

**The National Conference of State Legislatures**  
**Florida Senator Dave Aronberg, Public Service Announcement**

This is state Senator Dave Aronberg.

Radon is a naturally occurring radioactive gas that can build to unsafe levels in your home. It is the leading cause of lung cancer among non-smokers, claiming the lives of more than 20,000 Americans each year.

As you state senator I urge you to heath the Surgeon's General warning, and test your house today.

Call the Florida Radon Hotline at 1-800-543-8279 and protect your family's health
