## **INTRODUCTION**

The Mission of the Florida Department of Health in Broward County (DOH-Broward) is “to protect, promote and improve the health of all people in Florida through integrated state, county and community efforts”. In accordance with this mission, DOH-Broward engaged the Broward County community in the Mobilizing for Action through Planning and Partnerships (MAPP) process in 2012 and in 2016. MAPP is a strategic approach to community health improvement and assists communities to improve health and quality of life through community-wide strategic planning. MAPP includes four separate assessments: Community Health Status, Community Themes and Strengths, Local Public Health System, and the Forces of Change.

Broward County has a long history of collaboratively planning across multiple state, county, and local entities from the public and private sectors to ensure the highest quality of care that also reduce redundancies and duplication within the system of care. DOH-Broward utilized this existing community-based planning structure to assist in the development of the Community Health Assessment. The following agencies participated in this process:

### Key Partners:

- Agency for Health Care Administration
- Aging and Disability Resource Center of Broward County
- Alliance for a Healthier Generation
- American Heart Association
- American Lung Association
- AT&T
- Audacious Inquiry
- BAND
- Baptist Health Systems
- BCHPPC Perinatal HIV Workgroup
- Berger Singerman
- Brazilian Faith Based
- Brickell Bay Realty Group
- Broward Behavioral Health Coalition
- Broward College
- Broward County Comprehensive School Health Advisory Committee
- Broward County Government
- Broward County Medical Association
- Broward County Municipalities
- Broward County Public Elementary Schools
- Broward County Public Schools
- Broward County Sheriff's Office
- Broward Health
- Broward Health Coral Springs
- Broward Health Imperial Point
- Broward Health Medical Center
- Broward Healthy Start Coalition

## **METHODOLOGY**

***The Local Public Health System Assessment*** (LPHSA) was conducted in the spring of 2016 using The National Public Health Performance Standards Program (NPHPSP). These assessments are intended to help users answer questions such as "What are the activities and capacities of our public health system?" and "How well are we providing the Essential Public Health Services in our jurisdiction?" The dialogue that occurs while answering these questions may help identify strengths and opportunities for improvement. Forty-eight organizations completed the online performance rating survey. The Healthcare Access Committee members completed the priority rating questionnaire and Florida Department of Health leadership completed the agency contribution section. The three components were compiled to develop the 10 Essential Public Health Services summary. The summary includes an average overall score of 69.9, with Evaluate Services scoring 86.7 and Link to Health Services 81.3. Areas scoring the lowest average scores included Research/Innovation (50.0), Diagnose and Investigate (63.2) and Enforce Laws (63.8).

***The Forces of Change Assessment*** consisted of five community focus groups, three provider focus groups and fifteen key informant interviews. Major findings were grouped into five priority areas: Preventive Care/Chronic Conditions and Management, Community Health Education and Diversity, Maternal Child Health/Prenatal Care, Access to Care and Quality of Care.

***The Community Themes and Strengths Assessment*** utilized the 2015 Community Health Needs Assessment developed by Professional Research Consultants, Inc. The Community Health Needs Assessment is a continuation of nine similar studies conducted since 1994 and is a systematic, data driven approach to determining the health status, behaviors and needs of residents in Broward County, Florida. The Assessment serves as a tool toward reaching three basic goals: to improve resident's health status, increase their life span, and elevate their overall quality of life; to reduce health disparities; and, to increase access to preventive services. A random sample of 412 Broward County residents participated in the 2015 assessment of quality of life including a health assessment.

***The Community Health Status Assessment*** was prepared in late 2015 and early 2016. The assessment presented data on Population and Socio-Economic Characteristics, Quality of Life, Health Care Resources, Health Status, Risk Youth Behavior Survey findings, Death Indicators, Communicable Diseases, Maternal and Child Health, Vaccine-Preventable Disease and Environmental Health.

## **ISSUE SYNTHESIS AND PRIORITIZATION**

An analysis of the four MAPP assessments identified ten health related challenges in Broward County that were identified in two or more of the four assessments and were validated in the Community Health Status Assessment.

The challenges were then categorized into four broad categories each containing the ten identified health challenges.

