Executive Summary

The Florida Department of Health conducted a strategic planning process during the summer of 2015 to define the direction of the agency for consumers, employees, administrators, and legislators for the next three years. This strategic plan will position the Department to operate as a sustainable integrated public health system under the current economic environment and to provide our residents and visitors with high quality public health services. This is a living document that we will evaluate and update regularly to address new challenges posed by the changing environment of public health in Florida.

After executive leadership approved the Agency Strategic Plan strategic priorities, goals and objectives, each objective was assigned to a division to implement and monitor. In turn, Medical Quality Assurance created its strategic plan that contains the objectives from the Agency Strategic Plan plus other goals, strategies and objectives that emerged as supporting the Department's strategic priorities from their environmental scan and SWOT analysis.

The Division of Medical Quality Assurance (MQA) approached the strategic planning process with a few guiding principles in mind:

- Preserving the health, safety, and welfare of the public.
- Identifying barriers to health care licensure.
- Facilitating efficient and cost-effective regulation.
- Creating a veteran-friendly regulatory licensure environment.

Mission – Why do we exist?

To protect, promote and improve the health of all people in Florida through integrated state, county, and community efforts.

Vision – What do we want to achieve?

To be the Healthiest State in the Nation.

Values – What do we use to achieve our mission and vision?

Innovation: We search for creative solutions and manage resources wisely.

Collaboration: We use teamwork to achieve common goals & solve problems.

