# Introduction

The Hendry County Community Health Improvement Plan (CHIP) Annual Report presents a summary of the progress made in 2019 toward the objectives in the 2017-2019 CHIP. The CHIP priorities and objectives are set collaboratively by the Florida Department of Health in Hendry County and numerous community organizations that work together to accomplish them. This report provides a listing and status of the goals and objectives that were implemented during 2019, and a summary of the final results from this three-year CHIP cycle. While the CHIP is a community-driven and collectively owned health improvement plan, the Florida Department of Health in Hendry & Glades Counties (DOH-Hendry/Glades) is charged with providing administrative support, tracking and collecting data, and reporting results to the community.

The community members of Hendry & Glades combined both counties into one Community Health Improvement Plan 2019-2023 because of the size of Glades County. Glades County makes up 0.1% of Florida's population.

# Overview of CHIP and Annual Review Meeting

In January of 2019, the Department of Health in Hendry & Glades Counties convened the CHIP Planning Team. The Planning Team facilitated the CHIP process by using the National Association of City and County Health Officials’ Mobilizing for Action through Planning and Partnership (MAPP) strategic planning model. Subject matter experts from a diverse group of partner organizations conducted the four assessments outlined in the MAPP process. Individually, the assessment yielded in-depth analyses of factors and forces that impact population health. Taken together, the assessment findings contribute to a comprehensive view of health and quality of life in Hendry & Glades Counties.

The Planning Team developed findings and presented these findings to the Healthier Hendry Glades Task Force. The Healthier Hendry Glades Task Force comprised a diverse leadership group representing 17 agencies and organizations in Hendry & Glades Counties. The Healthier Hendry Glades Task Force set priorities through a facilitated consensus process by looking for cross-cutting strategic issues that emerged from the four assessments. The Healthier Hendry Glades Task Force reached consensus on two strategic issue areas: Mental Health and Child Safety. Please refer to the table below for strategic issue areas and goals developed by a workgroup of subject matter experts.

Strategic Issue Area	Goal
<b>Mental Health</b>	1. Increase Awareness and Usage of Mental Health Resources
<b>Child Safety</b>	1. Reduce infant mortality and childhood trauma; reduce rate of hospitalizations and fatalities for children for 0-19 for unintentional injuries.

# 2019 Progress and 2020 Revisions

## Strategic Issue Area #1: Mental Health

Mental Health was ranked as a top priority in Hendry and Glades Counties. Community members felt pressing health issue for Hendry and Glades Counties. The limited mental health services in the county was the most concerned and felt it should be a strategic issue area to address.

### Goal 1: Increase Awareness and Usage of Mental Health Resources

**Key Community Partners:** Michael Giebelhouse - Center Stone, Lisa Sands - United Way

### Progress in 2019

1 By December 31, 2024, have three Mental Health First Aid Trainings conducted in Hendry and Glades Counties on an annual basis.

1.1 By December 31<sup>st</sup>, 2020 committee will create a tentative schedule and tentative hosts trainings.

- The first MHFA training was held at the Hendry County Emergency Operations Center on Wednesday, March 4, 2020. The class was fully booked at 30 people. Trainers included Loreena and Richard from Golisano Children’s Hospital and Edwin Melendez from the Florida Department of Health in Hendry and Glades Counties.
- We are working with Pastor McEnzie locally to plan for another training. We are in the process of developing a tentative schedule for the rest of the year. Additionally, Edwin is beginning his certification to teach the course in Spanish as another option for those looking to take the course.
- Golisano Children’s Hospital is willing to do another training.

2 Through December 31, 2024 attend community outreach events quarterly to educate members of the community about mental health.

2.1. Attend one community outreach event per quarter.

- Lisa Sands from United Way attended the NOVA Health Fair in Clewiston 2/29/2020 and promoted the resource guide of services available locally to residents.
- Drug Free Hendry County attended Night on the Town and promoted the resource guide of services available locally to residents.
- Drug Free Hendry County attended Hendry County Fair and Livestock Show and promoted the resource guide of services available locally to residents.

