Easy ways to eat more fruits and vegetables.

Eating your fruits and vegetables is a lot easier than you might think. One cup-equivalent of most fruits and vegetables is the amount that would fit in a measuring cup if chopped, or about 2 handfuls. The exceptions are raw leafy greens (2 cups count as 1 cup) or dried fruit (½ cup counts as 1 cup).

The following examples count as 1 cup:

- 1 small apple
- 1 large banana
- 2 medium cantaloupe wedges
- 1 medium grapefruit
- 1 large orange
- 1 large peach
- 1 medium pear
- 2 large or 3 small plums
- 8 large strawberries
- 1 small watermelon wedge
- 2 small boxes of raisins or other dried fruit
- 3 spears of broccoli
- 1 cup of cooked greens or 2 cups raw (spinach, collards, mustard greens, turnip greens)
- 2 medium carrots or 12 baby carrots
- 1 large sweet potato
- 1 large ear of corn
- 1 medium potato
- 2 large stalks of celery
- 1 large bell pepper
- 1 large tomato
- ½ can of beans

For example, a 35 year-old fairly active woman would need 4 ½ cups per day. The chart below shows what 4 ½ cups might look like.

<table>
<thead>
<tr>
<th>MORNING</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>1 large banana</td>
<td>1 cup</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>MID-DAY</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>2 cups of lettuce count as 1 cup of vegetables</td>
<td>1 small apple</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>EVENING</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>½ cup broccoli</td>
<td>1 cup sweet potato</td>
</tr>
</tbody>
</table>

Fruits and vegetables are only one component of a healthy diet. In addition to fruits and vegetables, a healthy diet also includes whole grains, fat-free or low-fat milk products, lean meats, fish, beans, eggs, and nuts. It is also low in saturated fats, trans fats, cholesterol, salt, and added sugars.
