Re: Review for Compliance with FS381.0065(4)(m) - Rid-X Septic System Treatment (powder #1398-103-A) – Label Change

Dear Ms. Melnicoe:

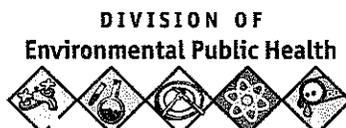

This letter is to acknowledge receipt of your information regarding the proposed change in labeling information for "Rid-X Septic System Treatment" (powder #1398-103-A) for statewide use in Florida. No product sold in the state for use in onsite sewage treatment and disposal systems may contain any substance in concentrations or amounts that would interfere with or prevent the successful operation of such system, or that would cause discharges from such systems to violate applicable water quality standards, section 381.0065(4)(m), Florida Statutes (FS).

The staff has reviewed the information provided in the label change request and the department has determined that the proposed new labels for the product, "**Rid-X Septic System Treatment**," (powder #1398-103-A) complies with s. 381.0065(4)(m), FS and 64E-6.0151, Florida Administrative Code (FAC) based on the compliance letter issued on September 1, 2009. The reviewed labels are for packages bearing the claim "NEW! Improved Formula" and "#1 Brand" with no change in dose size (9.8 oz), but larger container sizes of:

- 19.6 oz
- 29.4 oz
- 39.2 oz

The department has no objection to the use of the product under this name with the revised labels in accordance with the manufacturer's specifications provided under the original review for compliance. Please be advised that all rules pertaining to the use of the product shall be observed and that there shall be no advertising of the product as state approved.

Be advised that the department is not a testing agency and that this determination reflects only a review of the information submitted by you for compliance with Florida Statutes and Florida Administrative Code. The product evaluation does not investigate the validity of performance claims by manufacturers. For this reason, departmental acceptance must not be interpreted

Core Public Health at Your Service
Bureau of Onsite Sewage Programs

as certifying effectiveness, endorsing or recommending use of an additive. The Florida Department of Health also does not assume liability for any promise, guarantee or expectation from purchasing or using an additive. The department reserves the right to withdraw acceptance if product formulation or ingredients are modified after product evaluation by the department or subsequently found not to comply with rule 64E-6.0151, FAC.

This letter of product compliance is limited to Department of Health jurisdictional circumstances as defined in Chapter 64E-6, Florida Administrative Code and Chapter 381.0065, Florida Statutes.

If we may be of further assistance or should you have any additional questions regarding this letter, please contact Marcelo J. Blanco by email at Marcelo_Blanco@doh.state.fl.us or by phone at (407) 316-4540.

Sincerely,

Gerald Briggs, Chief
Bureau of Onsite Sewage Programs
