

Questions and Answers to the FY 21-22 Funding Opportunity Announcements:

- Is it allowable to resubmit an application as a formal resubmission that was submitted to an earlier competition year and not in the immediate prior competition year? Or can this only be submitted as a new application?
 - ANSWER: You can resubmit and indicate in the application that this is a resubmission.
- You mention this funding cycle, will submit their progress reports through the Peer Net system? Does this include funded grants? If yes, when will this begin?
 - ANSWER: Reporting through Peer Net will begin in the second half of FY 21-22; the planned timeframe is January 30.
- If the principal investigator is in Florida but I'm a student out-side of Florida. Can I still apply to the funding?
 - ANSWER: The funds are to build Florida research capability. The PI can choose to apply with you as the post-doctoral fellow.
- I am a theoretical and computational biophysical chemist. I want to know if your research programs have supported/awarded purely computational work in James and Esther King Biomedical Research Program and Ed & Ethel Moore Alzheimer's Disease Research Program. Thanks.
 - ANSWER: Yes.
- Due to the competitive nature of the Bankhead Coly program already, do you recommend applying if we are working in a different cancer such as pancreatic? Over the past 3 to 5 years have projects been funded that work on cancers other than those listed on the RFA? To confirm, I have a PI who researches Pancreatic Cancer, but they did not believe they could apply for a BHC because it was not listed as one of the cancers on the FOA. Can I go ahead and let them know they can apply?
 - ANSWER: There is no restriction on the type of cancer. Good science is what gets funded.
- For the King awards - do projects have to be directly related to how smoking affects diseases such as stroke, cardiovascular OR just include diseases that are known to be caused by smoking?
 - ANSWER: Research can focus on diseases caused by smoking. Those mentioned are applicable.
- Is there any reason why the FOA does not provide formatting and Page limit requirements?
 - ANSWER: Formatting is indicated in the online application.

- Can a postdoctoral fellow who is not a citizen or permanent resident apply under the mentorship of their PI who is a citizen or permanent resident?
 - ANSWER: The funds are to build Florida research capability. The PI can choose to apply with you as the post-doctoral fellow.
