Re: Chapter 381.0065(4)(m), F.S. Compliance for " CLR® Septic System Treatment "

Dear Dr. Vandenberg:

This letter is to acknowledge receipt of the information concerning the product "CLR® Septic System Treatment" for statewide use in Florida. No product sold in the state for use in onsite sewage treatment and disposal systems may contain any substance in concentrations or amounts that would interfere with or prevent the successful operation of such system, or that would cause discharges from such systems to violate applicable water quality standards, section 381.0065(4)(m), Florida Statutes.

The staff has reviewed the information provided in the MSDS, 96-hr LC₅₀ toxicity test results, and laboratory results on volatile organic compounds for the product. The department has determined that the product, CLR® Septic System Treatment, to be in compliance with s. 381.0065(4)(m), F.S. and has no objection to the use of the product in accordance with manufacturer's specifications. Please be advised that all rules pertaining to the use of the products shall be observed and that there shall be no advertising of the products as state approved.

Be advised that the department is not a testing agency and that this determination reflects only a review of the information submitted by you for compliance with Florida Statutes and Florida Administrative Code. The product evaluation does not investigate the validity of performance claims by manufacturers. For this reason, departmental acceptance must not be interpreted as certifying effectiveness, endorsing or recommending use of an additive. The Florida Department of Health also does not assume liability for any promise, guarantee or expectation from purchasing or using an additive. The department reserves the right to withdraw acceptance if product formulation or ingredients are modified after product evaluation by the department or subsequently found not to be in compliance with rule.

This letter of product compliance is limited to Department of Health jurisdictional circumstances as defined in Chapter 64E-6, Florida Administrative Code and Chapter 381.0065, Florida Statutes. If we may be of further assistance or should you have any additional questions regarding this letter, please call Dr. Sonia Cruz at (407) 317-7325.

Sincerely,

Gerald R. Briggs, Chief
Bureau of Onsite Sewage Programs

CLR[®]

CLR SEPTIC SYSTEM TREATMENT
PROFESSIONAL STRENGTH
Formulated in partnership with the Environmental Protection Agency.

- Can be poured into any household drain line or toilet at any time—day or night
- **PATENTED** formula activates **IMMEDIATELY**
- Prevents and reduces sludge buildup
- Does not contain any soaps, enzymes or any other emulsifying ingredients
- Works on fats, oils, grease and other stubborn organic matter

DIRECTIONS FOR USE:

- 1) Use Monthly to keep septic system and drain field flowing freely.
- 2) Pour 1/3 of bottle into any toilet or drain line, for septic systems up to 1500 gallons. Use the measuring window on side of bottle.

Safe on pipes and porcelain. Safe for pets and the environment. Visit www.jelmar.com for more details.

CAUTION: KEEP OUT OF REACH OF CHILDREN; SLIGHT EYE IRRITANT. In case of contact with eyes, flush with cool running water for at least 15 minutes, remove contact lenses. If irritation continues, seek medical attention. If product is in contact with skin, wash hands with soapy water. **HARMFUL IF SWALLOWED.** If swallowed, induce vomiting and seek medical attention. This product is not intended for human or animal consumption.

MONEY BACK GUARANTEE: CLR Septic System Treatment is guaranteed to perform to your complete satisfaction or return to place of purchase with receipt for a full refund of purchase price.

Contains 100% environmentally safe biodegradable bacterial cultures. This bottle is 25% post-consumer recycled plastic.
US Patent numbers: 6,068,774, 6,344,141 and 5,980,747
Best if used before:

CLR Septic System Treatment has met the EPA's DfE challenge for biological septic system products by demonstrating a more positive human health and environmental profile
