## Introduction

---

This is the 2016 annual review report for 2016-2021 Holmes County Community Health Improvement Plan (CHIP). The activities and collaborative efforts of the Florida Department of Health in Holmes County and community partners will be reflected within the report. This document will serve as a progress review of the strategies that were developed and the activities as they are implemented. While the CHIP is a community driven and collectively owned health improvement plan, the Florida Department of Health in Holmes County is charged with providing administrative support, tracking and collecting data, and preparing the annual review report.

The health status of a community plays a large role in social and economic prosperity, hence it is important that a community strives to continually improve and maintain its health. Government agencies (city, county, state) may provide health services; however, successful health programs require an active partnership between all community agencies. Community health improvement planning is a long-term, systematic effort that addresses health problems on the basis of the results of community health assessment activities and the community health improvement process. The resulting Community Health Improvement Plan is used by health and other government, educational and human service agencies, in collaboration with community partners, to set priorities and coordinate and target resources. A CHIP is critical for developing policies and defining actions to target efforts that promote health. It defines the vision for the health of the community through a collaborative process and addresses the strengths, weaknesses, challenges, and opportunities that exist in the community in order to improve the health status of that community.

Some major findings from the Holmes **Community Health Status Assessment** included:

- 53.5% of the county residents are male and 46.5% are female.
- 23.6% of the total population has a disability, compared with 13% of Floridians.
- The mean household income in Holmes County is \$46,000.00. The median household income in Holmes is \$36,236.00.
- Approximately 19% of families and 27% of all people had income below poverty level in the past 12 months in Holmes County.
- Greater proportion of the population is in the 60-70 age range and a smaller proportion in the 10-14 age range
- There are seven (7) public schools and one (1) private school in the Holmes County School District.
- 30.7% of the population is considered obese and 33.2% is considered overweight
- 62.0% percent of the population is considered inactive or does not meet recommended physical activity recommendations

In January 2016, Community Health Improvement Team members met to develop the **Community Health Improvement Plan**, which involved creating an action plan that focused on

program planning, implementation, and evaluation. Healthy lifestyle and chronic disease prevention

To select health priorities, the HHTF reviewed key findings from the four MAPP assessments in a January 2016 meeting. The HHTF discussed quantitative data (e.g., disease mortality rates, health behaviors, factors in the physical environment, quality of life indicators) and the top health issues identified through focus groups and community surveys. Then, attendees provided feedback by answering the following question via an electronic polling system: “Of all the issues discussed today, which do you think is the most important?”

At the meeting attendees voted for the following priority issues to be addressed and targeted for improvement in the CHIP:

1. Healthy Lifestyle/Prevention (including Obesity, Poor Nutrition/Unhealthy Eating, and Tobacco Use)
2. Behavioral Health (including Substance Abuse, Mental Health, and Domestic Violence)
3. Chronic Disease Prevention (including Diabetes, High Blood Pressure, and Heart Disease)

As an overview, the Healthy Holmes Task Force in conjunction with the Health Planning Council of Northeast Florida has worked to complete the CHA and CHIP for Holmes County. The new CHIP was completed April 2016. The community partnership has met quarterly, and monthly at times throughout the process. Upon completion of the CHIP, the task force worked to establish action plans to address the needs identified in the CHIP. The annual review took place August 18, 2016. This document highlights the work of the partnership and their accomplishments.

## **Overview of the Community Health Improvement Plan (CHIP)**

---

In January 2016, the Department of Health in Holmes County convened the CHIP Planning Team. The Planning Team facilitated the CHIP process through using the National Association of City and County Health Officials' Mobilizing for Action through Planning and Partnership (MAPP) strategic planning model. Subject matter experts from across a diverse group of partners conducted the four assessments suggested by the MAPP process. Individually, the assessment yielded in-depth analyses of factors and forces that impact population health. Taken together, the assessment findings contribute to a comprehensive view of health and quality of life in Holmes County.

