Joseph J. Chiaro, M.D., FAAP Interim Secretary

#### INTEROFFICE MEMORANDUM

INFORMATION HSES 07-001

**DATE:** January 24, 2007

**TO:** County Health Department Directors/Administrators

ATTN: Environmental Health and Engineering Directors

THROUGH: Lisa Conti, D.V.M., M.P.H., Dipl. ACVPM, CEHP

Director, Division of Environmental Health

**FROM:** Gerald R. Briggs, Chief

Bureau of Onsite Sewage Programs

**SUBJECT:** Onsite Sewage Program Evaluations 2007

### **INFORMATION ONLY**

Attached is the list of the county health department onsite sewage programs to be evaluated in 2007. For those counties, the assigned evaluator will contact you to schedule a date. The 2006-2008 program evaluation tool is also attached. The evaluations will be scored in five areas consisting of multiple items, which are identified along with the value of each item (See the attached files). The evaluation will receive one score based on the total number of points earned towards the value of each item. If the total score is less than 70%, a re-evaluation will occur to ensure implementation of corrective actions in deficient areas.

The records review (Attachment A) will be conducted from the data transferred to the Division of Environmental Health in CENTRAX. This includes new systems, repair systems, existing and modification systems, etc. The program evaluation is an important part of the quality improvement review process and in order to expedite the process you will be asked to provide the following documentation at least one week prior to the evaluation date:

- 1. Completed Work Load Unit spreadsheet for all Environmental Health Programs;
- 2. A Table of Organization:
- 3. Performance Standards for all supervisory positions:
- 4. Copy of written policy for supervision reconciliation of DARS and timesheets; and
- 5. Copy of written procedure for verification of mileage submitted and inspections completed by field inspectors.

I appreciate the cooperation and assistance that has been extended at every level to the evaluation staff. Comments or suggestions related to the program evaluation procedure should be directed to Mark Hooks at (850) 245-4070 or SC 205-4070.

### COUNTY HEALTH DEPARTMENT 2006-2008 ONSITE SEWAGE PROGRAMMATIC REVIEW

- A. Records Review: The items identified in each section of the evaluation tool are selected from the program forms, rule and statute requirements. These items represent only part of the total number of items required for compliance in the program. Scoring for the records portion of the program evaluation is divided as follows:
  - A review of new, repair and existing/modification permit application records. Seven of each will be randomly selected from systems receiving final system installation approval in the six months prior to the evaluation. All application packages will be used to generate the report.
  - A review of enforcement actions. A random sample of five complaints from the
    previous twelve months will be reviewed for compliance with ten specific criteria.
    The complaints will be comprised of septic tank contracting complaints received
    through the State Health Office Hotline, sanitary nuisance and rule violation
    complaints.
  - 3. A review of permit denial and variance applications. A random sample comprising five permit denials and variances will be reviewed for compliance with seven specific criteria. Also, each variance processed through the State Health Office will be reviewed for compliance with items one through four prior to any additional information being submitted. These scores will be retained for use in each program evaluation in an effort to assess variance application packets as they are initially submitted to the State Health Office.
  - 4. A review of operating permit files for each of the following: septic tank cleaning services, portable toilet services, septage treatment and land application facilities, septic tank manufacturers, aerobic treatment units, aerobic treatment unit and performance-based treatment system maintenance entities and commercial, industrial/manufacturing zones and performance-based treatment systems. A random sample of five operating permit files will be reviewed in each of these areas.
- B. Field Assessment: Conformity: Site Evaluation and Inspection
  - The conformity section will evaluate a combination of seven open and recently closed onsite sewage treatment and disposal systems that have received final system approval within the previous few weeks prior to the scheduled program evaluation. Two of the seven OSTDSs evaluated will be mound systems. The nineteen items in this section were selected for their high impact on the public's health. The information gathered in each of these inspections will be compared to the site evaluation, construction permit and inspection associated with the respective application packet.
- C. Implementation of Previous Recommendations: A review of the county health department's implementation of recommendations from their previous program evaluation will be conducted. The score will be reported as the percentage of previous recommendations satisfactorily implemented.

The evaluation will also include an interview with the environmental health director to discuss the county health department's activities related to staffing, equipment and references, training, customer satisfaction and internal monitoring and qualitative improvement.

In counties with more than one office, records and installation sites will be drawn from all offices in approximate proportion to the quantity of work performed in each of the offices. A report of the evaluation will be provided to the county health department administrator and director. The report will note strengths and weaknesses and make recommendations for improvements.

The county health department will be expected to respond within one month of receipt of the report with a corrective action plan implementing the evaluation's recommendations and any other actions proposed or already implemented to improve the program. The plan should also include the dates of implementation for the individual corrective actions in the report. Any county health department receiving a total score less than 70% will be re-evaluated within twelve months of the date of the evaluation report.

