Re: Chapter 381.0065(4)(m), F.S. Compliance for "Bio-Systems SK-3"

Dear Ms Walters:

This letter is to acknowledge receipt of information on November 15, 2007 concerning the reformulated product "Bio-Systems SK-3" for statewide use in Florida. No product sold in the state for use in onsite sewage treatment and disposal systems may contain any substance in concentrations or amounts that would interfere with or prevent the successful operation of such system, or that would cause discharges from such systems to violate applicable water quality standards, section 381.0065(4)(m), Florida Statutes.

The staff has reviewed the information provided in the MSDS, 96-hr LC<sub>50</sub> toxicity test results, and laboratory results on volatile organic compounds for the product. The department has determined that the reformulated product, Bio-Systems SK-3, is in compliance with s. 381.0065(4)(m), F.S. and has no objection to the use of the product in accordance with manufacturer's specifications. Please be advised that all rules pertaining to the use of the product shall be observed and that there shall be no advertising of the product as state approved. Be advised that the department is not a testing agency and that this determination reflects only a review of the information submitted by you for compliance with Florida Statutes and Florida Administrative Code. The product evaluation does not investigate the validity of performance claims by manufacturers. For this reason, departmental acceptance must not be interpreted as certifying effectiveness, endorsing or recommending use of an additive. The Florida Department of Health also does not assume liability for any promise, guarantee or expectation from purchasing or using an additive. The department reserves the right to withdraw acceptance if product formulation or ingredients are modified after product evaluation by the department or subsequently found not to be in compliance with rule.

This letter of product compliance is limited to Department of Health jurisdictional circumstances as defined in Chapter 64E-6, Florida Administrative Code and Chapter 381.0065, Florida Statutes. If we may be of further assistance or should you have any additional questions regarding this letter, please call Dr. Sonia Cruz at (407) 317-7325.

Sincerely,

  
Gerald Briggs, Chief

Enclosure: Notice of Rights

Division of Environmental Health, Bureau of Onsite Sewage Programs  
4052 Bald Cypress Way, Bin #A08, Tallahassee, Florida 32399-1713

HEALTH

NOTICE OF RIGHTS TO APPEAL

A party whose substantial interest is affected by this order may petition for an administrative hearing pursuant to Sections 120.569 and 120.57, Florida Statutes. Such proceedings are governed by Chapter 28-106, Florida Administrative Code. A petition for a hearing must be in writing and must be received by the Agency Clerk for the Department within twenty-one (21) days from the receipt of this order. The address for the Agency Clerk is 4052 Bald Cypress Way, Bin # A02, Tallahassee, FL 32399-1703. The Agency Clerk's facsimile number is (850) 410-1448.

Mediation is not available as an alternative remedy.

Your failure to submit a petition for hearing within 21 days from receipt of this order will constitute a waiver of your right to an administrative hearing, and this order shall become a "final order".

Should this Order become a Final Order, a party who is adversely affected by it is entitled to judicial review pursuant to section 120.68, Florida Statutes. Review proceedings are governed by the Florida Rules of Appellate Procedure. Such proceedings may be commenced by filing one copy of a Notice of Appeal with the Agency Clerk of the Department of Health and a second copy accompanied by the filing fees required by law with the Court of Appeal in the appropriate District Court. The notice must be filed within 30 days of the rendition of the final order.

# Septic Tank Treatment

## Easily Maintain your Septic System

When functioning properly, household wastes are collected in your septic tank and then broken down, liquefied, and deodorized by the naturally occurring bacteria. Because this process is biological, it is easily upset and may stop working.

Some common factors that often upset the natural process are:

- *Overuse of disinfectants*
- *Overuse of bleaches*
- *Overuse of detergents*
- *Very hot or cold conditions.*

Such factors kill the micro-organisms that work to keep your septic system running properly. Because modern septic tanks are water-tight concrete boxes, the naturally occurring bacteria in the surrounding soil is unable to enter. Septic Klean 3 is specifically designed to replenish and boost the supply of these invaluable micro-organisms and allows natural activity to continue.

## Simple and Easy to Use

Using Septic Klean 3 is simple... Just drop in the convenient pre-packaged, pre-measured pouches into your lavatory bowl. The plastic pouches dissolve away so you don't have to handle the powder. No fuss - no bother - no effort!

## Benefits of SK3:

- Extends Life of Drain Area
- Controls Methane Production
- Improves Drain Field Percolation
- Keeps Sewer Lines Open
- Neutralizes Detergent Bleach
- Prevents Drain Blockage
- Will Not Attack Plastic or Metal Plumbing
- Safer to Use than Harsh Chemicals
- Helps eliminate soggy soil caused by clogging
- Degrades Paper, Grease and Vegetable Waste
- Degrades Waste Faster
- Eliminates odors which can attract insects

# SEPTIC KLEAN III<sup>®</sup>

## Why add Septic Klean 3?

It's easy to protect your septic system and keep it operating smoothly by simply using Septic Klean 3.

The initial application of Septic Klean 3:

- Restores the natural biological process
- Boosts the existing biological activity

Following with regular monthly applications will:

- Keep your septic tank working effectively
- Prevent expensive emergencies
- Prevent additional pumping costs.

Septic Klean 3 is safe to use as directed.

It is completely natural and environmentally safe, containing no corrosive chemicals, caustic or acids, and is hazard free.

It will not damage metal, ceramic, or plastic parts of the drainage system.

### Rockton Home Plagued by Slow Drains

A two story home in Rockton, IL was purchased with a slow drain problem. Pumping the tank didn't improve the slow drain problem, which meant the problem was in the home's plumbing.

Faced with the options of replacing the drain pipes or cleaning them, the owners decided to use Sk3 to biologically break down build-up on the pipes to restore full flow. After a few weeks of treatment the pipe's flow was restored.

#### Benefits of SK3:

- Extends Life of Drain Area
- Controls Methane Production
- Improves Drain Field Percolation
- Keeps Sewer Lines Open
- Neutralizes Detergent Bleach
- Prevents Drain Blockage
- Will Not Attack Plastic or Metal Plumbing
- Safer to Use than Harsh Chemicals
- Helps eliminate soggy soil caused by clogging
- Degrades Paper, Grease and Vegetable Waste
- Degrades Waste Faster
- Eliminates odors which can attract insects