The Community Health Assessment provided a peer comparison group selected based on the closeness of the match between select counties and socio-demographic indicators for Broward County. Broward County's peer group is composed of the following Florida counties: Hillsborough, Miami-Dade, Orange and Palm Beach. Data for each of the nine identified health challenges were then compared to the peer group average and the state average value. In addition, the Healthy People 2020 goal and indicator were included for each identified challenge. Healthy People 2020 tracks approximately 1,200 objectives organized into 42 topic areas, each of which represents an important public health subject area.

The Health Care Access Committee was established as a committee of the Coordinating Council of Broward. The purpose of the committee is to improve access to health care for the residents of Broward County, through the establishment of outcomes and indicators, which have been and will continue to be implemented and measured throughout the next several years ([www.brhpc.org/benchmarks](http://www.brhpc.org/benchmarks)). The members of the committee represent various facilities, agencies and/or departments within the county. This past year the committee has updated both the Broward Benchmarks and the Health section of the Children's Strategic Plan. The committee continues to set goals for Broward County in many areas of health including but not limited to maternal and child health, mental health, health care access, primary care and dental care. The committee also spent time looking at enrollment in Medicaid and other programs to assure Broward County is working to enroll all those eligible.

The Health Care Access Committee meets monthly and agreed to provide input and oversight to the Community Health Assessment and Community Health Improvement Plans in 2013.

The Health Care Access Committee reviewed and approved the Community Health Assessment at its August 22, 2016 meeting. The Community Health Assessment was made available for public review and comment on the DOH-Broward website. Once the comment period closed, subject matter experts were convened to develop the Community Health Improvement Plan strategies, target dates, available resources and responsible parties for each priority area.

The Health Care Access Committee reviewed and approved the Community Health Improvement Plan at its September 26, 2016 meeting and will provide oversight for its implementation. The Community Health Improvement Plan was made available for public review and comment on the DOH-Broward website.

In the fall of 2017, the Health Care Access committee agreed to update the 2016 Community Health Improvement Plan to move from a fiscal year (July 1 – June 30) to calendar year and to update the implementation plan to include more clearly defined targets and activities.

**Broward County Community Health Improvement Plan Progress Reporting Tool**

<b>Strategic Issue Area: Health Care Access</b>								
<b>Goal: Increase access to health care</b>								
<b>Strategy: Promote the Florida Kid care Program</b>								
<b>Objective 1.1: Increase the percentage of children ages 0-18 years with health insurance to 95% by December 2020</b>								
Indicators	Baseline	Direction of Change	Unit of Measurement	Actual Annual Measure	Annual Target	3yr/5yr Plan Target	Data Source	Measure Notes
Percent of children age 0-18 with Health Insurance	92.9% C/Y '15	Increase	% of	0	93.3%	95%	American Community Survey	

<b>Activity 1.1.1</b>				
Description	Person Responsible	Anticipated Completion Date	Status	Activity Progress Notes
Provide culturally and linguistically education, training, outreach and application assistance to communities with children who have low insurance enrollment.	Kid Care Program Manager	December, 2020	On Schedule	

<b>Actions</b>					
Description	Action Status	Deliverables/Outputs of Action	Key Partners/Contractors/Consultant	Actual Start Date	Finish/End Date
1.1.1.1 Perform a minimum of 45 public education/training sessions per year.		# of trainings conducted	KidCare	January 1, 2018	December 31, 2018
1.1.1.2 Distribute information on Kid Care to 4000 Broward County families.		# of families supplied with collateral materials on Kid Care	KidCare	January 1, 2018	December 31, 2018
1.1.1.3 Distribute Kid Care marketing materials to 250 family serving agencies.		# of family services agencies reached	KidCare	January 1, 2018	December 31, 2018
1.1.1.4 Chair and organize a minimum of six advisory committee meetings.		# meetings conducted	KidCare;Advisory Council members.	January 1, 2018	December 31, 2018
1.1.1.5 Provide on-site Florida Kid care outreach activities at 45 events.		# of events hosted/attended by the Kid Care staff	KidCare	January 1, 2018	December 31, 2018
1.1.1.6 Distribute information on Kid Care to 250 Broward County Public Schools.		# of schools reached	KidCare	January 1, 2018	December 31, 2018
1.1.1.7 Promote the Kid Care program through 4 media contacts.		# of media contacts	KidCare,Media partners	January 1, 2018	December 31, 2018
1.1.1.8 Submit 625 online applications on behalf of Broward County Residents.		# of children served	Kid Care	January 1, 2018	December 31, 2018
