- **Nuclear Medicine Technologist**
- **Radiation Therapy Technologist**
- **Computed Tomography**
- **Positron Emission Tomography**
- **Mammography**
- **Radiologist Assistant**

Please read these instructions completely before completing and mailing the application. Any missing documents will delay the processing of your application. Any reference to "licensure" in the application also means "certification" and "registration."

1) REQUIREMENTS FOR APPLICATION:

To be eligible for certification, you must have successfully completed an approved educational/training program in the same area of radiologic technology for which you are applying for certification. Such programs must be recognized and accepted by the American Registry of Radiologic Technologists (ARRT) or the Nuclear Medicine Technology Certification Board (NMTCB) – (contact information for all approved programs, including the accredited school/college name, address and program director's name, is found on the registry websites at *http://www.arrt.org* and *http://www.nmtcb.org*).

If you are currently licensed as a radiographer, nuclear medicine technologist, radiation therapy technologist or radiologist assistant by a national organization (the ARRT or NMTCB), or a state who uses the ARRT examinations, and you are applying for the same license type, then you may check **"by-endorsement"** on the application form, pay the certification by endorsement fee, and include a current copy of your license (or wallet card) which shows your expiration date, name, and type of licensure. You may also apply by endorsement for a specialty license type if you currently have the same license from one of the approved organizations and types listed in Florida Administrative Code (F.A.C.) Rule 64E-3.0034.

If you are not currently licensed, then you need to check **"by-examination"** and pay the certification by examination fee (however, as noted in section 4 of the application, not all license types are available for licensure by examination under state law). This application type should also be used for those graduates of an approved program who are currently scheduled for a national examination.

Regardless of whether you apply by exam or by endorsement, we cannot grant certification until you have passed the State of Florida examination, or one of the national registry exams as noted above, with a scaled score of 75.

2) ALL APPLICANTS MUST SUBMIT:

a. Proof of education. Submit proof of completion of the highest level of training in this field you have completed (college, university, hospital-based program, etc.).

b. Verification of licensure from each state or organization where you have been disciplined or denied licensure. It is your responsibility to send the ***License Verification Form, DH 4128***, to each state or organization.

c. Proof of age. Submit a copy of your valid Driver's License or other government-issued ID showing date of birth. You must be at least 18 to be certified.

3) ALL FORMS ARE AVAILABLE FOR DOWNLOAD AT:

http://www.floridahealth.gov/licensing-and-regulation/radiologic-technology/applications-forms/.

APPLICATION FEES ARE NOT REFUNDABLE

4) **HIV/AIDS AFFIDAVIT:**

Florida law requires all applicants to complete an approved 4-hour HIV/AIDS education course that contains instruction on Florida's HIV/AIDS laws. You must submit proof of completion in accordance with s. 381.0034, Florida Statutes. Courses can be located at: http://srdappsdoh.doh.state.fl.us/RadTech/CeProviders.aspx.

5) **APPLICANTS WHO WERE EDUCATED OUTSIDE OF THE UNITED STATES:**

If an applicant cannot meet the requirements for graduation from an approved educational or training program solely because their radiologic technology education was received in a country other than the United States (U.S.), beyond the reach of U.S. accreditation mechanisms, the applicant may instead submit evidence that the radiologic technology education they received in the other country was substantially equivalent to the approved educational or training program required by the department. The department will determine, based on this evidence, whether the applicant's education is substantially equivalent. All documents not in English must be accompanied by a certified translation in English. Such evidence must include:

a. A license or registration in the applicant's name to practice radiologic technology in the other country;

b. An official transcript of the applicant's radiologic technology education in the other country, showing all courses successfully completed, the grade received, the applicant's full name, the graduation date, and the degree awarded; and

c. A comprehensive, course-by-course evaluation of the U.S. equivalency of the applicant's radiologic technology education by an international credential evaluation service which is a member of the National Association of Credentials Evaluations Services, at: http://www.naces.org.

6) **DISCIPLINE OR DENIAL OF ANY HEALTH CARE LICENSE/CERTIFICATE OR BY ANY ORGANIZATION:**

Disciplinary action includes revocation, suspension, probation, reprimand, or being otherwise acted against, including being denied certification or resigning from or non-renewal of membership taken in lieu of or in settlement of a pending disciplinary denied certification or resigning from or non-renewal of membership taken in lieu of or in settlement of a pending disciplinary case.
