

**EIGHTH ON-SITE CORRECTIVE ACTION PLAN  
ASSESSMENT**

of

**SUWANNEE CORRECTIONAL INSTITUTION**

for the

Physical and Mental Health Survey  
Conducted August 28-29, 2013

**CMA STAFF**

Jane Holmes-Cain, LCSW  
Lynne Babchuck, LCSW

CAP Assessment Distributed on July 26, 2016

## **CAP Assessment of Suwannee Correctional Institution**

### **I. Overview**

On August 28-29, 2013, the Correctional Medical Authority (CMA) conducted an on-site physical and mental health survey of Suwannee Correctional Institution (SUWCI). The survey report was distributed on September 23, 2013. In November 2013, SUWCI submitted and the CMA approved, the institutional corrective action plan (CAP) which outlined the efforts to be undertaken to address the findings of the August 2013 survey. These efforts included in-service training, physical plant improvements, and the monitoring of applicable medical records for a period of no less than ninety days.

On March 27, 2014, CMA staff conducted an on-site CAP assessment to evaluate the effectiveness of corrective actions taken by institutional staff to address the findings of the August 2013 survey. The CAP closure files revealed sufficient evidence to determine that on the Main Unit, all physical health findings and 7 of 19 mental health findings were corrected. Additionally, the CAP closure files revealed sufficient evidence to determine that 14 of 25 physical health findings and 5 of 19 mental health findings could be closed on the Annex.

On July 31, 2014 CMA staff conducted a second on-site CAP assessment to evaluate the effectiveness of corrective actions taken by institutional staff to address the remaining findings. The CAP closure files revealed sufficient evidence to determine that on the Main Unit, 5 of 12 mental health findings were corrected. Additionally, the CAP closure files revealed sufficient evidence to determine that 3 of 11 physical health findings and 9 of 14 mental health findings could be closed on the Annex. Lastly, one physical health CAP finding was added for monitoring and corrective action.

On November 19, 2014 CMA conducted a third on-site CAP assessment to evaluate the effectiveness of corrective actions taken by institutional staff to address the remaining findings. The CAP closure files revealed sufficient evidence to determine that on the Main Unit, 2 of 7 mental health items were corrected. Additionally, the CAP closure files revealed sufficient evidence to determine that 1 of 9 physical health findings and 5 of 5 mental health findings were corrected on the Annex.

On April 22, 2015 CMA staff conducted a fourth on-site assessment to evaluate the effectiveness of corrective actions taken by institutional staff to address the remaining findings. The CAP closure files revealed sufficient evidence to determine that 2 of 5 mental health findings on the Main Unit and 7 of 8 physical health findings on the Annex and were corrected.

On July 29, 2015 CMA staff conducted a fifth on-site assessment to evaluate the effectiveness of corrective actions taken by institutional staff to address the remaining findings. The CAP closure files revealed sufficient evidence to determine that 2 of 3 mental health findings on the Main Unit and 0 of 1 physical health findings on the Annex were corrected. Lastly, two mental health findings were added for in-service training, monitoring, and corrective action.

On December 3, 2015 CMA staff conducted a sixth on-site assessment to evaluate the effectiveness of corrective actions taken by institutional staff to address the remaining findings. The CAP closure files revealed sufficient evidence to determine that 1 of 3 mental

health findings on the Main Unit and 0 of 1 physical health findings on the Annex were corrected. Lastly, three mental health findings were added for in-service training, monitoring, and corrective action.

On March 31, 2016, CMA staff conducted a seventh on-site assessment to evaluate the effectiveness of corrective actions taken by institutional staff to address the remaining findings. The CAP closure files revealed sufficient evidence to determine that 2 of 5 physical health findings on the Main Unit and 0 of 1 physical health findings on the Annex were corrected.

On July 22, 2016, CMA staff conducted an eighth on-site CAP assessment to evaluate the effectiveness of corrective actions taken by institutional staff to address the remaining findings. Items II and III below describe the outcome of the CMA's evaluation of the institution's efforts to address the survey findings.

## II. Physical Health Assessment Summary

### A. Main Unit

All physical health findings were closed during the first on-site CAP assessment.