The Florida Department of Health in Holmes County and community health partners met together for the purpose of evaluating the health status of the citizens of the Holmes County area in order to develop health improvement interventions. The goal of these partners was to develop and implement comprehensive, community-based health promotion and wellness programs in the Holmes County area and provide a forum where members may join together to plan, share resources, and implement strategies and programs to address the health care needs of citizens.

The NACCHO MAPP model for community health planning was used, which provides a strategic approach to community health improvement. This model utilizes six distinct phases:

1. Partnership development and organizing for success
2. Visioning
3. The Four MAPP assessments
  - Community Health Status Assessment
  - Community Strength and Themes Assessment
  - Local Public Health System Assessment
  - Forces of Change Assessment
4. Identifying strategic issues
5. Formulating goals and strategies
6. Action (program planning, implementation, and evaluation)

STRATEGIC ISSUE AREA	GOAL
<b>Healthy Lifestyle and Chronic Disease Prevention</b>	<ol style="list-style-type: none"> <li>1. Reduce obesity and chronic disease rates in children and adults to enhance quality of life by promoting healthy lifestyle choices</li> <li>2. Reduce illness, disability, and death related to tobacco use and secondhand smoke exposure.</li> </ol>
<b>Behavioral Health (including Mental Health, Substance Abuse, and Domestic Violence)</b>	<ol style="list-style-type: none"> <li>1. Improve behavioral health (to include mental health, substance abuse, and domestic violence) in Holmes County so that adults, children, and families are healthy participants living in their community.</li> </ol>

## Summary of CHIP Annual Review Meeting

---

### Strategic Issue Area #1: Healthy Lifestyle and Chronic Disease Prevention

The overall goal of the strategic issue area of healthy lifestyle and chronic disease prevention is to enhance quality of life through obesity reduction, chronic disease prevention, and tobacco cessation and reduction in Holmes County. Partnership between the Holmes County School Board, Holmes County Schools, Holmes County community members, and DOH-Holmes will be used to achieve the goal.

**Goal: Reduce obesity and chronic disease rates in children and adults to enhance quality of life by promoting healthy lifestyle choices**

*Strategy 1: Implement one 5K race in Holmes County.*

*Strategy 2: Research other health programs that include physical activity as a component.*

*Strategy 3: Support implementation of Healthy Start walking program (Baby, Let's Move).*

*Strategy 4: Partner with public libraries to implement Take Off Pounds Sensibly (TOPS) programs in Holmes County.*

*Strategy 5: Research other nutrition class options to provide in Holmes County.*

*Strategy 6: Provide educational nutrition display at annual local 5K race.*

*Strategy 7: Research other counties' implementation of 5-2-1-0 or similar local healthy lifestyle promotion campaigns.*

Strategy 8: Partner with lead agencies in Holmes County to create an implementation plan for the 5-2-1-0 or similar local healthy lifestyle promotion campaign.

Strategy 9: Implement a 5-2-1-0 or similar local healthy lifestyle promotion campaign in Holmes County.

Key Partners: Holmes County School Board, Holmes County Schools, Holmes County Public Library, S.W.A.T., faith-based organizations, Big Bend AHEC, FDOH, and task force members

Objective	Indicator	Current Level	Target	Status	Explanation of Status*
By April 30, 2021, increase the percent of adults who engage in aerobic physical activity at least moderate intensity for at least 150 minutes per week, or 75 minutes per week of vigorous activity, or an equivalent combination from 38.1% to 41.1%.	Adults who engage in aerobic physical activity  FL CHARTS, 2015	38.1%	41.1%		5K planning process began with the decision on a date (September 2016) and the formation of a committee who will meet in July to outline planning process.
By April 30, 2021, decrease the percent of adults who are obese from 30.7% to 27.7%.	Adults who are obese  FL CHARTS, 2015	30.7%	27.7%		5K planning process began with the decision on a date (September 2016) and the formation of a committee who will meet in July to outline planning process.

