

# Outpatient Clinic Ebola Virus Disease (EVD) Screening Tool

FloridaHealth.gov • Florida Department of Health

Version 3.1 (November 18, 2014)

## Outpatient Clinic screening criteria for patient isolation and notification:

1. Travel to Guinea, Liberia, Mali, or Sierra Leone within 21 days (3 weeks) of symptom onset. **OR** Direct contact with a confirmed or suspect EVD case.

**If yes, isolate the patient.  
AND**

2. Ask if the patient has a history of fever or headache, weakness, muscle pain, vomiting, diarrhea, abdominal pain, hiccups, **or** hemorrhage.

If the first criterion is met, **contact the county health department**, to initiate active monitoring of the traveler.

If both criteria are met, **contact the county health department** and transfer the patient to a hospital for further assessment. Notify receiving facility of the concerns for EVD prior to the patient's arrival.

**If patient contact is required**, implement STANDARD, CONTACT, and DROPLET precautions using equipment that cover all the healthcare worker's exposed skin.

## **IMMEDIATELY Report Person Under Investigation (PUI) for Ebola to Discuss EVD Testing:**

1. Out-Patient Clinic Facility Leadership: **Add Name and Phone Number**
2. XXX [County Health Department](#): **Add Phone Number**  
or the Bureau of Epidemiology 24/7 at 850-245-4401

## Decision Making Algorithm for Suspect EVD Patients Presenting to Outpatient Clinics
