STATE OF FLORIDA APPLICATION FOR ELECTROLYSIS FACILITY LICENSURE

NEW FACILITY

- OR -

NEW OWNERSHIP

PLEASE READ ALL INSTRUCTIONS CAREFULLY AND RETAIN FOR REFERENCE REGARDING THE APPLICATION PROCESS.

APPLICATION INSTRUCTIONS

- **BEFORE** applying for licensure, ensure that your facility meets all required equipment, safety and sanitation requirements. Checklists are enclosed in this packet to assist you with preparation. All requirements are also outlined in Rule 64B8-51.006, F.A.C., Rule Governing Licensure and Inspection of Electrology Facilities.

- Once your checklists are complete, submit this paper application, or, apply online at [http://www.floridahealth.gov/licensing-and-regulation/electrolysis/applications-and-forms/index.html](http://www.floridahealth.gov/licensing-and-regulation/electrolysis/applications-and-forms/index.html).

APPLICATION FEES

$305 TOTAL

($100 application fee; $100 licensure fee; $100 inspection fee and $5 unlicensed activity fee)

- All fees are payable by check or money order made out to: Department of Health/Electrolysis Council. (DO NOT SEND CASH.)

- An incomplete application expires 1 year after the initial filing. Please note that in the event your application expires, is denied or is withdrawn, the application fees are non-refundable. If requested, the licensure and unlicensed activity fee may be refunded to you.

Submit initial application, supporting documents and fees to:

IMPORTANT INFORMATION

- Licensure is required for new facilities or existing licensed facilities that have new owners.

- An electrology facility license may not be transferred from the name of the licensee to the name of another person. If a facility is sold, the new owner must apply to the Department for licensure and no electrolysis services may be performed in the facility after the sale until the new owner has received the required license from the Department. A person purchasing an electrology facility may apply to the Department for licensure prior to the date of purchase. Existing facility owners transferring to a new location must complete a Transfer of Location application prior to opening in the new facility.
• Florida-Licensed Medical Doctors (M.D.) and Florida-Licensed Osteopathic Physicians (D.O.) are not required to obtain an electrology facility license. An Electrologist employed in a facility owned by either type of physician is not required to pursue a facility license, unless providing services as an independent contractor. If there is any change in employment status in an exempt facility (such as changing from employee to independent contractor), you must notify the Council office at once to determine whether licensure will be required.

• Equipment and safety and sanitary requirements are listed in Rule 64B8-51.006, F.A.C. Compliance with these requirements is mandatory upon inspection.

• Upon completion of the application and prior to licensure, the Department of Health will make arrangements to send an inspector to the facility to determine compliance with the law and rules. The most current inspection form is available at [http://www.floridahealth.gov/licensing-and-regulation/enforcement/inspection-program/inspection-forms.html](http://www.floridahealth.gov/licensing-and-regulation/enforcement/inspection-program/inspection-forms.html).

• The inspector will provide a copy of the completed inspection form to the applicant. This form must be displayed in a conspicuous location within the facility along with a copy of Rule 64B8-51.006, F.A.C. When the department determines the proposed electrology facility has met the requirements set forth by rule, the applicant will be issued a license.

• When an applicant fails to meet all the requirements, the Department shall deny the application in writing and shall list the specific requirements not met. No applicant denied licensure because of failure to meet the requirements shall be precluded from reapplying for licensure.

• Practicing in or allowing the practice of electrolysis in an unlicensed facility is punishable by a fine from $250 to $5,000 and other disciplinary penalties up to denial of licensure of the facility. The electrologist as well as the facility owner may be fined and/or disciplined by the Board of Medicine.

**GENERAL LICENSURE INFORMATION**

• All facility licenses expire on May 31st of every even numbered year. The expiration date is printed on the license.

• Failure to renew the facility license by May 31st of every even numbered year will render the license delinquent. Failure to renew within 6 months of the expiration date will render the license null and void. The facility will no longer be licensed and all electrolysis practice must cease.

• In order to regain the license after voiding, the owner must completely re-apply and be inspected before the license can be issued and practice in that facility recommenced.

• It is the responsibility of the licensee to ensure that the facility is renewed timely, regardless of whether a renewal notice is received or not.
ELECTROLOGY FACILITY SAFETY AND SANITARY REQUIREMENTS CHECKLIST

The following requirements must be fulfilled by an electrology facility in order to pass inspection. Use this checklist to ensure compliance. All of the items below must be in the facility at the time of inspection, unless otherwise noted. See Rule 64B8-51.006(3), Florida Administrative Code, for more information. See additional requirements on page 4 of this packet.

NOTE: Compliance with these requirements will be verified by inspectors of the Department of Health PRIOR to initial license. Licenses will be issued upon notification to the council office of the facility passing inspection. No inspection will be passed and no license issued to any electrology facility that does not meet these requirements.

