

Florida's Prescription Drug Monitoring Program

QUARTERLY DASHBOARD

PERFORMANCE MEASURE

P1

The number of controlled substance dispensing records that have been reported to the Prescription Drug Monitoring Program (PDMP) since it began collecting data on September 1, 2011.

March 31, 2016

180,228,140

P2

The number of prescriptions of the most commonly dispensed controlled substances.

As of
March 31, 2016

P3

The percentage of pharmacies that are reporting controlled substance prescriptions to the Prescription Drug Monitoring Program, as required by section 893.055, Florida Statutes.

The PDMP staff conducted its first audit of pharmacies required to report to the PDMP upon dispensing controlled substances on May 7, 2014. During the period of January-February 2014, 5,213 out of 5,760 (90.5%) pharmacies were found to be in compliance with reporting requirements.

P4

The number of health care practitioners who have requested access to the Prescription Drug Monitoring Program database and the number of authorized users who have requested and received controlled substance dispensing information by user type.

Among all licensed health care practitioners, pharmacists have the highest registration rate, 53.2 percent. Additionally, pharmacists have the highest utilization rate, 90.5 percent, and have queried the database 14,389,725 times.

Among all prescribers, osteopathic physicians have the highest registration rate, 33 percent. Overall 22.8 percent of all licensed health care practitioners have registered to use the database. In addition, 79.1 percent of all healthcare practitioners registered to use the database have queried 25,251,430 times.

TOP 10 CONTROLLED SUBSTANCES	NUMBER OF RX
HYDROCODONE/ACETAMINOPHEN	1,304,765
ALPRAZOLAM	1,128,126
OXYCODONE HCL/ACETAMINOPHEN	820,587
TRAMADOL HCL	775,327
ZOLPIDEM TARTRATE	642,696
CLONAZEPAM	550,676
LORAZEPAM	472,439
DEXTROAMPHETAMINE/AMPHETAMINE	414,506
OXYCODONE HCL	396,593
TEMAZEPAM	370,997

License Type	Number Registered Users	Total Number Licensed	Percentage Registered	Number Users That Have Queried	Percentage Users that have Queried	Number of Queries
ARNP	2,113	20,944	10.1%	1,430	73.3%	603,862
Dentist	866	13,130	6.6%	478	59.5%	19,361
Medical Doctor	12,020	70,558	17.0%	7,673	67.5%	7,989,564
Optometrist	10	3,167	0.3%	2	30.0%	6
Osteopathic Physician	2,540	7,687	33.0%	1,797	75.7%	1,799,591
Physician Assistant	1,616	7,613	21.2%	1,190	78.5%	445,450
Podiatric Physician	179	1,834	9.8%	82	54.7%	3,871
Pharmacist	15,998	30,093	53.2%	14,165	90.5%	14,389,725
TOTAL	32,993	155,026	22.8%	27,946	79.1%	25,251,430

P5

The percentage of the top 200 prescribers who are registered to access the PDMP database and percentage of those registered who have queried patient specific controlled substance dispensing information.

