

Announcement of Amendment to the FY 2018-2019 Funding Opportunity Announcements (FOAs) for the

- **Bankhead-Coley Cancer Research Program,**
- **James and Esther King Biomedical Research Program,**
- **Live Like Bella Pediatric Cancer Research Initiative, and**
- **Ed and Ethel Moore Alzheimer’s Disease Research Grant Program**

It has recently come to the Department’s attention that interested parties at some institutions did not receive the announcement of funding opportunity that was sent out through the FDOH BulkMailer. We are working to identify the source of this problem. In the meantime, we have extended the deadlines for the Letter of Intent and Main Application for each of these programs by one week.

For Bankhead-Coley, King, and Bella, the deadline to submit the Letter of Intent is now **5:00 p.m. EST, September 7, 2018.** The deadline to submit the Main Application is now **5:00 p.m. EST, October 26, 2018.**

For Moore/Alzheimer’s Disease, the deadline to submit the Letter of Intent is now **5:00 p.m. EST, September 7, 2018.** The deadline to submit the Main Application is now **5:00 p.m. EST, October 15, 2018.**