<p><b>By April 30, 2021, increase the percent of adults in Holmes County who consume three or more servings of vegetable per day from 10% to 12%.</b></p>	<p>Adults who consume three or more servings of vegetables per day</p> <p>FL CHARTS, 2015</p>	<p>10%</p>	<p>12%</p>		<p>Educational nutritional display about 5-2-1-0 will be at setup at 5K.</p>
<p><b>By April 30, 2021, decrease the percent of students without sufficient vigorous physical activity from 29.9% to 27.9% in middle school and from 36.7% to 34.7% in high school.</b></p>	<p>Percent of middle and high school students without sufficient vigorous physical activity</p> <p>FL CHARTS, School-Aged Child and Adolescent Profile, 2015</p>	<p>29.9% (middle school)</p> <p>36.7% (high school)</p>	<p>27.9% (middle school)</p> <p>34.7% (high school)</p>		<p>The objective was part of the new CHIP completed at the end of April 2016. <p><b>to 11.5% in middle school and from 14.4% to 11.4% in high school.</b></p>					<p>major goal over the past year was to complete the process for the development of a new CHA and CHIP for Holmes County. This objective was a result of months of discussion, planning, and reviewing surveys.</p>
---	--	--	--	--	---

Status indicators are as follows:

-  = Little to no movement towards objective target
-  = some progress towards meeting the objective target
-  = reached or surpassed objective target

**Goal: Reduce illness, disability, and death related to tobacco use and secondhand smoke exposure.**

*Strategy 1: Increase the number of people trained to conduct cessation classes.*

*Strategy 2: Make cessation classes available on a routine basis with options available in both the day (around lunch hour) and evening.*

*Strategy 3: Assess the number of healthcare providers who are screening for tobacco use and determine what resources providers use to help people quit.*

*Strategy 4: Increase the number of providers who are screening for tobacco use. .*

*Strategy 5: Host a health fair in schools/day cares.*

*Strategy 6: Involve youth in planning and implementing tobacco observances activities (e.g., Through with Chew, Great American Smoke Out, Kick Butts Day).*

*Strategy 7: Implement at least 2 tobacco observances activities at each school in Holmes County each year.*

Key Partners: Holmes County School Board, Holmes County Schools, S.W.A.T., Faith-Based Organizations, Big Bend AHEC, FDOH, and task force members

Objective	Indicator	Current Level	Target	Status	Explanation of Status*
<b>By 2021, reduce the current smoking rate among adults from 23.8% to 20.8% and reduce the use of smokeless tobacco products.</b>	Current smoking rates among adults and the use of smokeless tobacco products.  BRFSS, 2013	23.8%	20.8%		The objective was part of the new CHIP completed at the end of April 2016. Due to the newly developed CHIP, there has been insufficient time to make progress. A major goal over the past year was to complete the process for the development of a new CHA and CHIP for Holmes County. This objective was a result of months of discussion, planning, and reviewing surveys.
<b>By December 31, 2021, reduce the percentage of youth (ages 10-17) that have used cigarettes in their lifetime from 29.5% to 27.5%.</b>	Youth that have used cigarettes in their lifetime  Florida Youth Substance Abuse Survey (FYSAS)	29.5%	27.5%		The objective was part of the new CHIP completed at the end of April 2016. Due to the newly developed CHIP, there has been insufficient time to make progress. A major goal over the past year was to complete the process for the development of a new CHA and CHIP for Holmes County. This objective was a result of months of discussion,

					planning, and reviewing surveys.
<b>By December 31, 2021, reduce the percentage of youth (ages 11-17) that have used smokeless tobacco on one or more of the past 30 days from 12.9% to 9.9%.</b>	Percentage of youth that have used smokeless tobacco on one or more of the past 30 days  2014 Florida Youth Tobacco Survey	12.9%	9.9%		The objective was part of the new CHIP completed at the end of April 2016. Due to the newly developed CHIP, there has been insufficient time to make progress. A major goal over the past year was to complete the process for the development of a new CHA and CHIP for Holmes County. This objective was a result of months of discussion, planning, and reviewing surveys.

