

## Florida Health Grand Rounds

Presenter Bio

**Presented by Nikema Peterson, MPH**

Nikema Peterson, is the Health Data Analyst for the Newborn Hearing Screening program at the Florida Department of Health and has a background in Epidemiology and Biostatistics. Ms. Peterson is also currently a Pharmaceutical Sciences PhD student studying Health Outcomes Research and Pharmacoeconomics. As a product of the Florida Agricultural and Mechanical University Institute of Public Health, Ms. Peterson's main research interest is Maternal and Child Health. Ms. Peterson has had the pleasure of serving the Newborn Hearing Screening program for a little over two years after completing her role as an Intern-Epidemiologist with the Centers for Disease Control and Prevention. Ms. Peterson is committed to improving maternal and child health outcomes at the state and national levels through research that aids in evidence-based practice improvement.