### B. Annex

The CAP closure files revealed sufficient evidence to determine that 0 of the 1 physical health findings were corrected. One physical health finding will remain open.

Finding	CAP Evaluation Outcome
<p><b><u>CHRONIC ILLNESS CLINIC RECORD REVIEW</u></b></p> <p><b>CF-1: In 8 of 22 records reviewed, follow-up chronic illness clinic visits were not completed as required.</b></p>	<p><b>CF-1 OPEN</b></p> <p>Adequate evidence of in-service training was provided, however institutional monitoring indicated that an acceptable level of compliance had not been reached; therefore CF-1 will remain open.</p>

## III. Mental Health Assessment Summary

### A. Main Unit

The CAP closure files revealed sufficient evidence to determine that 0 of 5 mental health findings were corrected. Five physical health findings remain open.

.Finding	CAP Evaluation Outcome
<p><b><u>INPATIENT MENTAL HEALTH SERVICES</u></b></p> <p><b>CF-2: In 4 of 5 records reviewed, there was no weekly SOAP note contained in the medical record which reflected the patient's participation in group activities.</b></p>	<p><b>CF-2 OPEN</b></p> <p>Adequate evidence of in-service training was provided, however a review of randomly selected records indicated that an acceptable level of compliance had not been reached; therefore CF-2 will remain open.</p>

Finding	CAP Evaluation Outcome
<p><b><u>INPATIENT MENTAL HEALTH SERVICES</u></b></p> <p><b>CF-4: In 6 of 6 inpatient records reviewed, there was no indication that the Multi-Disciplinary Service Team (MDST) met and reviewed behavioral levels as required.</b></p>	<p><b>CF-4 OPEN</b></p> <p>Adequate evidence of in-service training was provided, however a review of randomly selected records indicated that an acceptable level of compliance had not been reached; therefore CF-4 will remain open.</p>

Finding	CAP Evaluation Outcome
<p><b><u>INPATIENT MENTAL HEALTH SERVICES</u></b></p> <p><b>CF-5: In 6 of 6 inpatient records reviewed, the Risk Assessment for Violence (RAT) was not completed at the required intervals.</b></p>	<p><b>CF-5 OPEN</b></p> <p>Adequate evidence of in-service training was provided, however a review of randomly selected records indicated that an acceptable level of compliance had not been reached; therefore CF-5 will remain open.</p>

Finding	CAP Evaluation Outcome
<p><b><u>SELF-HARM OBSERVATION STATUS (SHOS) RECORD REVIEW</u></b></p> <p><b>CF-7: In 5 of 5 outpatient records reviewed, there was no evidence of appropriate mental health follow-up after discharge from SHOS.</b></p>	<p><b>CF-7 OPEN</b></p> <p>Adequate evidence of in-service training was provided, however a review of randomly selected records indicated that an acceptable level of compliance had not been reached; therefore CF-7 will remain open.</p>

Finding	CAP Evaluation Outcome
<p><b><u>INPATIENT MENTAL HEALTH SERVICES</u></b></p> <p><b>CF-8: In 6 of 6 inpatient records reviewed, there was no evidence that inmates were offered the required hours of planned structured therapeutic services.</b></p>	<p><b>CF-8 OPEN</b></p> <p>Adequate evidence of in-service training was provided, however a review of randomly selected records indicated that an acceptable level of compliance had not been reached; therefore CF-8 will remain open.</p>

**B. Annex**

All mental health findings were closed on the third on-site CAP assessment.

**IV. Conclusion**

**Physical Health-Main Unit**

All physical health portions are closed.

**Physical Health-Annex**

One physical health finding will remain open.

**Mental Health-Main Unit**

Five physical health findings remain open.

**Mental Health-Annex**

All mental health portions are closed.

Until such time as appropriate corrective actions are undertaken by SUWCI staff and the results of those corrections reviewed by the CMA, this CAP will remain open. As some of the necessary steps to correct findings require further institutional monitoring, closure may take as long as three months. Follow-up assessment by the CMA will most likely take place through an on-site evaluation.
