TRANSFER OF FACILITY INFORMATION

- When a licensed facility is transferring locations, the old facility license must be surrendered with the transfer of location application. The original hard copy of the old facility license must be submitted. Copies are unacceptable.
- Upon completion of the transfer of location application, the council office will notify the applicant (facility license holder) that a request for inspection has been made. Upon receipt of the completion letter, electrolysis services may be performed in the new location up to 60 days, commencing with the first day of practice in the new facility. Please notify the council office if your facility is not inspected within 60 days.
- The inspector will have an inspection form upon which compliance is documented. A copy will be supplied to the applicant (facility license holder) by the inspector. This form must be displayed in a conspicuous location within the facility. The most current inspection form is available at <http://www.floridahealth.gov/licensing-and-regulation/enforcement/inspection-program/inspection-forms.html>.
- When the department determines that the transferred facility has met the requirements set forth by rule, a new license will be issued. If a transferred facility does not meet the requirements upon inspection set forth by rule, a new license will not be issued until the specific requirements have been met.

Important Information Regarding Laser & Light-Based Hair Removal Requirements:

Electrologists who are to perform laser and light-based hair removal in your facility, must be actively licensed with the Department and Health and meet all requirements specified in Rule 64B8-56.002, Florida Administrative Code, including, providing services only under the **direct supervision of a Medical Doctor or Osteopathic Physician** and submission of the required protocols to the Florida Electrolysis Council Office. For more details on requirements, please visit our website at <http://www.floridahealth.gov/licensing-and-regulation/electrolysis/laser/index.html>.

GENERAL LICENSURE INFORMATION

- All facility licenses expire on May 31st of every even numbered year. The expiration date is printed on the license.
- Failure to renew the facility license by May 31st of every even numbered year will render the license delinquent. Failure to renew within 6 months of the expiration date will render the license null and void. The facility will no longer be licensed and all electrolysis practice must cease.
- In order to regain the license after voiding, the owner must completely re-apply and be inspected before the license can be issued and practice in that facility recommenced.
- It is the responsibility of the licensee to ensure that the facility is renewed timely, regardless of whether a renewal notice is received or not.

ELECTROLOGY FACILITY SAFETY AND SANITARY REQUIREMENTS CHECKLIST

The following requirements must be fulfilled by an electrology facility in order to pass inspection. Use this checklist to ensure compliance. All of the items below must be in the facility at the time of inspection, unless otherwise noted. See Rule 64B8-51.006(3), Florida Administrative Code, for more information. See additional requirements on page 4 of this packet.

NOTE: Compliance with these requirements will be verified by inspectors of the Department of Health PRIOR to initial license. Licenses will be issued upon notification to the council office of the facility passing inspection. No inspection will be passed and no license issued to any electrology facility that does not meet these requirements.

A. All Facilities are required to have the following supplies and equipment:

- A clean toilet and sink with hot and cold running water available to the electrology facility must be kept in working order when the facility is open for business;
- A treatment table or treatment chair with a non-porous surface capable of being disinfected;
- Client service area must allow for protection from view of the public, and any other clients at the facility, at the time of service. This requirement does not apply to training programs engaged in training students in electrolysis;
- Disposable paper drapes or sanitary cloth drapes stored in a closed container or compartment;
- Sanitary waste receptacles for the disposal of used gloves, paper supplies, cotton balls, and other noninfectious items;
- Single use, disposable towels;
- A treatment lamp or magnifier lamp capable of being cleaned with disinfectant;
- A magnifying device which shall be a magnifier lamp, optical loupe or microscope capable of being cleaned and disinfected;
- Tuberculocidal hospital grade disinfectant registered by the Environmental Protection Agency, household bleach or wiping cloths pre-saturated with disinfectant for wiping non-porous surfaces
- Betadine, 3% U.S. Pharmaceutical grade hydrogen peroxide, or 70% isopropyl alcohol, or wrapped single use wipes saturated with 70% isopropyl alcohol;
- Clean, non-sterile materials such as cotton balls, cotton strips, cotton swabs, gauze pads, and gauze strips;
- If cloth towels are used, they shall be cleaned prior to use on each client and stored in a closed container or compartment. Used cloths shall be kept in a separate closed container;
- A holding container for soaking and cleaning contaminated instruments; and
- Non-sterile disposable examination gloves.