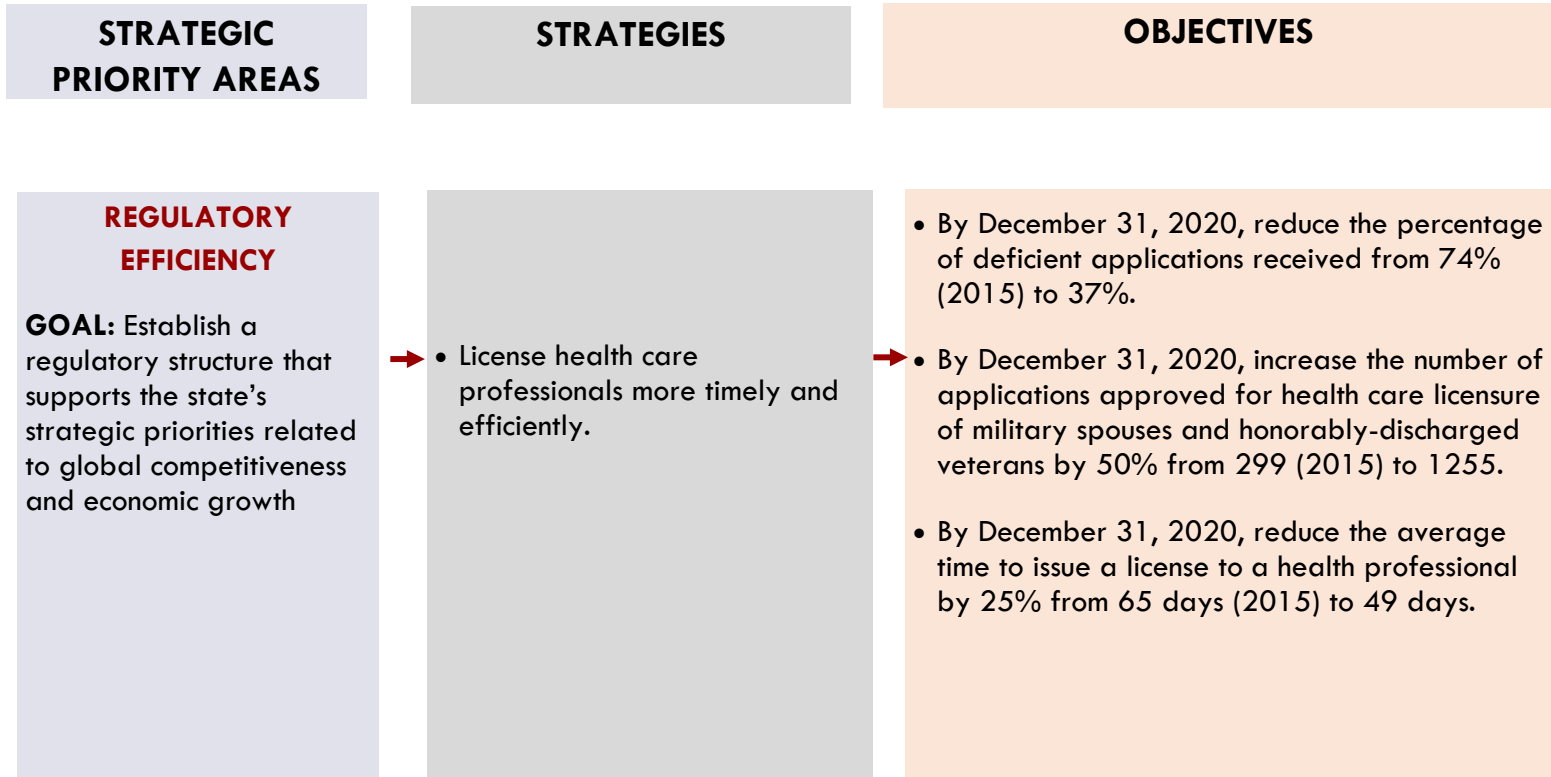

Accountability: We perform with integrity & respect.

Responsiveness: We achieve our mission by serving our customers & engaging our partners.

Excellence: We promote quality outcomes through learning & continuous performance improvement.

MQA is dedicated to the mission, vision, and values of the Department. Working in conjunction with 22 boards and four councils, we established the strategic priorities set forth in this plan beginning January 2016 through December 2018. Over the next three years, we will work diligently to accomplish these goals and further contribute to the Department's vision to be the healthiest state in the nation.

Appendix A

Division of Medical Quality Assurance (MQA) Strategic Planning Participants

The following list features all attendees of the division's strategic planning process meetings, including the MQA Strategic Planning Retreat held in August 2017. An internal workforce survey was disseminated to MQA employees on April 10, 2017, and an analysis report was completed in June 2017. The Board Chairs/Vice Chairs Annual Long-range Planning meeting initially scheduled for September 18, 2017 was postponed due to inclement weather from hurricane Irma. In October 2017, a Strengths, Weaknesses, Opportunities, and Threats (SWOT) survey was released to board members and professional associations. The results are shown in the 2017 Board Member SWOT Analysis report. The Board Chairs/Vice Chairs Annual Long-range Planning meeting was successfully held on April 23, 2018.

Planning Summary

MQA management team, made up of the division director, bureau chiefs and other key staff, oversaw the development of this strategic plan. MQA conducted many in-depth discussions to develop a strategic plan that promoted MQA's dedication to making Florida the healthiest state to live, work, practice, and retire. Prior to its first strategic planning meeting, a SWOT analysis was sent to MQA executive management and employees. The results (Appendix C) were analyzed to determine similarities and differences. Deficiencies were identified and addressed during a strategic planning retreat in which MQA management met with the division's Strategic Planning Unit to discuss best practices and solutions.

Another SWOT was developed and designed for MQA's executive management and board members to determine if the division's strategies and mission aligned with those of its health care boards. The division director presented the results of the survey at the Annual Board Chairs/Vice Chairs Long-range Planning meeting to executive management and board members. Meeting attendees took part in a facilitated discussion that included information management, communications, programs and services, budget (financial sustainability), and workforce development. Additionally, leadership staff conducted an environmental scan of the agency (sources listed in Appendix E). The scan results were reviewed and the progress of the current Department of Health Strategic Plan was analyzed to formulate additional strategies and objectives for each priority area. The revised proposal was then routed back to executive leadership for comments and approval.

The following is the strategic plan schedule of meetings:

Monitoring Summary

As depicted in the image below, strategic planning is a key component of the larger performance management system. This statewide performance management system is the cornerstone of the Department's organizational culture of accountability and performance excellence.

The Division of Medical Quality Assurance (MQA) leadership team is responsible for monitoring and reporting progress on the goals and objectives of this strategic plan. The team meets quarterly to discuss recommendations about tools and methods that integrate performance management into sustainable business practices. Annually, MQA's strategic plan progress report is developed and presented to executive leadership to assess progress toward reaching goals, objectives, and achievements for the year. The plan will be reviewed and revised by January each year, based on an assessment of availability of resources, data, and progress.

In turn, the objectives from the Agency Strategic Plan that are assigned to this division for implementation and quarterly reporting to *Florida Health Performs* will be reviewed by the Agency's Performance Management Council (PMC) Team on a quarterly basis for progress toward goals, and an annual progress report will also be developed. The PMC Team will revise the *Agency Strategic Plan* annually, based on their assessment of resources, data, and progress.