Status indicators are as follows:

-  = Little to no movement towards objective target
-  = some progress towards meeting the objective target
-  = reached or surpassed objective target

## **Strategic Issue Area #2: Behavioral Health (including Mental Health, Substance Abuse, and Domestic Violence)**

The overall strategic area of behavioral health aims to improve mental health, substance abuse, and domestic violence in Holmes County. To accomplish the goal, a collaborative effort will be required by the task force and many organizations.

**Goal: Improve behavioral health (to include mental health, substance abuse, and domestic violence) in Holmes County so that adults, children, and families are healthy participants living in their community.**

*Strategy 1: Create a behavioral resource list which includes services, support groups, etc. that are available in Holmes County.*

*Strategy 2: Partner with organizations to provide stress management classes.*

*Strategy 3: Research capacity of faith based organizations to provide behavioral health support.*

*Strategy 4: Support the implementation of the Mental Health First Aid 101 program as conducted by System of Care, Circuit 14.*

*Strategy 5: Partner with Green Dot program to provide education, bystander prevention.*

*Strategy 6: Partner with Healthy Start to educate women on domestic violence.*

*Strategy 7: Partner with the Holmes County Sheriff's Office to provide community education.*

*Strategy 8: Promote abuse hotline at events throughout Holmes County.*

*Strategy 9: Partner with school district to utilize resource officers as substance abuse educators in high schools.*

*Strategy 10: Partner with CARE to educate students on the dangers of drugs and alcohol in middle school.*

*Strategy 11: Bring educational speaker to each school in Holmes County.*

Key Partners: Task force members, Holmes County School Board, Holmes County Schools, focus group members, Green Dot program, Life Management, CARE, faith-based organizations, county government, and community partners.

Objective	Indicator	Current Level	Target	Status	Explanation of Status
By December 31, 2021, reduce the suicide death rate in Holmes County from 21.3 per 100,000 population to 20.3 per 100,000 population.	Suicide death rate FL Charts, 2015	16.6 per 100,000	20.3 per 100,000		The objective was part of the new CHIP completed at the end of April 2016. Due to the newly developed CHIP, there has been insufficient time to make progress. A major goal over the past year was to complete the process for the development of a new CHA and CHIP for Holmes County. This objective was a result of months of discussion, planning, and reviewing surveys.
By December 31, 2021, reduce the percent of Holmes County adults reporting poor mental health on 14 or more of the past 30 days from 13.2% to 12.7%.	Percent of Holmes County adults reporting poor mental health on 14 or more of the past 30 days FL CHARTS, 2015	13.2%	12.7%		The objective was part of the new CHIP completed at the end of April 2016. Due to the newly developed CHIP, there has been insufficient time to make progress. A major goal over the past year was to complete the process for the development of a new CHA and CHIP for Holmes County. This objective was a result of months of discussion,

					planning, and reviewing surveys.
<b>By April 30, 2021, decrease the domestic violence offense rate from 694 offenses per 100,000 population to 619 per 100,000 population.</b>	Domestic violence offense rate  FL Charts, 2015	694 per 100,00	619 per 100,000		The objective was part of the new CHIP completed at the end of April 2016. Due to the newly developed CHIP, there has been insufficient time to make progress. A major goal over the past year was to complete the process for the development of a new CHA and CHIP for Holmes County. This objective was a result of months of discussion, planning, and reviewing surveys.
<b>By April 30, 2021, increase the proportion of adolescents who perceive a great risk of harm from trying marijuana from 37.9% to 39.9%.</b>	Proportion of adolescents who perceive a great risk of harm from trying marijuana  Florida Youth Substance Abuse Survey (FYSAS)	37.9%	39.9%		The objective was part of the new CHIP completed at the end of April 2016. Due to the newly developed CHIP, there has been insufficient time to make progress. A major goal over the past year was to complete the process for the development of a new CHA and CHIP for Holmes County. This objective was a result of

					months of discussion, planning, and reviewing surveys.