B. Epilator-Only Hair Removal Facilities are required to have all supplies and equipment listed in Section A. above as well as the following:

- An FDA registered needle-type epilation device in working order;
- Clean and sterile needles/probes and forceps/tweezers;
- Needle holder tips;
- A sharps container for disposal of used needles/probes, as defined in Rule 64E-16, F.A.C., effective December 2, 2015, which is hereby incorporated by reference and can be obtained from <https://www.flrules.org/gateway/ChapterHome.asp?Chapter=64E-16>;
- Covered containers for needles/probes and forceps/tweezers which containers are capable of being clean and sterilized;
- A sterilizer which shall be either an autoclave or a dry heat sterilizer, and color change indicators for use with either sterilizer. The endodontic dry heat "glass bead sterilizer" shall not be used for instrument sterilization; and
- Quarterly records of sterilizer biological test monitoring. *(not applicable on first inspection for licensure of a new facility – required for all future inspections after license is issued)*

C. Laser or Light Based-Only Hair Removal Facilities are required to have all supplies and equipment listed in Section A. above as well as the following.

- For Licensed Electrologists Who Completed a Council-approved Needle-Type Epilation Training Program, the following qualifying information pursuant to Rule 64B8-56.002, F.A.C.:**
 - Proof of certification of 30 hours of continuing education in laser and light-based hair removal and reduction from a provider approved pursuant to Rule 64B8-52.004, F.A.C. A list of approved providers may be found by using the "Course Search" function for Florida Electrologists at www.cebroker.com; and
 - Proof of having passed the Society for Clinical and Medical Hair Removal test for certification as a Certified Medical Electrologist.
- For Licensed Electrologists Who Completed a Council-approved Combined Needle-Type Epilation, Laser and Light-Based Hair Removal and Reduction Training Program, the following qualifying information pursuant to Rule 64B8-56.002, F.A.C.:**
 - Proof of completion of the combined training program; and
 - Proof of having passed the epilator, laser and light-based combined exam.
- For devices required to be registered, proof of registration for each laser or light-based device in use at the facility as required by Section 501.122, F.S.;
- Written designation of laser safety officer;
- A room or rooms specifically designated for use of the laser or light-based equipment which is where all use of such equipment shall take place;
- Sign on door of laser room identifying when laser or light-based equipment is in use;
- Lock on door of laser room;
- Protective eyewear capable of being cleaned and disinfected, shall be used by all persons in laser room during operation of laser or light-based equipment;
- Fire extinguisher in vicinity of laser room;
- Cold water and ice; and
- The written protocols required by paragraph 64B8-56.002(4)(a), F.A.C.

ELECTROLOGY FACILITY DOCUMENT REQUIREMENTS CHECKLIST – ALL FACILITY TYPES

The following requirements must be fulfilled by an electrology facility in order to pass inspection. Use this checklist to ensure compliance. See Rule 64B8-51.006(4), Florida Administrative Code, for more information.

NOTE: Compliance with these requirements will be verified by inspectors of the Department of Health PRIOR to initial license. Licenses will be issued upon notification to the council office of the facility passing inspection. No inspection will be passed and no license issued to any electrology facility that does not meet these requirements.

- The following documents shall be displayed in an area that is visible to the general public entering the facility:**
 1. The electrology facility license.
 2. The current license of the electrologist.
 3. The most recent inspection sheet from the Department of Health.
 4. A current copy of rule 64B8-51.006, F.A.C.
- An appointment book shall be maintained and kept on the electrology facility premise which lists the name of each person who has received electrolysis treatment. The appointment book shall be maintained for four (4) years. The appointment book may be an electronic record.

Important Notice: Once your facility license is issued under one modality (epilator or laser/light-based), to add or switch the modality of hair removal services being provided, you must submit the *Application for Inspection for Adding or Switching to a New Electrology Modality*, Form DH5008-MQA-09/2015. The facility must pass an inspection **prior to** implementing the new modality.
