

Announcement of Amendment to the FY 2016-2017 James and Esther King Funding Opportunity Announcement (FOA)

The deadlines for the Letter of Intent and the Application WILL NOT be extended as a result of this amendment. All deadlines listed in the Schedule of Important Dates on page 12 of the FOA remain unchanged.

The purpose of this amendment is to correct an administrative error in the FY 2016-2017 James and Esther King FOA. On page seven of the current FOA it states that,

Applications must describe:

- A plan for providing access to the funded infrastructure.
- A scientific advisory process involving researchers from at least two of the major cancer centers in Florida, and at least two regional cancer centers.
- A community advisory process that represents the perspective of participants in research, with particular focus on the perspectives of underserved and minority populations and communities that historically lack trust in research.

This amendment revises the highlighted portion to read as follows: “A scientific advisory process involving researchers from at least four universities and/or research institutions.”
