Re: Review for Compliance with FS381.0065(4)(m) - "**Commercial Rid-X Septic System Treatment**" - label change/rebranding.

Dear Ms. Garcia:

This letter is to acknowledge receipt of your information regarding the proposed label change to the previously reviewed product, "**Rid-X Septic System Treatment Liquid**" (formula 1610-6-2). The proposed new product label will bear the name "**Commercial Rid-X Septic System Treatment**" for statewide use in Florida. No product sold in the state for use in onsite sewage treatment and disposal systems may contain any substance in concentrations or amounts that would interfere with or prevent the successful operation of such system, or that would cause discharges from such systems to violate applicable water quality standards, section 381.0065(4)(m), Florida Statutes (FS).

The review of this new label is based on the original review of information provided in the MSDS, 96-hr LC<sub>50</sub> toxicity test results, and laboratory analysis of VOCs for the "**Rid-X Septic System Treatment Liquid**" (formula 1610-6-2) product. Based on this information, the newly submitted MSDS sheets, and your certification that the product to be sold is of identical formulation and dosage, the department has determined that the proposed formulation and use of the product, "**Commercial Rid-X Septic System Treatment**" complies with s. 381.0065(4)(m), FS, and the criteria published in rule 64E-6.0151, Florida Administrative Code (FAC). The reviewed formulation, application instructions, and labels are for a 48 fl. oz. package containing 6 monthly doses of product. The compliant dosage rate is one (1) 8-ounce dose for a septic tank up to 1500 gallons in size.

The department has no objection to the use of the product under this name, with the provided labels, and in accordance with the manufacturer's instructions as listed on the labels reviewed. Please be advised that all rules pertaining to the use of the product shall be observed and that there shall be no advertising of the product as state approved.

Be advised that the department is not a testing agency and that this determination reflects only

Bureau of Onsite Sewage Programs

a review of the information submitted by you for compliance with Florida Statutes and Florida Administrative Code. The product evaluation does not investigate the validity of performance claims by manufacturers. For this reason, departmental determination of compliance must not be interpreted as certifying effectiveness, endorsing, or recommending use of an additive. The Florida Department of Health also does not assume liability for any promise, guarantee, or expectation from purchasing or using an additive. The department reserves the right to withdraw acceptance if product formulation, ingredients, or labeling are modified after product evaluation by the department or subsequently found not to comply with rule 64E-6.0151, FAC, or chapter 381.0065, F.S.

This letter of product compliance is limited to Department of Health jurisdictional circumstances as defined in Chapter 64E-6, Florida Administrative Code and Chapter 381.0065, Florida Statutes.

If we may be of further assistance or should you have any additional questions regarding this letter, please contact Marcelo J. Blanco by email at [Marcelo\\_Blanco@doh.state.fl.us](mailto:Marcelo_Blanco@doh.state.fl.us) or by phone at (407) 316-4540.

Sincerely,

Gerald Briggs, Chief  
Bureau of Onsite Sewage Programs
