Lined area for recording health information.

NARRATIVE RECORD

Notations by registered nurses, delegated staff, unlicensed assistive personnel and educators should be dated and signed. The narrative record should include information concerning abnormal screening results, referrals and outcomes; nursing assessments; teacher observations; parent conferences; Section 504 of the American's with Disabilities Act or Individuals with Disabilities Education Act (IDEA) accommodations; and home visitation notes. Health services provided should be documented in the clinic log and individualized treatment and/or medication administration record (written or computerized). Educators need only record information concerning teacher observations and educational decisions made for students in the classroom, bus or other school sponsored activities, and other health information.

Table with 3 columns: Date, Notes, Signature. Multiple empty rows for data entry.