A. All Facilities are required to have the following supplies and equipment:

- A clean toilet and sink with hot and cold running water available to the electrology facility must be kept in working order when the facility is open for business;
- A treatment table or treatment chair with a non-porous surface capable of being disinfected;
- Client service area must allow for protection from view of the public, and any other clients at the facility, at the time of service. This requirement does not apply to training programs engaged in training students in electrolysis;
- Disposable paper drapes or sanitary cloth drapes stored in a closed container or compartment;
- Sanitary waste receptacles for the disposal of used gloves, paper supplies, cotton balls, and other noninfectious items;
- Single use, disposable towels;
- A treatment lamp or magnifier lamp capable of being disinfected with disinfectant;
- A magnifying device which shall be a magnifier lamp, optical loupe or microscope capable of being cleaned and disinfected;
- Tuberculocidal hospital grade disinfectant registered by the Environmental Protection Agency, household bleach or wiping cloths pre-saturated with disinfectant for wiping non-porous surfaces;
- Betadine, 3% U.S. Pharmaceutical grade hydrogen peroxide, or 70% isopropyl alcohol, or wrapped single use wipes saturated with 70% isopropyl alcohol;
- Clean, non-sterile materials such as cotton balls, cotton strips, cotton swabs, gauze pads, and gauze strips;
- If cloth towels are used, they shall be cleaned prior to use on each client and stored in a closed container or compartment. Used cloths shall be kept in a separate closed container;
- A holding container for soaking and cleaning contaminated instruments; and
- Non-sterile disposable examination gloves.

B. Epilator-Only Hair Removal Facilities are required to have all supplies and equipment listed in Section A. above as well as the following:

- An FDA registered needle-type epilation device in working order;
- Clean and sterile needles/probes and forceps/tweezers;
- Needle holder tips;
- A sharps container for disposal of used needles/probes;
- Covered containers for needles/probes and forceps/tweezers which containers are capable of being clean and sterilized;
- A sterilizer which shall be either an autoclave or a dry heat sterilizer, and color change indicators for use with either sterilizer. The endodontic dry heat "glass bead sterilizer" shall not be used for instrument sterilization;
- Spore destruction tests for monitoring the autoclave or dry heat sterilizer; and
- Monthly records of spore destruction test (not applicable on first inspection for licensure of a new facility – required for all future inspections after license is issued).

C. Laser or Light Based-Only Hair Removal Facilities are required to have all supplies and equipment listed in Section A. above as well as the following:

- Proof of certification of 30 hours of continuing education in laser hair removal for all electrologists using laser equipment in the facility; a listing of approved course providers is available on the Council’s website at http://www.floridahealth.gov/licensing-and-regulation/electrolysis/Documents/approved-laser-providers-list1.pdf;
- For all electrologists using laser or light-based equipment in the facility, proof of having passed the Society for Clinical and Medical Hair Removal test for certification as a Certified Medical Electrologist;
- For devices required to be registered, proof of registration for each laser or light-based device in use at the facility as required by Section 501.122, F.S.;
- Written designation of laser safety officer;
- A room or rooms specifically designated for use of the laser or light-based equipment which is where all use of such equipment shall take place;
- Sign on door of laser room identifying when laser or light-based equipment is in use;
- Lock on door of laser room;
- Protective eyewear capable of being cleaned and disinfected, shall be used by all persons in laser room during operation of laser or light-based equipment;
- Fire extinguisher in vicinity of laser room;
- Cold water and ice; and
- The written protocols required by paragraph 64B8-56.002(4)(a), F.A.C.
ELECTROLOGY FACILITY DOCUMENT REQUIREMENTS CHECKLIST – ALL FACILITY TYPES

The following requirements must be fulfilled by an electrology facility in order to pass inspection. Use this checklist to ensure compliance. See Rule 64B8-51.006(4), Florida Administrative Code, for more information.

NOTE: Compliance with these requirements will be verified by inspectors of the Department of Health PRIOR to initial license. Licenses will be issued upon notification to the council office of the facility passing inspection. No inspection will be passed and no license issued to any electrology facility that does not meet these requirements.

☐ The following documents shall be displayed in an area that is visible to the general public entering the facility:

1. The electrology facility license.
2. The current license of the electrologist.
3. The most recent inspection sheet from the Department of Health.
4. A current copy of rule 64B8-51.006, F.A.C.

☐ An appointment book shall be maintained and kept on the electrology facility premise which lists the name of each person who has received electrolysis treatment. The appointment book shall be maintained for four (4) years. The appointment book may be an electronic record.

Important Notice: Once your facility license is issued under one modality (epilator or laser/light-based), to add or switch the modality of hair removal services being provided, you must submit the Application for Inspection for Adding or Switching to a New Electrology Modality, Form DH5008-MQA-09/2015. The facility must pass an inspection prior to implementing the new modality.
An electrology facility is defined as that portion of any establishment or place wherein electrolysis is performed. It may be part of an existing facility, such as a cosmetology salon, and may be located in a residence. All electrolysis training programs must be licensed as electrology facilities. The electrology facility MUST be licensed PRIOR to opening the facility and offering electrolysis services. No license for an electrology facility may be transferred from the name of the original license to another. A new application must be submitted when ownership changes. An application for Transfer of Location must be submitted prior to the moving of an existing licensed facility.
