

## Florida's Prescription Drug Monitoring Program

### PRESCRIBER AND PHARMACIST PATIENT RxSEARCH

Practitioners and pharmacists may request patient-specific information from the E-FORCSE® Prescription Drug Monitoring system to guide their prescribing and dispensing decisions.

Perform the following steps when making a request in PMP AWARe, the service provider for E-FORCSE®:

1 Open an Internet browser window and navigate to: [www.https://florida.pmpaware.net](http://www.https://florida.pmpaware.net).  
If a password reset is needed, use the [Reset Password link](#).

2 Click the Menu button, then under RxSearch, choose **Patient Request**.

3 Enter search criteria. At a minimum, you must provide:

- **First name** (full or partial\*)
- **Last Name** (full or partial\*)
- **Date of birth** (MM/DD/YYYY\*)
- **Prescription fill dates** (MM/DD/YYYY)

4 Click **Search** at the bottom of the screen to submit your request.

5 The **Patient Report** will now display. If *multiple patients* are identified, you will be presented with the option to *refine your search* by providing additional search information or you may select a *single, multiple, or all returned patient groups* to include in your patient results.

6 Click **Run Report**, the patient prescription results will be displayed.

7 You may retrieve your **Patient Reports** and the **Patient Reports** of any designee by clicking on the **Requests History** tab.

**Patient Request Search Tips:**

- \*Partial Spelling:** Using partial spelling can be helpful for hyphenated or commonly abbreviated names (Will vs. William). At a minimum, enter the first three characters of the patient's first and/or last name.
- Prescription Fill Dates:** The maximum timeframe for a search is 24 months.
- For in-state searches only:** To broaden search results, do not enter ZIP code.
- Also search:** Allows you to search other participating state Prescription Drug Monitoring Program databases for the patient records. To improve the likelihood of finding a specific patient limit your search to only the required fields.

E-FORCSE® recommends against printing patient reports, however if the information is printed it should be safeguarded and not shared or released. The penalty for improper release of the information is considered a third degree felony. For more information visit [www.e-forcse.com](http://www.e-forcse.com) or technical assistance (877) 719-3120.