### **HSES Administrative and Programmatic Evaluation 2006-2008**

### B. FIELD ASSESSMENT: CONFORMITY: SITE EVALUATION AND INSPECTION

	NO.	ITEM	SYSTEM	VAL	SCORE	COMMENTS
	1.	ESTIMATED WSWT CONFORMS WITH SITE EVALUATION	OPEN & CLOSED ( M, F, S )	5	хо	THE ESTIMATED WET SEASON WATER TABLE WILL BE IDENTIFIED AND COMPARED WITH THE ELEVATION DOCUMENTED ON THE SITE EVALUATION.
چ	2.	SOIL PROFILE CONFORMS WITH SITE EVALUATION	OPEN & CLOSED (M, F, S)	5	хо	THE SOIL PROFILE WILL BE IDENTIFIED AND COMPARED WITH THE PROFILE DOCUMENTED ON THE SITE EVALUATION. WHERE A SOILS REPLACEMENT IS DONE, THE PROFILE IS COMPARED TO AN ADJACENT NON-REPLACED AREA.
Site Evaluation	3.	SOIL TEXTURE FOR SIZING	OPEN & CLOSED (M, F, S)	1	хо	THE SOIL TEXTURE FOR SIZING WILL BE IDENTIFIED AND COMPARED WITH THE TEXTURE DOCUMENTED ON THE SITE EVALUATION.
Site E	4.	ELEVATION OF THE BOTTOM OF THE DRAINFIELD	OPEN & CLOSED (M, F, S)	21	XON	A COMPARISON BETWEEN THE ELEVATION OF THE BOTTOM OF THE DRAINFIELD RESULTING FROM 1. ABOVE WILL BE MADE WITH THE ELEVATION DOCUMENTED ON THE OSTDS PERMIT AND THE ACTUAL ELEVATION IDENTIFIED ONSITE.
	5.	DEPTH OF SATISFACTORY SOIL	OPEN & CLOSED ( M, F, S )	5	хо	THE DEPTH OF THE SATISFACTORY SOIL WILL BE IDENTIFIED AND COMPARED WITH THE SOIL PROFILE DOCUMENTATION ON THE SITE EVALUATION.
	6.	STATE HEALTH OFFICE APPROVAL NUMBER	OPEN (M, F, S)	5	XON	THE SHO APPROVAL NUMBER IDENTIFIED ON THE SEPTIC TANK MUST BE DOCUMENTED ON THE INSPECTION FORM.
	7.	TANK SEALED / WATERTIGHT/ NO VISIBLE DEFECTS	OPEN (M, F, S)	5	XON	TANK LID, ACCESS PORTS, INLET AND OUTLET MUST BE CHECKED FOR PROPER SEALING. IS WATERTIGHTNESS TEST REQUIRED? CHECK FOR HOLES, CRACKS, ETC. MUST LOOK INTO ALL AREAS OF TANK.
	8.	TANK OUTLET FILTER	OPEN (M, F, S)	5	XON	MANUFACTURER, MAKE AND MODEL OF OUTLET FILTER MUST BE CONFIRMED. FILTER APPROVAL MUST BE VERIFIED, MUST BE REMOVED FROM HOUSING AND INSPECTED.
	9.	DRAINFIELD SIZE	OPEN (M, F, S)	5	XON	DOCUMENTATION OF INSTALLED DRAINFIELD SIZE MUST COMPLY WITH MINIMUM PERMIT SIZING CRITERIA
	10.	OSTDS LOCATION IN RELATION TO SITE PLAN	OPEN & CLOSED (M, F, S)	5	хо	THE INSTALLED OSTDS LOCATION WILL BE COMPARED TO THE PROPOSED DRAINFIELD LOCATION ON THE APPROVED SITE PLAN AND DOCUMENTED ON THE INSPECTION FORM.
	11.	ROOF / STORMWATER RUNOFF	OPEN & CLOSED (M, F, S)	5	XON	AN OBSERVATION WILL BE MADE COMPARING THE DISTANCE/LOCATION FROM THE INSTALLED OSTDS TO ROOF DRAINS TO DETERMINE IF THE SITE INSTALLATION AND REQUIRED UNOBSTRUCTED LAND IS SUBJECT TO SATURATION. WAS THE CORRECT DECISION MADE ON THE INSPECTION FORM?
	12.	SYSTEM SETBACK TO SURFACE WATER	OPEN & CLOSED (M, F, S)	5	XON	MEASUREMENTS WILL BE TAKEN TO DETERMINE IF THE EXISTING SURFACE WATER SETBACKS MEET THE MINIMUM REQUIREMENTS OF SECTION 381.0065, FLORIDA STATUTES AND CHAPTER 64E-6, FLORIDA ADMINISTRATIVE CODE. THE EXISTING SETBACKS WILL THEN BE COMPARED TO THE DOCUMENTATION ON THE INSPECTION FORM.
Inspection	13.	SYSTEM SETBACK TO WELLS	OPEN & CLOSED (M, F, S)	21	XON	MEASUREMENTS WILL BE TAKEN TO DETERMINE IF THE EXISTING WELL SETBACKS MEET THE MINIMUM REQUIREMENTS OF SECTION 381.0065 FLORIDA STATUTES. THE EXISTING SETBACKS WILL THEN BE COMPARED TO THE DOCUMENTATION ON THE INSPECTION FORM.