-  = some progress towards meeting the objective target
-  = reached or surpassed objective target

## Revisions

---

There are no revisions since this is a new CHA and CHIP for Holmes County.

## Accomplishments

Goal	Objective	Accomplishment
1. To conduct a community health assessment (CHA) for Holmes County	By April 2016, complete the CHA for Holmes County.	The CHA was complete April 2016. From the CHA came the formation of the CHIP which provides direction for local health promotion efforts for the next 5 years in Holmes County.
Partners are the key to the success of the community task force. By aligning and coordinating efforts across various partners and sectors, efforts and improvements in health are amplified. With many community partners, the community task force is better positioned to tackle various health issues collaboratively to ensure residents live longer and healthier lives. Through the utilization of the task force, the Holmes County CHA and CHIP 2016-2021 were completed.		
2. To form a community health improvement plan (CHIP) from the CHA.	By April 2016, use the CHA to formulate the 2016-2021 CHIP.	The CHIP was completed April 2016 and will be utilized to direct health promotion efforts over the next 5 years.
Partners are the key to the success of the community task force. By aligning and coordinating efforts across various partners and sectors, efforts and improvements in health are amplified. With many community partners, the community task force is better positioned to tackle various health issues collaboratively to ensure residents live longer and healthier lives. Through the utilization of the task force, the Holmes County CHA and CHIP 2016-2021 were completed.		

## Conclusion

---

The CHIP serves as a roadmap for a continuous health improvement process for the local public health system by providing a framework for the chosen strategic issue areas. It is not intended to be an exhaustive and static document. We will evaluate progress on an ongoing basis through quarterly CHIP implementation reports and quarterly discussion by community partners. We will conduct annual reviews and revisions based on input from partners and create CHIP annual reports each year by Month, Year. The CHIP will continue to change and evolve over time as new information and insight emerge at the local, state and national levels.

By working together, we can have a significant impact on the community's health, improving where we live, work and play and realize the vision of a healthier Holmes County.

## Holmes County 2016 Annual Update

---

---

---

---

---

---

---

---

### Work Completed in 2015-16 by Healthy Holmes Task Force Partners

- Developed:
  - Community Health Assessment (CHA)
  - Community Health Improvement Plan (CHIP)
- Began work on action plans to address priority issues identified through CHA

---

---

---

---

---

---

---

---

### Community Health Assessment Social & Economic Findings

- Greater proportion of residents have a disability
- Increasing domestic violence rates
- Higher unintentional injury rates
- Lower mean household income
- Larger portion of people living below poverty level
- Greater use of public assistance
- Annual wages increasing, but remains well below the Florida average

---

---

---

---

---

---

---

---

### Community Health Assessment Physical Environment Findings

- Westville area with higher % of houses that lacked plumbing
- Ponce De Leon area is a food desert
  - (food desert is defined as being greater than 1/2 mile of healthy food)

---

---

---

---

---

---

---

---

### Community Health Assessment Health Outcome Findings

- Three leading causes of death
  - #1 Heart Disease
  - #2 Cancer
  - #3 Chronic Lower Respiratory Disease
- Suicide rates above state average
- Teen Pregnancy rates above state average
- Infant mortality rates above state average with highest proportion in white population

---

---

---

---

---

---

---

---

### Community Health Assessment Health Behaviors Findings

- Areas above the state average (self-reported by adults):
  - Told they had diabetes
  - Inability to see a doctor due to cost
  - Poor mental health on 14 or more of the past 30 days
  - Poor physical health on 14 or more of the past 30 days
  - Overweight and obese
  - Sedentary
  - Current smokers

