Mr. Donald Stewart  
Unique Manufacturing and Marketing, Inc.  
5778 Lamar St.  
Arvada, CO. 80002

Dear Mr. Stewart:

This letter is to acknowledge receipt of the information concerning the products "**Hungri-Bac and Unique Septic System Digester**" for statewide use in Florida. No product sold in the state for use in onsite sewage treatment and disposal systems may contain any substance in concentrations or amounts that would interfere with or prevent the successful operation of such system, or that would cause discharges from such systems to violate applicable water quality standards, section 381.0065(4)(m), Florida Statutes.

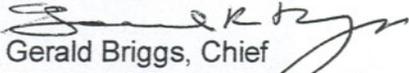

The staff has reviewed the information provided in the MSDS, 96-hr LC<sub>50</sub> toxicity test results, and laboratory results on volatile organic compounds for the products. The department has determined that the products, "**Hungri-Bac and Unique Septic System Digester**", are in compliance with s. 381.0065(4)(m), F.S. and has no objection to the use of the products in accordance with manufacturer's specifications. Please be advised that all rules pertaining to the use of the products shall be observed and that there shall be no advertising of the products as state approved.

Be advised that the department is not a testing agency and that this determination reflects only a review of the information submitted by you for compliance with Florida Statutes and Florida Administrative Code. The product evaluation does not investigate the validity of performance claims by manufacturers. For this reason, departmental acceptance must not be interpreted as certifying effectiveness, endorsing or recommending use of an additive. The Florida Department of Health also does not assume liability for any promise, guarantee or expectation from purchasing or using an additive. The department reserves the right to withdraw acceptance if product formulation or ingredients are modified after product evaluation by the department or subsequently found not to be in compliance with rule.

This letter of product compliance is limited to Department of Health jurisdictional circumstances as defined in Chapter 64E-6, Florida Administrative Code and Chapter 381.0065, Florida Statutes.

If we may be of further assistance or should you have any additional questions regarding this letter, please call Dr. Sonia Cruz at (407) 317-7325.

Sincerely,

  
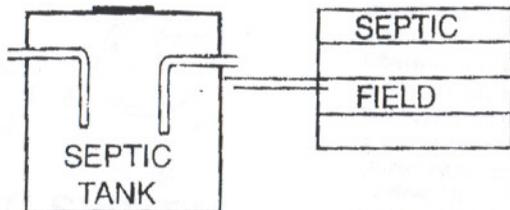

Gerald Briggs, Chief  
Bureau of Onsite Sewage Programs

# SEPTIC SYSTEM DIGESTER

BACTERIAL / ENZYME ACTION

## Professional Strength

### CONCENTRATED

Approximately 65 billion bacteria per quart. This is 10 to 100 times more bacteria than most popular brands.

for use in

SEPTIC TANKS • SEPTIC FIELDS

CESS POOLS • LAGOONS

ENVIRONMENTALLY CORRECT

WORKS THROUGH STANDING WATER

WILL NOT FREEZE

CONTENTS: ONE QUART (32 fl. oz.)

**SEPTIC SYSTEM DIGESTER**  
SAFE • NON-TOXIC • EFFECTIVE

### NATURE'S WAY IS THE BEST WAY

SEPTIC SYSTEM DIGESTER is a natural product, designed to eat and digest all of the organic solids in your septic tank and septic field. The bacteria in SEPTIC SYSTEM DIGESTER has multiple enzymes to jump start the bacterial action. Here's how it works-the bacteria start growing when they are exposed to food and water. About every 30 minutes the bacteria split into two bacteria, when they do this they create the enzyme. The enzyme break the food down small enough for the bacteria to eat and digest, the bacteria turn the food into water and carbon dioxide. And it goes into the septic field and soaks into the ground. This is a natural process, Nature's way.

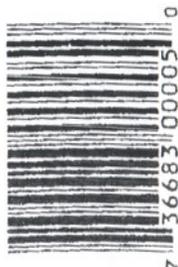

**SAFE FASTER ACTION!** An easy to use safe product. Designed to renew the bacteria action in your septic tank and field.

**DISINFECTANTS, CLEANERS, CHLORINE CLEANERS, ACIDS ETC.** will slow down or kill the bacteria in your septic system. SEPTIC SYSTEM DIGESTER will add the bacteria to your system to keep it working efficiently.

**CAUTION:** Wash hands thoroughly after each use. Do not allow contact with eyes, open cuts or sores. KEEP OUT OF REACH OF CHILDREN.

### DIRECTIONS:

#### SEPTIC TANKS:

**INITIAL TREATMENT:** For new systems use 4 oz. for each 1500 gallons of capacity. Mix into 2 gallons of warm water and flush through toilet furthest from tank. **RE-TREATMENT;** Each month use 2 oz. per 1000 gallons of capacity. Apply as above.

#### SEPTIC FIELDS:

Treat with 1 quart (32 oz.) SEPTIC SYSTEM DIGESTER for small fields, 2 quarts for large fields. Mix with 1 gallon warm water, pour directly into septic tank if possible, or into drain nearest tank and run warm water for 5 to 10 minutes letting septic tank overflow into septic field.

#### CESS POOLS:

Treat same as septic tanks.

#### LAGOONS:

10,000 to 100,00 Gallons 1 quart to begin and 1 quart each week.

#### DRAIN MAINTENANCE:

(Including disposals, toilets, grease traps, etc.) This product performs best when it is allowed to work uninterrupted. Treat drains while they are not in use, such as just before bedtime. Whenever possible, run warm water (not hot) through the drain for 1 minute prior to application. Add 6 ounces of SEPTIC SYSTEM DIGESTER directly into the drain opening. For maximum performance, do not use for 6 hours. Repeat application as necessary.

#### GARBAGE DISPOSALS:

To help eliminate malodors in garbage disposals, run hot water thru disposal for 30 seconds. Turn off water then pour 4 oz. of SEPTIC SYSTEM DIGESTER down drain. Best time at bedtime, when not in use.
