

**Local Public Health System Assessment using the National Public Health Performance Standards
Convener:**

EPHS # 1 Monitor Health Status to Identify Community Health Problems

Facilitator:

Recorder:

| | |
|--|--|
| Essential Service #1, Indicator 1.1: Population-based Community Health Profile (CHP) | |
| The community health profile is a common set of measures for the community to prioritize the health issues that will be addressed through strategic planning and action, to allocate and align resources, and to monitor population-based health status improvement over time. | |
| General Discussion about Model Standard | |

| | |
| | |
| Discussion Around Specific Measures | |
| <i>Speaker</i> | <i>Comment</i> |
| Measure 1.1.1 | Has the LPHS conducted a community health assessment? |
| | |
| | |
| Measure 1.1.2 | Does the LPHS compile data from the community health assessment into a community health profile? |
| | |
| | |
| Measure 1.1.3 | Is community-wide use of community health assessment or CHP data promoted? |
| | |
| | |
| Essential Service #1, Indicator 1.2: Current Technology to Manage and Communicate Population Health Data | |
| Population health data are presented in formats that allow for clear communication and interpretation by end users. Such formats include graphed trend data that allow for comparisons over time by relevant variables such as gender, race, and geographic designation. | |

| | |
| | |
| | |
| Discussion Around Specific Measures | |
| <i>Speaker</i> | <i>Comment</i> |
| Measure 1.2.1 | Does LPHS use state-of-the-art technology to support health profile databases? |
| | |
| | |
| Measure 1.2.2 | Does the LPHS have access to geocoded health data? |

| | |
|--|--|
| | |
| Measure 1.2.3 | Does the LPHS use computer-generated graphics to identify trends and/or compare data by relevant categories (i.e., gender, race, age group)? |
| | |
| Essential Service #1, Indicator 1.3: Maintenance of Population Health Registries | |
| Population health registries track health-related events such as disease patterns and preventive health services delivery (i.e., cancer registries facilitate tracking of cancer incidence, cancer stage at diagnosis, treatment patterns, and survival probability; vaccine registries provide the real time status of vaccine coverage for specified age groups in the community). The LPHS creates and supports systems to assure accurate and timely reporting by providers. | |
| General Discussion about Model Standard | |
| <i>Speaker</i> | <i>Comment</i> |
| | |
| | |
| | |
| Discussion Around Specific Measures | |
| <i>Speaker</i> | <i>Comment</i> |
| Measure 1.3.1 | Does the LPHS maintain and/or contribute to one or more population health registries? |
| | |
| Measure 1.3.2 | In the past year, has the LPHS used information from one or more population health registries? |
| | |
| | |
