<u>Exclusions</u>	N/A

Disclaimer

12 Lead EKG

EMSTARS records of emergency calls which contain patient information or treatment information are confidential and exempt from the provisions of section 119.07(1), Florida Statute and may only be disclosed with consent of the Department. §401.30(4), F.S. The department has utilized demographic data points to group agencies within a specific statistical group. This method provides EMS agencies the ability to compare their performance against a state benchmark as well as benchmark with agencies of like population, service size area, and call volume. This method preserves proprietary and confidential information while providing a mechanism for the improvement of clinical care and emergency response.

12 Lead EKG Report

Chest Pain Patients	Chest Pain Patients Receiving 12-Lead EKG	12 Lead EKG Percentage
74,895	10,312	13.77%

State 12 Lead EKG Percentage

This report and many more can be accessed through the Emergency Medical Services Tracking and Reporting System (EMSTARS) Clinical Data Exchange (CDX). The EMSTARS CDX provides participating agencies with the ability view their quality improvement reports and compare to the state average. Additionally, the system will allow a participating EMS agency to generate these reports to benchmark against agencies of a similar call volume, population, and service size area. Custom filters may be placed on a report to limit to things like Type of Service Requested, Response Mode to Scene, or Provider's Primary Impression. You may log into your EMSTARS CDX account to access these reports. Visit www.FloridaEMSTARS.com for more information about the EMSTARS program. Please do not hesitate to contact the EMSTARS team at emstars@flhealth.gov if you have any questions regarding these reports or general questions about the program.