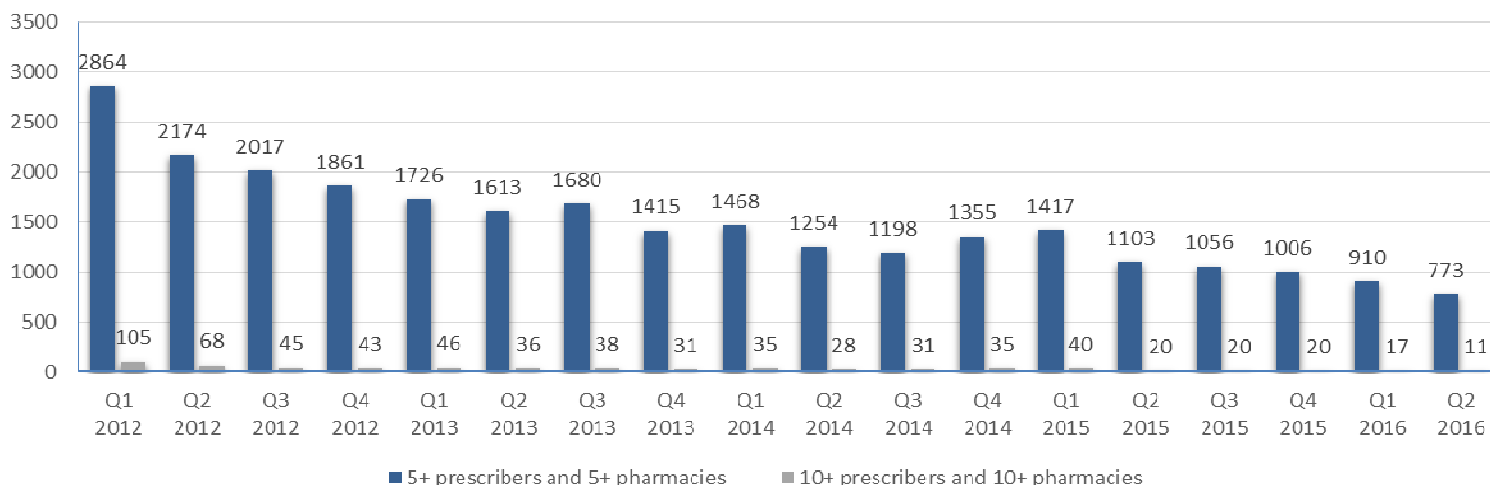

January 1, 2016 to March 31, 2016

- 173/200 (87%) of Top 200 prescribers registered of which 167/173 (97%) have queried
- 167/200 (84%) of Top 200 prescribers are MDs of which 144/167 (86%) have registered and 139/144 (97%) have queried
- 33/200 (16%) of top prescribers are DOs of which 30/33 (91%) have registered and 28/30 (93%) of those registered have queried

P6

The number of individuals receiving a controlled substance prescription from five or more prescribers (or 10 or more prescribers) and having controlled substance prescriptions dispensed from five or more pharmacies (or 10 or more pharmacies) during a 90-day period.

73% Decrease in Doctor Shopping

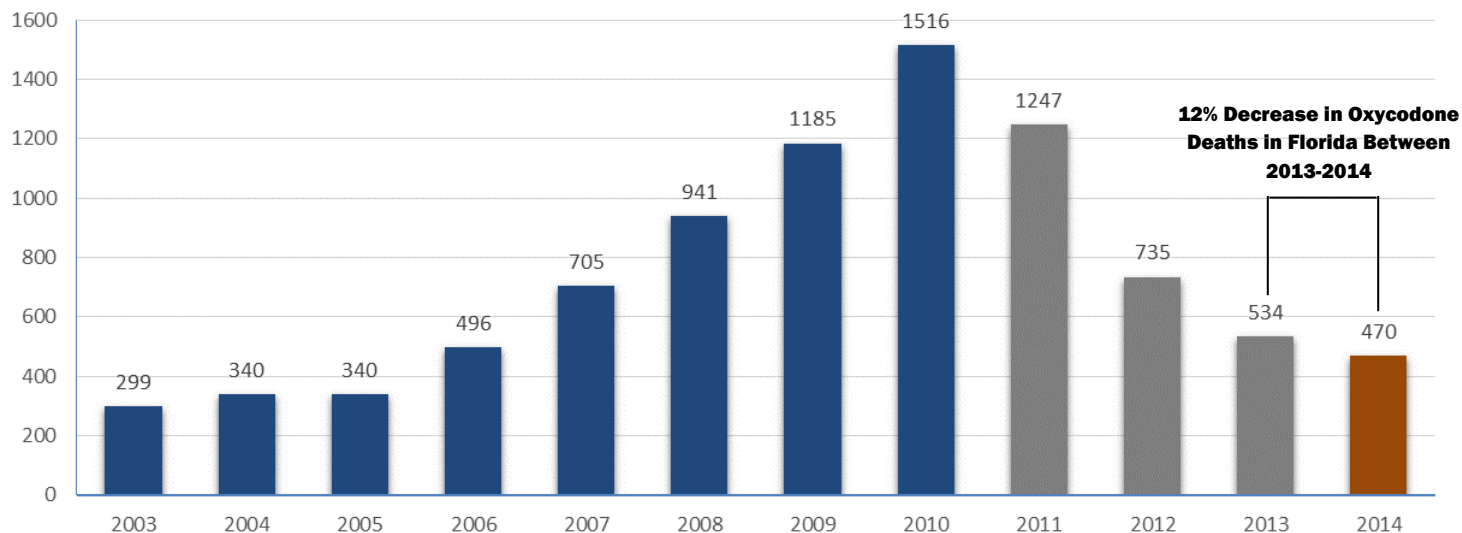

P7

The Drugs Identified in Deceased Persons by Florida Medical Examiners 2014 Report shows a 69 percent decrease in deaths caused by oxycodone since 2010.

The Drugs Identified in Deceased Persons by Florida Medical Examiners 2014 Report shows a 12 percent decrease in deaths caused by oxycodone when compared to 2013.