- 2.1.1. By June 30, 2020, create a unified marketing strategy that members of the task force use to educate the community about mental health.
  - In progress
- 3 By June 1, 2020, develop a resource guide for mental health providers and services in Hendry and Glades Counties.
  - 3.1. Establish resource guide for all mental health services.
    - Completed- updated as needed.
  - 3.1.1. By December 1, 2019, committee will create plan and schedule for creation of resource guide.
    - Completed. Flyer is distributed at businesses and organizations throughout the community for people to take as needed. Additionally, all local schools have the flyer posted. We use the flyer at outreach events to promote the use of local services.

### **How Targets Were Monitored**

An implementation plan template was given by the state for tracking actions. This tracking plan along with documentation spreadsheets and quarterly progress will be used to monitor and inform the CHIP committee and DOH-Hendry/Glades staff of the progress made on each objective for the upcoming year. Progress is also discussed at quarterly Healthier Hendry Glades Task Force Meeting and is a standing agenda item to keep track.

# 2019 Progress and 2020 Revisions

## Strategic Issue Area #2: Child Safety

Child safety was also ranked as one of the top priorities in Hendry and Glades Counties. Community members felt that the need to reduce the childhood trauma and infant mortality can be addressed through education to parents and develop a plan to increase awareness about Adverse Childhood Experiences (ACEs).

**Goal 1:** Reduce infant mortality and childhood trauma; reduce rate of hospitalizations and fatalities for children for 0-19 for unintentional injuries

**Objective 1:** Increase community education on child safety topics (child passenger safety, ATV, safe sleep, poison, and drowning, etc.).

**Objective 2:** By March 30, 2020 develop a plan to decrease childhood exposure to smoking and prenatal smoking.

**Objective 3:** By June 30, 2024 develop plan to increase awareness about Adverse Childhood Experiences (ACEs).

**Key Community Partners:** Traci Thomas, Florida Community Health Centers, Sally Kreuzscher, Golisano Children’s Hospital

2019 Performance

### Progress in 2019

1 Increase community education on child safety topics (child passenger safety, ATV, safe sleep, poison, and drowning, etc.).

1.2 By June 30, 2020 create unified message that members of the task force can use to educate the community about the importance of child safety.

- In progress – planning process to begin at next conference/skype meeting with community
- Sally from Golisano Children’s Hospital did a presentation on ATV safety at the Community Collaboration Meeting

1.3 Through December 31, 2021, participate in at least one community outreach event per quarter.

- Cyndi Adame attended the NOVA Health Fair in Clewiston 2/29/2020.
- Healthy Families/Healthy Start attended Night on the Town

2 By December 31, 2020 develop a plan to decrease childhood exposure to smoking and prenatal smoking.

- In progress - planning in process to begin at next conference/skype meeting with community

3 By March 30, 2020 develop plan to increase awareness about Adverse Childhood Experiences (ACEs).

- Presentation by Dr. Pepe on ACEs at the Mental Health Forum on February 27<sup>th</sup>.

### **How Targets Were Monitored**

An implementation plan template was given by the state for tracking actions. This tracking plan along with documentation spreadsheets and quarterly progress will be used to monitor and inform the CHIP committee and DOH-Hendry/Glades staff of the progress made on each objective for the upcoming year. Progress is also discussed at quarterly Healthier Hendry Glades Task Force Meeting and is a standing agenda item to keep track.