<u> </u>	14.	SYSTEM SETBACK TO WATERLINES	OPEN & CLOSED (M, F, S)	5	XON	MEASUREMENTS WILL BE TAKEN TO DETERMINE IF THE EXISTING WATER LINE SETBACKS MEET THE MINIMUM REQUIREMENTS OF CHAPTER 64E-6.005, FLORIDA ADMINISTRATIVE CODE. THE EXISTING SETBACKS WILL THEN BE COMPARED TO THE DOCUMENTATION ON THE INSPECTION FORM.
	15.	SYSTEM SETBACK TO PROPERTY LINES	OPEN & CLOSED (M, F, S)	5	хо	MEASUREMENTS WILL BE TAKEN TO DETERMINE IF THE EXISTING PROPERTY LINE SETBACKS MEET THE MINIMUM REQUIREMENTS OF CHAPTER 64E-6.005, FLORIDA ADMINISTRATIVE CODE. THE EXISTING SETBACKS WILL THEN BE COMPARED TO THE DOCUMENTATION ON THE INSPECTION FORM.
	16.	SHOULDER FORMATION AND MATERIAL	CLOSED (M,F)	5	XON	MEASUREMENTS WILL BE TAKEN TO DETERMINE IF THERE IS AN APPROPRIATE SEPARATION BETWEEN THE SHOULDER OF THE FILL AND THE NEAREST TRENCH OR ABSORPTION BED SIDEWALL. THE SHOULDER WILL ALSO BE OBSERVED TO DETERMINE THE COMPLIANCE OF THE SOIL UTILIZED FOR CONSTRUCTION.
	17.	SIDE-SLOPE FORMATION AND MATERIAL	CLOSED (M,F)	5	XON	MEASUREMENTS WILL BE TAKEN TO DETERMINE IF THE APPROPRIATE SLOPE WAS CONSTRUCTED PER CHAPTER 64E- 6.009, FAC. THE SLOPE WILL ALSO BE OBSERVED TO DETERMINE THE COMPLIANCE OF THE SOIL UTILIZED FOR CONSTRUCTION.
	18.	SOIL COVER QUANTITY AND MATERIAL	CLOSED (M, F)	5	XON	MEASUREMENTS WILL BE TAKEN TO DETERMINE IF THERE IS A MINIMUM SIX INCH SOIL CAP SPREAD EVENLY OVER THE DRAINFIELD EXCLUSIVE OF THE THICKNESS OF SOD. MOUND IS CROWNED AT THE CENTER. THE SOIL CAP WILL ALSO BE OBSERVED TO DETERMINE THE COMPLIANCE OF THE SOIL UTILIZED FOR CONSTRUCTION.
	19.	STABILIZATION MATERIAL  Full Credit O = No Credit N	CLOSED (M,F)	5	XON	AN OBSERVATION WILL BE MADE TO DETERMINE IF A VEGETATIVE COVER APPROVED BY THE STATE HEALTH OFFICE WAS UTILIZED TO PROVIDE PROTECTION FROM MOUND EROSION.

 $X = Full Credit, O = No Credit, N = Not Applicable Conformity is <math>\underline{100\%}$  of the total field score.

Internal Monitoring and Qualitative Improvement  Did supervisors perform ride along evaluations with each of their inspection field staff on at least two separate occasions in a permit year to observe them performing routine inspections and document the visits either on a checklist or on a separate routine inspection form?  Over the past three years did the supervisor(s) observe their staff perform routine inspections for the all programs in which they work?  All supervisory position descriptions and performance standards must clearly address supervisory responsibilities and inspection reports (as stated in informational memo HSEF 2001-006).  Supervisors reconcile field staff DARS and timesheets at least biweekly Supervisors verify field staff mileage accuracy prior to voucher approval. 90% of inspection reports in the random records sample were initialed by supervisors or their designee.  CENTRAX is used as the principal means of data collection and recording in the onsite sewage treatment and disposal system program.	5% 16% 16% 16%
