Charlotte
Bloem, Applicant

STATUTE/RULE CITATION:
64E-6.015, Table V, FAC - Setback to tidal surface water body (25 ft requested, 50 ft required)

RECOMMENDATIONS:
Variance Committee: P
SHO-Y  CHD-Y  DEP-Y  STI-1  HBI-Y  REI-1  ENG-Y
Health Officer: P

Approved subject to the following conditions:
The onsite sewage treatment and disposal system shall maintain a two-foot separation from property lines when installed.
However, should the onsite sewage treatment and disposal system drainfield fail to function in a sanitary manner, the system shall be replaced with a system meeting repair standards in effect at the time of the system failure.

This will require that the drainfield be relocated in order to meet the required 50-foot setback to the boundary of the surface water body.

( SHO-1  CHD-Y  DEP-Y  STI-Y  HBI-Y  REI-Y  ENG-2)  
Health Officer:  D

Failure to satisfy the department that:
At 50 feet, your proposed onsite sewage treatment and disposal system is too close to a private drinking water well.
The proposed system does not have enough unobstructed area for the installation and proper functioning of the system.
It is not unreasonable to require you to locate the system in the front yard to meet the required setback to the private drinking water well.
Each of the above facts and conclusions, standing alone, is sufficient grounds for denial of your variance request.
The variance proposal would create a likelihood that the onsite system discharge may adversely affect the health of the public.
