFINITIONS FOR SELECT DISEASES AND CONDITIONS

Arboviral Disease neuroinvasive and non neuroinvasive

reporting code = 06210 Western Equine Encephalitis virus (neuroinvasive)
 = 06211 Western Equine Encephalitis virus (non-neuroinvasive)
 = 06220 Eastern Equine Encephalitis virus (neuroinvasive)
 = 06221 Eastern Equine Encephalitis virus (non-neuroinvasive)
 = 06230 St. Louis Encephalitis virus (neuroinvasive)
 = 06231 St. Louis Encephalitis virus (non-neuroinvasive)
 = 06250 California serogroup virus (neuroinvasive)
 = 06251 California serogroup virus (non-neuroinvasive)
 = 06620 Venezuelan Equine Encephalitis virus (neuroinvasive) 
 = 06621 Venezuelan Equine Encephalitis virus (non-neuroinvasive) 
 = 06630 West Nile virus (neuroinvasive)
 = 06631 West Nile virus (non-neuroinvasive)

Anthrax

Botulism

Brucellosis

Campylobacteriosis

Cholera, *Vibrio*

Ciguatera poisoning

Creutzfeldt-Jakob Disease (CJD)

Cryptosporidiosis

Cyclosporiasis

Dengue Fever

Diphtheria

Ehrlichiosis/Anaplasmosis, Human

Encephalitis, other (non-arboviral)

***Escherichia coli*, Shiga toxin producing**

***Escherichia coli* O157:H7**

Giardiasis

Glanders (*Burkholderia mallei*)

***Haemophilus influenzae* (Invasive Disease)**

Hansen's Disease (Leprosy)

Hantavirus Infection (Hantavirus Pulmonary Syndrome)

Hemolytic Uremic Syndrome (HUS)

Hepatitis A

Hepatitis B, Acute

Hepatitis B, Chronic

Hepatitis B Surface Antigen (HBsAg+), in Pregnant Women

Hepatitis B, Perinatal

Hepatitis C, Acute

Hepatitis C, Chronic

Hepatitis C, Chronic

Hepatitis D

Hepatitis E

Hepatitis G

Influenza A, Novel or Pandemic Strains

Influenza-Associated Pediatric Mortality

Lead Poisoning

Legionellosis

Leptospirosis

Listeriosis

Malaria

Measles (Rubeola)

Melioidosis (*Burkholderia pseudomallei*)

Meningitis, bacterial, cryptococcal, mycotic

Meningococcal Disease

Mercury Poisoning

Mumps

Neurotoxic Shellfish Poisoning

Pesticide-Related Illness and Injury

Plague

Poliomyelitis, Paralytic

Poliomyelitis, Nonparalytic

Psittacosis

Q Fever, Acute (*Coxiella burnetii*)

Q Fever, Chronic (*Coxiella burnetii*)

Rabies, Animal

Rabies, Human

Rabies, Possible Exposure

Ricin Toxicity

Rocky Mountain Spotted Fever

Rubella

Rubella, Congenital Syndrome

Salmonellosis

Saxitoxin Poisoning (Paralytic Shellfish Poisoning)

SARS

Shigellosis

Smallpox

***Staphylococcus aureus*, Vancomycin Non-Susceptible**

***Staphylococcus* Enterotoxin B (SEB)**

Streptococcal Disease, Invasive, Group A

***Streptococcus pneumoniae*, Invasive Disease**

Tetanus

Toxoplasmosis

Trichinellosis

Tularemia (*Francisella tularensis*)

Typhoid Fever

Typhus Fever, epidemic (*Rickettsia prowazekii*)

Typhus Fever, endemic (*Rickettsia typhi*)

Vaccinia Disease

Varicella (Chickenpox)

Varicella mortality

***Vibrio*, Infections**

Viral Hemorrhagic Fever

Yellow Fever
