State Required Radon Testing

- All facilities required to test for radon
- Facilities (excluding those in single family homes/duplexes) required to test for radon
- No state required radon testing

Facilities include:
- All public & private school buildings or school sites housing students in K-12
- All state-owned, state-operated, state-regulated, or state-licensed 24-hour care facilities
- All state-licensed day care centers for children or minors (check with local licensing agent in Broward, Hillsborough, Palm Beach, Pinellas, and Sarasota to see if testing is required)

Resources:
- Mandatory Testing Regulations: Florida Statute 404.056 (4)
- Testing protocols
- History: Radon Protection Map Study
