### PLEASE RATE THE PRACTITIONER IN THE FOLLOWING AREAS

	Excellent	Good	Fair	Poor	Unable to evaluate
<b>Professional knowledge</b> - Practitioner is knowledgeable about their professional and how to provide services that fall within their professional purview to patients. This is evidenced by completion of educational and training requirements as well as on-the-job experience, in-service training, and continuing education.					
<b>Technical and clinical skills</b> - Skill involves the capacity to perform specific privileges/procedures. It is based on both knowledge and the ability to apply the knowledge.					
<b>Clinical judgment</b> - Clinical judgment refers to the observations, perceptions, impressions, recollections, intuitions, beliefs, feelings, inferences of providers. These clinical judgments are used to reach decisions, individually and/or collectively with other providers, about a patient's diagnosis and treatment.					
<b>Communication skills</b> - The provider should be able to communicate effectively and demonstrates caring, compassionate, and respectful behavior. This also includes effective listening skills, effective nonverbal communication, eliciting/providing information, and good writing skills					
<b>Interpersonal skills</b> - Areas of evaluation include how the provider works effectively with other professional associates, including those from other disciplines, to provide patient-focused care as a member of a healthcare team.					
<b>Professionalism</b> - Professionalism is demonstrated by respect, compassion, and integrity. It means being responsive and accountable to the needs of the patient, their family and the community. It means being committed to providing high-quality patient care and continuous professional development as well as being ethical in issues related to clinical care, patient confidentiality, informed consent, and business practices.