# Trend and Status Descriptions

## \*Trend Descriptions:

-  = Data trend is upward and in the desired direction for progress
-  = Data trend is downward and in the desired direction for progress
-  = Data trend is upward and in the undesired direction for progress
-  = Data trend is downward and in the undesired direction for progress

## \*\*Status Descriptions:

- **On Track** = Objective progress is exceeding expectations or is performing as expected at this point in time
- **Not on Track** = Objective progress is below expectations at this point in time
- **Decision Required** = Objective is at risk of not completing/meeting goal. Management decision is required on mitigation/next steps.
- **Completed** = Objective has been completed or has been met and the target date has passed
- **Not Completed** = Objective has not been completed or has not been met and the target date has passed

# Accomplishments

Goal	Objective	Accomplishment
Increase Awareness and Usage of Mental Health Resources	By December 31, 2024, have three Mental Health First Aid trainings conducted in Hendry and Glades Counties on an annual basis	Community partners were able to have 40 people trained and certified for Youth Mental Health First Aid.
<b>Why This Accomplishment is Important for Our Community</b>		
<p>The first Youth Mental Health First Aid Training was a complete success. Thanks to Golisano Children’s hospital funding the fully booked class, we were able to get 40 people trained and certified in Youth Mental Health First Aid at no cost to each trainee. Due to the success of the training and how many people enjoyed it, we have even had a local pastor reach out to us about his congregation wanting to fund the next training so that we are able to get more people certified. A waiting list for the next training has already started and we are hoping to get another training scheduled on the books after COVID-19 settles. Also, the trainer from Golisano Children’s Hospital has showed interest in our local trainer becoming trained to teach the course in Spanish also. Once our trainer takes the certification for the Spanish course, he will be able to offer Youth Mental Health First Aid locally in both English and Spanish!</p>		

Goal	Objective	Accomplishment
Reduce infant mortality and childhood trauma; reduce rate of hospitalizations and fatalities for children for 0-19 for unintentional injuries	Increase community education on child safety topics (child passenger safety, ATV, safe sleep, poison, and drowning, etc.).	A successful community education was established early March for Child Safety.
<b>Why This Accomplishment is Important for Our Community</b>		
<p>Sally Kreuzer from Lee Health conducted a presentation at the Healthier Hendry Glades Task Force meeting on March 6, 2020. Sally was able to present on Child ATV safety to our group using a fully robotic life-size ATV representing the correct size for a 9-year-old boy. The robotic ATV is the first in the state and we were lucky enough to witness it firsthand. An accomplishment of this meeting as that we are now able to schedule Sally to attend events/presentations throughout our community to educate on ATV safety for those of all ages</p>		

# Conclusion

The CHIP serves as a roadmap for a continuous health improvement process for Department of Health in Hendry & Glades Counties by providing a framework for the chosen strategic issue areas. It is not intended to be an exhaustive and static document. We will evaluate progress on an ongoing basis through quarterly CHIP implementation reports and quarterly discussion by community partners. We will conduct annual reviews and revisions based on input from partners and create CHIP annual reports by February of each year. The CHIP will continue to change and evolve over time as new information and insight emerge at the local, state and national levels. This report summarizes the progress made in 2019 toward the objectives in the 2019-2024 CHIP and presents the results of each objective over the five-year cycle. These results demonstrate that by working together, we can have an impact on improving community health and making Hendry & Glades Counties the healthiest counties in the nation to live, learn, work, and play.

By working together, we can have a significant impact on the community's health by improving where we live, work and play. These efforts will allow us to realize the vision of a healthier Hendry & Glades Counties.

Appendix D: Comprehensive List of Community Partners

**Community and Partner Engagement**

**Healthier Hendry Glades Task Force Members**

Hendry and Glades Counties' CHIP process engaged a large group of community residents and local public health system stakeholders. Specifically, there were community stakeholders representing hospitals, healthcare providers, social service organizations, and community members.

Listed below are the individuals who worked on the improvement plan as a member of the Healthier Hendry Glades Task Force.

United Way of Hendry/Glades  
Lisa Sands

Area Agency on Aging for Southwest Florida  
Sherry Young

LaBelle Outreach Center  
Mirna Velasquez  
Joel Conner  
Maria Dominquez

Lake Okeechobee Rural Health Network  
Tiffany Parrish