---

---

---

---

---

---

---

---

### Community Health Assessment Health Behaviors Findings

- Areas above the state average (self-reported by youth):
  - Alcohol use in past 30 days
  - Use of cigarettes in past 30 days

---

---

---

---

---

---

---

---

### Impending Changes That Affect the Health of the Community

- The top ranked economic forces include:
  1. Lack of jobs and increasing unemployment
  2. Lack of diversity of industries
  3. Stagnant or decreasing funding for public programs
  4. High rates of poverty
- The top ranked social forces include:
  1. Increase in violence/crime
  2. Increase in mental health issues

---

---

---

---

---

---

---

---

### Community Health Improvement Plan (CHIP) Priority Issues

- Healthy Lifestyle & Chronic Disease Prevention  
(including Obesity, Poor Nutrition/Unhealthy Eating, Tobacco Use, Diabetes, High Blood Pressure, and Heart Disease)
- Behavioral Health  
(including Substance Abuse, Mental Health, and Domestic Violence)

---

---

---

---

---

---

---

---

**Health Issue Priority: Healthy Lifestyle & Chronic Disease Prevention**

**Goal:** Reduce obesity and chronic disease rates in children and adults to enhance quality of life by promoting healthy lifestyle choices.

- Implement one 5K race in Holmes County
  - Committee formed and two meetings have been conducted
  - Race planned for Oct. 1, 2016
- Implement a 5-2-1-0 or similar local healthy lifestyle promotion campaign in Holmes County
  - Information distributed through library and back to school events

---

---

---

---

---

---

---

---

**Health Issue Priority: Healthy Lifestyle & Chronic Disease Prevention**

**Goal:** Reduce illness, disability, and death related to tobacco use and secondhand smoke exposure.

- Make tobacco cessation classes available on a routine basis with options available in both the day (around lunch hour) and evening
  - Holmes County Tobacco Program has worked with AHEC to set up a schedule of classes. Advertising for the classes has been through flyers and word of mouth.

---

---

---

---

---

---

---

---

**Health Issue Priority: Behavioral Health (including Mental Health, Substance Abuse, & Domestic Violence)**

**Goal:** Improve behavioral health (to include mental health, substance abuse, and domestic violence) in Holmes County so that adults, children, and families are healthy participants living in their communities.

- Create a behavioral health resource list which includes services, support groups, etc. that are available in Holmes County
  - Gulf Coast Sexual Assault Program Coordinator checking on current resource guide

---

---

---

---

---

---

---

---

Next Steps?

- Update on the behavioral health resource guide, smoking cessation, and 5K
- Consider planning something for World Heart Day September 29<sup>th</sup>
- Set next meeting date for November 17<sup>th</sup>
- Complete meeting evaluation

---

---

---

---

---

---

---

---

# Pregnant?

**Warning:** Zika can cause certain birth defects  
There is no vaccine to prevent Zika virus infection

## Protect your pregnancy

### From getting Zika from mosquito bites

#### Daytime is most dangerous

Mosquitoes that spread Zika are aggressive daytime biters. They can also bite at night.

#### Use insect repellent

It's safe and it works! Read the label and follow the directions.

#### Cover your skin

Wear long-sleeved shirts and long pants. For extra protection, treat clothing with permethrin.

#### Mosquito-proof your home

Use screens on windows and doors.  
Use air conditioning when available.  
Eliminate standing water.

### From getting Zika from sex

#### Don't have sex

Don't have sex with your male partner during your pregnancy.

OR

#### Use a condom

Use a condom the right way every time you have vaginal, anal, or oral sex during your pregnancy.

#### Talk to your healthcare provider

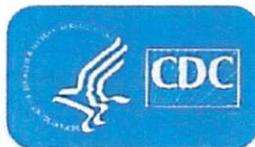

If you think your male partner may have or had Zika, tell your healthcare provider if you had sex without a condom.
